Eight of these airplanes have enclosed three-dimensional fuselage, with a hollow cavity, similar to real airplanes. These paper airplane designs and their folding concepts are all originals. They are probably amongst the most elegant and sophisticated paper airplanes you have ever seen. Each of these Interlocking and 3D paper airplanes is made from an ordinary sheet of 8.5 x 11 paper, without any cutting or gluing. Using the breakthrough interlocking fold, wing fold and fuselage fold, you will be amazed at how an ordinary sheet of paper can be transformed into a tightly bound paper airplane with beautiful, and seemingly impossible, three-dimensional fuselage. These airplanes are also great gliders because of their streamlined shapes. It is very likely that you will find great joy in folding and flying these very special and unique interlocking and 3D paper airplanes.
