Subscribed Tien Tzuo, Gabe Weisert, 2018-06-05 A USA Today bestseller! Companies like Netflix, Spotify, and Salesforce are just the tip of the iceberg for the subscription model. The real transformation--and the real opportunity--is just beginning. Subscription companies are growing nine times faster than the S&P 500. Why? Because unlike product companies, subscription companies know their customers. A happy subscriber base is the ultimate economic moat. Today's consumers prefer the advantages of access over the hassles of maintenance, from transportation (Uber, Surf Air), to clothing (Stitch Fix, Eleven James), to razor blades and makeup (Dollar Shave Club, Birchbox). Companies are similarly demanding easier, long-term solutions, trading their server rooms for cloud storage solutions like Box. Simply put, the world is shifting from products to services. But how do you turn customers into subscribers? As the CEO of the world's largest subscription management platform, Tien Tzuo has helped hundreds of companies transition from relying on individual sales to building customer-centric, recurring-revenue businesses. His core message in *Subscribed* is simple: Ready or not, excited or terrified, you need to adapt to the Subscription Economy -- or risk being left behind. Tzuo shows how to use subscriptions to build lucrative, ongoing one-on-one relationships with your customers. This may require reinventing substantial parts of your company, from your accounting practices to your entire IT architecture, but the payoff can be enormous. Just look at the case studies: * Adobe transitions from selling enterprise software licenses to offering cloud-based solutions for a flat monthly fee, and quadruples its valuation. * Fender evolves from selling guitars one at a time to creating lifelong musicians by teaching beginners to play, and keeping them inspired for life. * Caterpillar uses subscriptions to help solve problems -- it's not about how many tractors you can rent, but how much dirt you need to move. In *Subscribed*, you'll learn how these companies made the shift, and how you can transform your own product into a valuable service with a practical, step-by-step framework. Find out how how you can prepare and prosper now, rather than trying to catch up later.

Music by Subscription Simon D.I. Fleming, Martin Perkins, 2021-12-30 This book breaks new ground in the social and cultural history of eighteenth-century music in Britain through the study of a hitherto neglected resource, the lists of subscribers that were attached to a wide variety of publications, including musical works. These lists shed considerable light on the nature of those who subscribed to music, including their social status, place of employment, residence, and musical interests. Through broad analysis of subscription data, the contributors reveal insights into social and economic changes during the period, and the types of music favoured by groups like music clubs, the aristocracy, the clergy, and by men and women. With chapters on female composers and listeners, music and the slave economy, musical patronage, the print trade, and nationality, this book provides innovative perspectives that enhance our understanding of music's social spheres, the emergence of music publishing, and the potential of digital musicology research.

SUMMARY - Subscribed: Why The Subscription Model Will Be Your Company's Future - And What To Do About It By Tien Tzuo And Gabe Weisert Shortcut Edition, 2021-06-27 *

Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. *By reading this summary, you will discover how to move your business to a subscription-based business model. *You will also discover: who benefits from the subscription system; how to apply this business model to all sectors of activity; how combining the sale of a product and a service can save the physical business; how to change your organization and corporate culture to a subscription model. *Driven by giants like Netflix or Spotify, companies offering subscription-based services are now growing faster than those selling products. This new trend seems to be sustainable because it better meets the needs of consumers by providing them with the service they want instead of imposing a product. If you are already an entrepreneur, it is time to change your business model before the market is saturated. If you have a business plan, create a subscription-based service right away. Why is this business model your future? *Buy now the summary of this book for the modest price of a cup of coffee!
