*The Crying of Lot 49* Thomas Pynchon,2012-06-13 The highly original satire about Oedipa Maas, a woman who finds herself enmeshed in a worldwide conspiracy, meets some extremely interesting characters and attains a not inconsiderable amount of self-knowledge.

**Faultline 49** David Danson,2012-08-02 FAULTLINE 49 is the harrowing account of American reporter David Danson's Gonzo-style trip through US-occupied Canada in search of the principal provocateur in the Canadian-American War: terrorist mastermind Bruce Kalnychuk. As Danson draws closer to the truth about the 2001 World Trade Center Bombing in Edmonton, Alberta, and the criminal war it propagated, his journalistic distance to the story collapses, rendering him not only a brutalized participant, but an enemy of the state. David's findings are as daunting as the personal price he's paid to make them available to the North American public.

*Nakajima Ki-49 'Helen' Units* George Eleftheriou,2023-05-25 A fully illustrated study of the Nakajima Ki49 'Helen', the twin-engined bomber of the Pacific War, from Japanese aviation expert George Eleftheriou. The Nakajima Ki-49 Donryu ('Dragon Eater'), codenamed 'Helen' by the Allies, was a twin-engined Japanese bomber designed to undertake daylight attacks without the protection of escort fighters. Consequently, while it was officially known as the Army Type 100 Heavy Bomber, its formidable defensive armament and armour were so heavy that they restricted the Ki-49 to payloads comparable to those of smaller medium bombers. While only five heavy bomber sentai (regiments) were equipped with the 'Helen', the over 800 Ki-49s built between 1941 and 1944 saw extensive action in Burma, Papua New Guinea, the Philippines, northern India and north Australia. In an act of desperation, a small number of 'Helens' were even employed, unsuccessfully, as kamikaze aircraft against US Navy warships operating off the Philippines and Okinawa. In this fascinating book, George Eleftheriou provides a comprehensive account of the units that saw action flying the 'Helen', based on original Japanese sources. Also featuring high-quality photographs never published before, specially commissioned colour profile artwork, official unit histories and veteran accounts, this title is a must-have for Japanese aircraft enthusiasts.

**Coins of the Roman Revolution, 49 BC-AD 14** Andrew Burnett,Lucia F. Carbone,Hannah Cornwell,Anton Powell,2020-12-15 Coins of the best-known Roman revolutionary era allow rival pretenders to speak to us directly. After the deaths of Caesar and Cicero (in 44 and 43 BC) hardly one word

has been reliably transmitted to us from even the two most powerful opponents of Octavian: Mark Antony and Sextus Pompeius - except through coinage and the occasional inscription. The coins are an antidote to a widespread fault in modern approaches: the idea, from hindsight, that the Roman Republic was doomed, that the rise of Octavian-Augustus to monarchy was inevitable, and that contemporaries might have sensed as much. Ancient works in other genres skilfully encouraged such hindsight. Augustus in the *Res Gestae*, and Virgil in *Georgics* and *Aeneid*, sought to flatten the history of the period, and largely to efface Octavian's defeated rivals. But the latter's coins in precious metal were not easily recovered and suppressed by Authority. They remain for scholars to revalue. In our own age, when public untruthfulness about history is increasingly accepted - or challenged, we may value anew the discipline of searching for other, ancient, voices which ruling discourse has not quite managed to silence. In this book eleven new essays explore the coinage of Rome's competing dynasts. Julius Caesar's coins, and those of his 'son' Octavian-Augustus, are studied. But similar and respectful attention is given to the issues of their opponents: Cato the Younger and Q. Metellus Scipio, Mark Antony and Sextus Pompeius, Q. Cornificius and others. A shared aim is to understand mentalities, the forecasts current, in an age of rare insecurity as the superpower of the Mediterranean faced, and slowly recovered from, division and ruin.

**The Third Chinese Revolutionary Civil War, 1945–49** Christopher R. Lew,2009-03-30 This book examines the Third Chinese Revolutionary Civil War of 1945–1949, which resulted in the victory of the Chinese Communist Party (CCP) over Chiang Kaishek and the Guomindang (GMD) and the founding of The People’s Republic of China in 1949. It provides a military and strategic history of how the CCP waged and ultimately won the war, the transformation its armed forces and how the Communist leadership interacted with each other. Whereas most explanations of the CCP’s eventual victory focus on the Sino-Japanese War of 1937–45, when the revolution was supposedly won as a result of the communists’ invention of peasant nationalism, this book shows that the outcome of the revolution was not a foregone conclusion in 1945. It explains how the eventual victory of the communists resulted from important strategic decisions taken on both sides, in particular the remarkable transformation of the communist army from an insurgent / guerrilla force into a conventional army. The book also explores how the hierarchy of The People’s Republic of China developed during the war. It shows how Mao’s power was based as much on his military acumen as his political thought, above all his role in formulating and implementing a successful military strategy in the war of 1945–49. It also describes how other important figures, such as Lin Biao, Deng Xiaoping, Nie Rongzhen, Liu Shaoqi and Chen Yi, made their reputations during the conflict; and reveals the inner workings of the first political-military elite of the PRC. Overall, this book is an important resource for anyone seeking to understand the origins and early history of The People’s Republic of China, the Chinese Communist Party and the People’s Liberation Army.
