Toward a New Sociology of Education John Beck, 1978-01-01 By including material from literary, philosophical, and anthropological sources, and by selecting readings which consider educational practice both within and beyond formal educational contexts, this book broadens the character of sociological inquiry in education. The editors bring together material they have found valuable when working with students of education and DEGREESsociology at all levels. Many of these articles and extracts are either inaccessible or have not been reprinted. The collection should stimulate inquiry about the assumptions underlying current debates on curriculum, streaming, school organization, methods of teaching, and preconceived notions of ability. *Toward a Sociology of Education* develops an alternative theoretical approach to and engages in critical dialogue with mainstream sociology,

and also points to other theoretical and practical probabilities.

Fundamental Approaches to Software Engineering
Jean-Pierre Finance, 2004-01-27 ETAPS'99 is the second instance of the European Joint Conferences on Theory and Practice of Software. ETAPS is an annual federated conference that was established in 1998 by combining a number of existing and new conferences. This year it comprises 7 conferences (FOSSACS, FASE, ESOP, CC, TACAS), four satellite workshops (CMCS, AS, WAGA, CoFI), seven invited lectures, two invited tutorials, and six contributed tutorials. The events that comprise ETAPS address various aspects of the system development process, including specification, design, implementation, analysis and improvement. The languages, methodologies and tools which support these activities are all well within its scope. Different blends of theory and practice are represented, with an inclination towards theory with a practical motivation on one hand and soundly-based practice on the other. Many of the issues involved in software design apply to systems in general, including hardware systems,

and the emphasis on software is not intended to be exclusive.
