Research Questions in Language Education and Applied Linguistics Hassan Mohebbi, Christine Coombe, 2022-01-13 This volume encompasses the range of research questions on language-related problems that arise in language teaching, learning and assessment. The [150] chapters are written by experts in the field who each offer their insights into current and future directions of research, and who suggest several highly relevant research questions. Topics include, but are not limited to: language skills teaching, language skills assessment and testing, measurement, feedback, discourse analysis, pragmatics, semantics, language learning through technology, CALL, MALL, ESP, EAP, ERPP, TBLT, materials development, genre analysis, needs analysis, corpus, content-based language teaching, language teaching and learning strategies, individual differences, research methods, classroom research, form-focused instruction, age effects, literacy, proficiency, and teacher education and teacher development. The book serves as a reference and offers inspiration to researchers and students in language education. An important skill in reviewing the research literature is following a study's "plan of attack." Broadly, this means that before accepting and acting upon the findings, one considers a) the research question (Is it clear and focused? Measurable?), b) the subjects examined, the methods deployed, and the measures chosen (Do they fit the study's goal and have the potential to yield useful results?), and c) the analysis of the data (Do the data lead to the discussion presented? Has the author reasonably interpreted results to reach the conclusion?). Mohebbi and Coombe's book, *Research Questions in Language Education and Applied Linguistics: A Reference Guide*, helps budding researchers take the first step and develop a solid research question. As the field of language education evolves, we need continual research to improve our instructional and assessment practices and our understanding of the learners' language learning processes. This book with its remarkable 150 topics and 10 times the number of potential research questions provides a wealth of ideas that will help early career researchers conduct studies that move our field forward and grow our knowledge base. Deborah J. Short, Ph.D., Director, Academic Language Research & Training, Past President, TESOL International Association (2021-22) As a teacher in graduate programs in TESOL I frequently come across the frustration of students at centering their research interests on a particular topic and developing research questions which are worth pursuing so as to make a contribution to the field. This frustration stems from the fact that our field is so vast and interrelated, that it is often impossible to properly address all that interests them. Hence, I wholeheartedly welcome this most relevant and innovative addition to the research literature in the field of TESOL and Applied Linguistics. Coombe and Mohebbi have created a real tour de force that stands to inform budding researchers in the field for many years to come. Additionally, the cutting-edge depiction of the field and all it has to offer will no doubt update the research agendas of many seasoned researchers around the world. The 150 chapters are organized in a most powerful, yet, deceptively simple way offering a positioning within the topic, suggesting questions that might direct inquiry and offering a basic set of bibliographic tools to start the reader in the path towards research. What is more, the nine sections in which the chapters are organized leave no area of the field unexplored. Dr. Gabriel Díaz Maggioli, Academic Advisor, Institute of Education, Universidad ORT del Uruguay, President, IATEFL

Language Teacher Psychology Sarah Mercer, Achilleas Kostoulas, 2018-01-05 To date, the majority of work in language learning psychology has focused on the learner. In contrast, relatively little attention has been paid to teacher psychology. This volume seeks to redress the imbalance by bringing together various strands of research into the psychology of language teachers. It consists of 19 contributions on well-established areas of teacher psychology, as well as areas that have only recently begun to be explored. This original collection, which covers a multitude of theoretical and methodological perspectives, makes a significant contribution to the emerging field of language teacher psychology as a domain of inquiry within language education.

Exploring Language Teacher Efficacy in Japan Gene Thompson, 2020-05-14 This book examines language teacher efficacy beliefs, focusing on the individual and collective beliefs of Japanese high school teachers. It discusses personal and collective dimensions of language teacher efficacy related to personal second language (L2) capability, instructional L2 efficacy and collective capability towards collaboration. The book provides a detailed discussion about the ways in which these beliefs develop and situates the findings within the wider field of teacher efficacy research. It helps further understanding of factors that may influence teacher self-efficacy and suggests new directions for research to explore in future studies. It will appeal to postgraduates and researchers with an interest in language teacher cognition, the psychology of language teaching and those in the wider fields of self-efficacy, teacher efficacy and teacher agency. It is also of use to those with an interest in the high school English education system in Japan, as well as researchers investigating similar contexts.

The White Shadow Andrea Eames, 2012 Tinashe is a young Shona boy living in a small village in rural Rhodesia. The guerilla war of the late 1960s haunts the bushlands, but it only infrequently affects his quiet life; school, swimming in the river, playing with the other kids on the kopje. When his younger sister, Hazvinei, is born, Tinashe knows at once that there is something special about her. Their life in the village, once disturbed only by the occasional visits of his successful uncle and city cousin, Abel, now becomes entangled with the dual forces of the Shona spirit world and the political turmoil of the nation. As Tinashe, Hazvinei and Abel grow older, their destinies entangle in ways they never expected. Tinashe is prepared to follow his sister anywhere - but how far can he go to keep her safe when the forces threatening her are so much darker and more sinister than he suspected? Andrea Eames weaves together folklore and suspense in this compelling tale of a boy struggling to do the right thing in an unpredictable world.

Innovation in Language Learning and Teaching Linh Phung, Hayo Reinders, Pham Vu Phi Ho, 2024-05-31 This book investigates the ways in which new developments in areas of language teaching practice, such as policy-making, planning, methodology and the use of educational technology are locally adopted, adapted, initiated, and implemented in Vietnam and Cambodia. The region is responding to a large number of significant challenges, including large-scale education reforms, the effects of globalisation and the need for lifelong learning, as well as concerns about the quality of its language education system. By looking at the drivers, stakeholders, obstacles and affordances in one particular regional context, the authors examine how processes of change occur. This will help anyone involved in language development, from curriculum reform to materials development, and from programme evaluation to the setting of assessment standards. The book will be of particular interest to those involved in managing change in language education that attempts to mediate between global trends and local needs, as well as students and scholars working in language education, applied linguistics and related fields.
