The Storm Before the Calm George Friedman,2020-02-25 *One of Bloomberg's Best Books of the Year* The master geopolitical forecaster and New York Times bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year institutional cycle that has defined us (there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year socio-economic cycle that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability, and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.

Ordering the Storm Susan Grimm,2006 Literary Nonfiction. Poetics. ORDERING THE STORM empowers readers to see the poetry collection as an artistic medium in itself, and offers diverse perspectives on the subject. Experienced writers and beginners alike will find inspiration and encouragement in the words of exceptional poets such as Maggie Anderson, Wanda Coleman, and Beckian Fritz Goldberg. This book should be required reading for all graduate student poets, even those who are still in the process of writing their first collection, because it includes essential information on poetic sequencing and useful strategies for examining a manuscript's possibilities. One of the most exciting aspects of the book is the sense of community that readers feel upon exploring each essay. A Different Sort of Normal Abigail Balfe,2021-07-22 'I REALLY love it. Buy it for your kids, your parents, your grandparents. Mostly buy it for yourself' Holly Smale, author of the Geek Girl series 'This book is what I needed as a kid! Empathetic, joyful and beautifully authentic. I loved it!' Elle McNicoll, author of *A Kind of Spark* *The beautiful true story of one girl's journey growing up autistic - and the challenges she faced in the 'normal' world* I'm not like the other children in my class . . . and that's an actual scientific FACT. Hi! My name is Abigail, and I'm autistic. But I didn't know I was autistic until I was an adult-sort-of-person*. This is my true story of growing up in the confusing 'normal' world, all the while missing some Very Important Information about myself. There'll be scary moments involving toilets and crowded trains, heart-warming tales of cats and pianos, and funny memories including my dad and a mysterious tub of ice cream. Along the way you'll also find some Very Crucial Information about autism. If you've ever felt different, out of place, like you

don't fit in . . . this book is for you. *I've never really felt like an actual-adult-person, as you'll soon discover in this book... 'Funny, fascinating . . . a rewarding and highly entertaining read' Guardian Told through the author's remarkable words, and just as remarkable illustrations, this is the book for those who've never felt quite right in the 'normal' world.

Harbinger of the Storm Aliette de Bodard, 2016-01-05 The second book in the critically acclaimed Obsidian and Blood trilogy: The year is Two House, and the Emperor of the Mexica has just died. The protections he afforded the Empire are crumbling, and the way lies wide open to the flesh-eating star-demons-- and to the return of their creator, a malevolent goddess only held in check by the War God's power. The council should convene to choose a new Emperor, but they are too busy plotting against each other. And then someone starts summoning star-demons within the palace, to kill councilmen... Acatl, High Priest of the Dead, must find the culprit before everything is torn apart. **REVIEWS:** 'Political intrigue and rivalry among a complex pantheon of divinities drive this well-paced murder mystery set at the height of the Aztec Empire in the late 15th century. De Bodard reintroduces the series hero Acatl, high priest of the dead, immediately following the death of the Tenochtitlan leader. One of the council members in charge of choosing a successor has been brutally murdered in what looks like an attempt to influence the decision. But the deaths continue and the political situation grows more complex, while the empire looks to be increasingly at risk of invasion by malignant powers. Acatl must go face-to-face with the most powerful god in his world and put the good of the empire above his antipathy for his rivals to achieve the uneasy succession. De Bodard incorporates historical fact with great ease and manages the rare feat of explaining complex culture and political system without lecturing or boring the reader.' —Publishers Weekly 'Another thing that intrigues me here is the whole fact that historically we know that the real empire died out mysteriously and completely and as such there is always that thought in the back of my mind that the author could choose to bring about the end of days. That highlighted sense of possible doom is something that is missing from too many novels. The way the story is told in this book is very impressive, the plot is both mature and seductive, twisting and turning like a weather vane in a force 9 gale while the action is both bloodthirsty and imaginative. The world building is fantastic and we get to learn even more of this rich culture and the many gods and creatures of the dark. I really can't fault this book at all and recommend it to one and all but if you haven't yet read *Servant of the Underworld* I suggest that you get them both and read them in order, you won't be disappointed.' —SF Book Reviews 'Bodard's writing is polished and striking, as she convincingly fills in the colorful elements of the Aztec culture—even if those colors tend to be of blood and bile as well as flowers and hummingbirds... beautiful, grimy, breathtaking, and morbid. 5*' —Examiner 'Aliette de Bodard has done it again. *Harbinger of the Storm* is an action packed Aztec mystery opera with magic, interventions from the gods and more twists and turns than the first book. It even has a love story with amusing snippets here and there... The story is self contained and can be enjoyed standalone, but you will not want to miss out on the first. I wish it was 2012 already even if the world is going under while I read the final *Obsidian & Blood*.' —Cybermage

Sorting Things Out Geoffrey C. Bowker, Susan Leigh Star, 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the

role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

Anchors in the Storm Jessica Kane,2020-12 *Anchors in the Storm* is a book for children and families about loss and grief. It is a spiritual book that addresses difficult feelings in a way that encourages connection. In my experience, by talking about difficult feelings, we get to know our loved ones on a deeper level, a level that creates the very connections that really are everlasting. I hope this book can provide some comfort and connection for children and their families as they navigate trying times.

The Storm Before the Storm Mike Duncan,2017-10-24 The creator of the award-winning podcast series *The History of Rome* and *Revolutions* brings to life the bloody battles, political machinations, and human drama that set the stage for the fall of the Roman Republic. The Roman Republic was one of the most remarkable achievements in the history of civilization. Beginning as a small city-state in central Italy, Rome gradually expanded into a wider world filled with petty tyrants, barbarian chieftains, and despotic kings. Through the centuries, Rome's model of cooperative and participatory government remained remarkably durable and unmatched in the history of the ancient world. In 146 BC, Rome finally emerged as the strongest power in the Mediterranean. But the very success of the Republic proved to be its undoing. The republican system was unable to cope with the vast empire Rome now ruled: rising economic inequality disrupted traditional ways of life, endemic social and ethnic prejudice led to clashes over citizenship and voting rights, and rampant corruption and ruthless ambition sparked violent political clashes that cracked the once indestructible foundations of the Republic. Chronicling the years 146-78 BC, *The Storm Before the Storm* dives headlong into the first generation to face this treacherous new political environment. Abandoning the ancient principles of their forbearers, men like Marius, Sulla, and the Gracchi brothers set dangerous new precedents that would start the Republic on the road to destruction and provide a stark warning about what can happen to a civilization that has lost its way.

Shelter in a Time of Storm Jelani M. Favors, 2019-02-08 2020 Museum of African American History Stone Book Award 2020 Lillian Smith Book Award Finalist, 2020 Pauli Murray Book Prize For generations, historically Black colleges and universities (HBCUs) have been essential institutions for the African

American community. Their nurturing environments not only provided educational advancement but also catalyzed the Black freedom struggle, forever altering the political destiny of the United States. In this book, Jelani M. Favors offers a history of HBCUs from the 1837 founding of Cheyney State University to the present, told through the lens of how they fostered student activism. Favors chronicles the development and significance of HBCUs through stories from institutions such as Cheyney State University, Tougaloo College, Bennett College, Alabama State University, Jackson State University, Southern University, and North Carolina A&T. He demonstrates how HBCUs became a refuge during the oppression of the Jim Crow era and illustrates the central role their campus communities played during the civil rights and Black Power movements. Throughout this definitive history of how HBCUs became a vital seedbed for politicians, community leaders, reformers, and activists, Favors emphasizes what he calls an unwritten second curriculum at HBCUs, one that offered students a grounding in idealism, racial consciousness, and cultural nationalism.

The Storm-God and the Sea Noga Ayali-Darshan, 2020-05-12 The tale of the combat between the Storm-god and the Sea that began circulating in the early second millennium BCE was one of the most well-known ancient Near Eastern myths. Its widespread dissemination in distinct versions across disparate locations and time periods - Syria, Egypt, Anatolia, Ugarit, Mesopotamia, and Israel - calls for analysis of all the textual variants in order to determine its earliest form, geo-cultural origin, and transmission history. In undertaking this task, Noga Ayali-Darshan examines works such as the Astarte Papyrus, the Pisaisa Myth, the Songs of Hedammu and Ullikummi, the Baal Cycle, Enuma elis, and pertinent biblical texts. She interprets these and other related writings philologically according to their provenance and comparatively in the light of parallel texts. The examination of this story appearing in all the ancient Near Eastern cultures also calls for a discussion of the theology, literature, and history of these societies and the way they shaped the local versions of the myth.
