Energy Transitions and Social Psychology Paul Upham, Paula Bögel, Katinka Johansen, 2019-02-01 This book explains how social psychological concepts can be closely integrated with sociotechnical perspectives of energy transitions. It shows the value of actor-centred analysis that acknowledges the role of individual-level processes within their wider contexts of energy supply and use. In this way, the book connects social psychological and sociological frames of analysis, preserving the value of both, to provide multi-level, analytically extended accounts of energy transitions processes. Sociotechnical thinking is about the interactions of people and technology, including the rules, regulations and institutions involved. Such perspectives help to identify the many forms of path dependency that can make change difficult. Human behaviour plays a strong role in maintaining these path dependencies, but it can also introduce change. This book advocates a deliberately interdisciplinary research agenda that recognises the value of social psychological perspectives when seeking to create new pathways for energy supply and use. At the same time, it also demonstrates the value of sociotechnical perspectives for energy-related social psychology. Energy Transitions and Social Psychology will be of great interest to students and scholars of energy transitions, environmental and energy psychology, sustainable development and innovation studies, as well as students and scholars of environment and energy more generally.

Aesthetics of Music Stephen Downes, 2014-06-27 Aesthetics of Music: Musicological Approaches is an anthology of fourteen essays, each addressing a single key concept or pair of terms in the aesthetics of music, collectively serving as an authoritative work on musical aesthetics that remains as close to 'the music' as possible. Each essay includes musical examples from works in the 18th, 19th, and into the 20th century. Topics have been selected from amongst widely recognised central issues in musical aesthetics, as well as those that have been somewhat neglected, to create a collection that covers a distinctive range of ideas. All essays cover historical origins, sources, and developments of the chosen idea, survey important musicological approaches, and offer new critical angles or musical case studies in interpretation.

Participial Prepositions and Conjunctions in the History of English Michael Skiba, 2021-11-02 Participial prepositions and conjunctions such as considering, during, considered and except are a comparatively recent phenomenon in the history of the English language. They originated in the intense language contact situation between Anglo-French and Middle English in late medieval England. In this book, it is shown that the development is part of a long process of typological change both in the Romance languages and in the English language. Through language contact a productive pattern has been established in English, which still produces new participial prepositions today (e.g. following, based on and looking at). Participial prepositions and conjunctions therefore clearly illustrate the mechanisms and consequences of language change through intense language contact.

Collecting and Museology Florian Dobmeier, Andrea M. Gáldy, 2019-12-19 To celebrate the first ten years of the international forum Collecting and Display, as well as the launch of a dedicated series of publications "Collecting Histories", in 2014, a conference dedicated to new directions in terms of collecting, display, visitor experience and the use of modern media in today's museums was held at museums of the city of Memmingen in Bavaria. Speakers looked into whether and how the engagement with the history of collections, in their diverse permutations, has influenced and modified modern museology. This volume looks forward towards a future which oftentimes looks bleak due to funding cuts, lack of appreciation of cultural history and a sometimes dubious art trade in times of looting and vandalism. On the positive side, the future of museums and museology nonetheless offers exciting prospects as far as diverse possibilities of display, as well as museology courses taught at universities worldwide, are concerned; not to forget the rising visitor numbers at many of the great museums worldwide. Collecting and Display (www.collectinganddisplay.com) is an international forum founded by three scholars in 2004. The group has been running a research seminar at the Institute of Historical Research at the University of London since 2005 and in Florence from 2008 to 2012. The forum has organised international summer conferences in London, Ottobeuren, Florence, Irsee and Jerusalem since 2006.

Markets, Politics and the Environment Barry Goodchild, 2016-08-25 Markets, Politics and the Environment answers three groups of question: What is planning?' and as part of this 'What are its key features as a style of social practice and action?' and 'How does planning as a style of social practice relate to social and economic change? How, as part of the justification for planning, might claims of valid technical knowledge be constructed? What is meant by 'rational'? What is the contribution of pragmatism as a supplement or replacement to rationalism? How might rationality and pragmatism be adapted to postmodernism and the requirements of diversity? Finally, how may concepts of planning be reoriented towards sustainable development as a collective duty? How might sustainable development be reworked in relation to planning as a means of managing and stimulating change? Each group of question is discussed in a separate chapter and is associated with different theories, debates and examples of practice. Markets, Politics and the Environment concludes that the full implications of sustainable development and climate change point in the direction of a different type of state- a green state whose future functioning can draw on planning theory but at present can only be conceived as a sketchy outline.

To (New)B(e) or not to (New)B(e) Dirk Aj Coeckelbergh, 2022-11-25 Het doek valt voor de ethische coöperatieve bank NewB. Na tien jaren smachten en trachten om een nieuwe, 'ethische', minstens alternatieve bank te creëren – als antwoord op de bankencrisis van 2008 en het Arco-faillissement in 2011 – moeten de initiatiefnemers het falen van de bank erkennen. Nochtans was er bij aanvang veel animo voor een nieuwe én coöperatief opgezette bank die zou trachten het ethisch-maatschappelijke engagement in de bancaire sector in het DNA van haar producten en werking in te planten. Uiteindelijk was er geen tekort aan investerende coöperanten en werd enthousiast gestart. We laten de historiek van wat daarna gebeurde over aan de auteur. Wat deed dit project ontsporen? Wat heeft gemaakt dat het fout liep? Niemand is beter geplaatst dan Dirk Coeckelbergh, in de eerste helft van het project persoonlijk betrokken, om met zijn ruime kennis en ervaring het hele proces van NewB, van aanvang tot doodstrijd, te fileren in al zijn details en nuances. Dat hij zich

daarbij baseert op een berg aan documenten die voor iedereen toegankelijk, want openbaar zijn, is zonder meer een enorm pluspunt. Ze maken het onderzoek van Coeckelbergh tot een doorwrochte analyse waaraan moeilijk afbreuk kan worden gedaan. Ethisch ondernemen, ethisch investeren en ethisch bankieren zijn geen nieuwe topics. Sinds business ethics als academische discipline vanuit de Anglo-Saksische wereld het Kanaal overstak begin negentiger jaren van vorige eeuw hebben heel wat academici – filosofen, economen, theologen en anderen – zich de vraag gesteld hoe het een met het ander te combineren valt en wat daarbij de struikelstenen, drempels en schietgeweren zijn. We hebben er zélf in de voorbije decennia, ondermeer via de oprichting van een Vlaams Netwerk voor Zakenethiek, ons steentje aan bijgedragen. Dat alles heeft geleid tot een pak consultancy, tot audits en kwaliteitslabels, tot dikke boeken en heel wat conferenties. In de schoot van de het Europese netwerk European Business Ethics Network (EBEN) vergaderen academici en afgevaardigden van banken al meer dan een decennium (achter gesloten deuren). En ethisch bankieren heeft ondertussen ook bij ons al tot enkele nieuwe bankprojecten geleid. Die hebben ondertussen aangetoond te kunnen groeien en bloeien. De vraag naar ethisch gekaderd investeren is zelfs dermate groot gebleken dat ook de klassieke grootbanken hebben geïnvesteerd in allerlei ethische of duurzame – we staan hier niet stil bij het onderscheid tussen beide – fondsen. Onderzoek toont steeds weer aan dat ze rendabel zijn, minstens zoveel als de niet-ethische/niet-duurzame. We kunnen in dat verband niet anders dan verwijzen naar de grondige analyse die Coeckelbergh hierover vroeger reeds publiceerde (Ethisch en duurzaam beleggen in België. Historiek, stand van zaken en kritische visie. (2011) Antwerpen/Apeldoorn: Garant). Ethisch bankieren blijkt levensvatbaar. Wat de vraag naar het falen van NewB enkel maar pregnanter maakt. Als ethicus kunnen we daarover uiteraard enkel maar tevreden zijn. Al blijven we ook knelpunten zien. De belangrijkste lijkt ons, vanuit onze eigen ervaring terzake, de ontwikkeling van een efficiënte methodologie om projecten, fondsen, kredietaanvragen en dies meer te beoordelen op de ethische basiswaarden en -principes die de bank zich heeft gesteld. Daarnaast vormt ook de samenstelling van het ethische comité dat dergelijke beoordelingen moet doen een probleem. Er zijn nu eenmaal weinig tot geen specialisten in Vlaanderen in de professionele en bedrijfsethiek en nog minder in de specifieke ethiek voor de bancaire sector. De betreffende comités moeten het daarom vaak doen met mensen die weliswaar ethisch zeer gemotiveerd zijn, maar de zo noodzakelijke academische kennis ontberen. Uit zijn gedegen historisch bronnenonderzoek concludeert ook Coeckelbergh finaal tot enkele knipperlichten voor een dergelijk project. Dat maakt dit boek niet enkel tot een relaas van een gefaald bankproject, maar ook een leerschool voo

And Still We Wait Riyako Cecilia Hikota,2018-01-30 In response to the recent critiques made against Balthasar's interpretation of Christ's descent into hell on Holy Saturday, this book argues that Balthasar does not intend to present a radical reinterpretation of the doctrine in contrast to the traditional teachings but rather intends to fully appreciate the in-betweenness of Holy Saturday as the day of transition from the cross to the resurrection, from the old aeon to the new. The book further argues that this awareness of the in-betweenness can be detected throughout Balthasar's theological corpus and provides a clue to interpret his thoughts on Christian discipleship and suffering. After all, the Christian existence is also characterized by the transition from the old aeon to the new, from suffering to victory. The Christian believes that their victory is already here and not here yet. In this sense, the Christian still lives in Holy Saturday. Eventually, we can deepen our understanding of Christian discipleship and suffering in the light of Holy Saturday. In short, we could patiently endure our Holy Saturday because of Christ's Holy Saturday in hell.

Chinese Theology and Translation Sophie Ling-chia Wei,2019-10-02 This book uncovers the Jesuits' mystic theological interpretation in the translation of the Book of Changes (the Yijing) in their mission in China. The book analyzes how Jesuit Figurists incorporated their intralingual translation of the Yijing, the Classical and vernacular use of Chinese language and the imitation of Chinese literati's format, and the divinization of Yijing numbers into their typological exegesis. By presenting the different ways in which Jesuit Figurists Christianized the Yijing and crafted a Chinese version of Jesus and Christian stories onto the Chinese classics, this book reveals the value of Jesuit missionary-translators. The Chinese manuscripts the Figurists left behind became treasures which have been excavated and displayed in this book. These treasures reveal the other side of the story, the side not much shown in past scholarship on the Figurists. These handwritten manuscripts on the Christianized Yijing are a legacy which continues to impact European understanding of Chinese history and civilization in later centuries. A first analysis of these manuscripts in Chinese, the book will be of interest to scholars working on the history of Christianity in China, Translation Studies, and East Asian Religion and Philosophy.

The Best Caliber Wars James M Volo,2019-05 Guns can be very effective tools, but they are each of limited utility. There is no one weapon that is perfect for every purpose. Private persons may own a number of guns that fulfill a variety of functions. Ballistics is important for soldiers, law enforcement, sportsmen, and anyone who seeks to protect their life, their home, their family, or their workplace. If you are among these, this book is for you. Not surprisingly, gun owners and firearms enthusiasts are often part of a social gun culture in which certain facts, trends, and fads circulate and evolve with time, some stirring intense loyalty among shooters even when the realities suggest otherwise. For the average gun user some very popular myths, misconceptions, and miscalculations concerning ballistics and the terminal effects of bullets are strongly held, and it is not the purpose of this discussion to demonstrate why they are or are not true, only to lay out the parameters of the debate so that the readers can make their own judgments with increased confidence. The origin of ballistics is in the study of the flight path of projectiles, but its domain has been expanded in modern times. Among the modern ballistic sciences are areas of interest concerning how ammunition and weapons operate.

Tokens of Exchange Lydia H. Liu,1999-12-29 The problem of translation has become increasingly central to critical reflections on modernity and its universalizing processes. Approaching translation as a symbolic and material exchange among peoples and civilizations—and not as a purely linguistic or literary matter, the essays in Tokens of Exchange focus on China and its interactions with the West to historicize an economy of translation. Rejecting the familiar regional approach to non-Western societies, contributors contend that “national histories” and “world history” must be read with absolute attention to the types of epistemological translatability that have been constructed among the various languages and cultures in modern times. By studying the production and circulation of meaning as value in areas including history, religion, language, law, visual art, music, and pedagogy, essays consider exchanges between Jesuit and Protestant missionaries and the Chinese between the seventeenth and nineteenth centuries and focus on the interchanges occasioned by the spread of capitalism and imperialism. Concentrating on ideological reciprocity and nonreciprocity in science, medicine, and cultural pathologies, contributors also posit that such exchanges often lead to racialized

and essentialized ideas about culture, sexuality, and nation. The collection turns to the role of language itself as a site of the universalization of knowledge in its contemplation of such processes as the invention of Basic English and the global teaching of the English language. By focusing on the moments wherein meaning-value is exchanged in the translation from one language to another, the essays highlight the circulation of the global in the local as they address the role played by historical translation in the universalizing processes of modernity and globalization. The collection will engage students and scholars of global cultural processes, Chinese studies, world history, literary studies, history of science, and anthropology, as well as cultural and postcolonial studies. Grace Is Gone Emily Elgar,2020-01-07 From the bestselling author of If You Knew Her comes this harrowing tale of suspense—a story ripped from today’s headlines—of a tight-knit English community, who’s rocked by the murder of a mother and the mysterious disappearance of her daughter, and the secrets that lie concealed beneath a carefully constructed facade. A small town’s beloved family. A shocking, senseless crime—and the dark secret at the heart of it all. Everyone in Ashford, Cornwall, knows Meg Nichols and her daughter, Grace. Meg has been selflessly caring for Grace for years, and Grace—smiling and optimistic in spite of her many illnesses—adores her mother. So when Meg is found brutally bludgeoned in her bed and her daughter missing, the community is rocked. Meg had lived in terror of her abusive, unstable ex, convinced that he would return to try and kidnap Grace...as he had once before. Now it appears her fear was justified. Jon Katrin, a local journalist, knows he should avoid getting drawn back into this story. The article he wrote about Meg and Grace caused rifts within his marriage and the town. Perhaps if he can help find Grace, he can atone for previous lapses in judgment. The Nichols’ neighbor, Cara—contending with her own guilt over not being a better friend to Grace—becomes an unexpected ally. But in searching for Grace, Jon and Cara uncover anomalies that lead to more and more questions. Through multiple viewpoints and diary entries, the truth about Grace emerges, revealing a tragedy more twisted than anyone could have ever imagined...
