Written by an experienced practitioner, it will help you to understand your congregation better: how it operates, what its members take for granted, what their priorities are and what the 'character' of the congregation is. The book then explains some of the reasons for frustration and conflict in church life, and points to positive ways forward, giving guidance on planning and decision-making. Just as no two churches are the same, there is no 'one-size-fits-all' answer to how your church might develop. *How to Tame a Fox (and Build a Dog)* Lee Alan Dugatkin,Lyudmila Trut,2017-03-23 This true story of an amazing breeding experiment in Siberia is “part science, part Russian fairy tale, and part spy thriller” (The New York Times Book Review). Tucked away in Siberia, there are furry, four-legged creatures with wagging tails and floppy ears that are as docile and friendly as any lapdog. But despite appearances, these are not dogs—they are foxes. They are the result of the most astonishing experiment in breeding ever undertaken—imagine speeding up thousands of years of evolution into a few decades. In 1959, biologists Dmitri Belyaev and Lyudmila Trut set out to do just that, starting with a few dozen silver foxes from fox farms in the USSR and attempting to recreate the evolution of wolves into dogs in real time in order to witness the process of domestication. This is the extraordinary, untold story of this remarkable undertaking. Most accounts of the natural evolution of wolves place it over a span of about 15,000 years, but within a decade, Belyaev and Trut's fox breeding experiments had resulted in puppy-like foxes with floppy ears, piebald spots, and curly tails. Along with these physical changes came genetic and behavioral changes, and with each generation, they became increasingly interested in human companionship. To date, fifty-six generations of foxes have been domesticated. In this book Trut, along with biologist and science writer Lee Dugatkin, tells the story of the adventure, science, politics, and love behind it all. Dugatkin and Trut take us inside this path-breaking experiment in the midst of the brutal Siberian winters to reveal how scientific history is made and continues to be made today. “The science is profound, but the authors write accessibly and engagingly—and their vulpine subjects are awfully cute, too. Of compelling interest to any animal lover.” —Kirkus Reviews (starred review) “A cheerful, easy-to-read account. . . . spin[s] complex genetic science into a fascinating story about adorable foxes.” —Publishers Weekly “An extraordinary story.” —Times Literary Supplement

**How To Clear The Negative Ego** Joshua Stone,2001-02-07 There is no more important lesson in life to understand, then it is your thoughts that create your reality! Your thoughts create your feelings, emotions, behavior and what you attract and magnetize into your life. Many people think that we see with our eyes. The truth is we see through our consciousness, minds and belief system! There are in truth only two philosophies and feelings and emotions in life. The philosophy and feeling of fear, and the philosophy and feeling of Love. The key to realizing God is to only think and feel from your Love based/Spiritual/Christ/Buddha mind. This is why the Bible states, Let this mind be in you that was in Christ Jesus! It is by mastering our mind that all negative feeling and emotions can be released and one can learn to live in self mastery, centeredness, unconditional love, joy, peace, forgiveness, nonjudgmentalness and equanimity at all times!

*How Not to Kill a Muslim* Joshua Graves,2015-04-13 The adherents of Islam and Christianity comprise half of the world's population, or 3.5 billion people. Tension between them exists throughout the world and is increasing here in North America. In How Not to Kill a Muslim, Dr. Joshua Graves provides a practical subversive theological framework for a strategic posture of peaceful engagement between Christians and Muslims. Based upon both academic and personal experience (Josh grew up in Metro Detroit), this book will provide progressive Christians with a clear understanding of Jesus' radical message of inclusivity and love. There is no one who is not a neighbor. There is no them. There's only us. Our future depends upon this becoming true in our cities, synagogues, churches, and mosques. In pluralistic societies such as those of Canada and the United States, the true test of Christianity is what it offers those who are not Christian. And it starts with Islam.
