Adrift Steven Callahan, 2002-10-17 Before The Perfect Storm, before In the Heart of the Sea, Steven Callahan's dramatic tale of survival at sea was on the New York Times bestseller list for more than thirty-six weeks. In some ways the model for the new wave of adventure books, *Adrift* is an undeniable seafaring classic, a riveting firsthand account by the only man known to have survived more than a month alone at sea, fighting for his life in an inflatable raft after his small sloop capsized only six days out. "Utterly absorbing" (Newsweek), *Adrift* is a must-have for any adventure library.

City Adrift Jenni Bergal, 2007-06 Hurricane Katrina was a stunning example of complete civic breakdown. Beginning on August 29, 2005, the world watched in horror as—despite all the warnings and studies—every system that might have protected New Orleans failed. Levees and canals buckled, pouring more than 100 billion gallons of floodwater into

the city. Botched communications crippled rescue operations. Buses that might have evacuated thousands never came. Hospitals lost power, and patients lay suffering in darkness and stifling heat. At least 1,400 Louisianans died in Hurricane Katrina, more than half of them from New Orleans, and hundreds of thousands more were displaced, many still wondering if they will ever be able to return. How could all of this have happened in twenty-first-century America? And could it all happen again? To answer these questions, the Center for Public Integrity commissioned seven seasoned journalists to travel to New Orleans and investigate the storm's aftermath. In *City Adrift: New Orleans Before and After Katrina*, they present their findings. The stellar roster of contributors includes Pulitzer Prize-winner John McQuaid, whose earlier work predicted the failure of the levees and the impending disaster; longtime Boston Globe newsman Curtis Wilkie, a French Quarter resident for nearly fifteen years; and Katy Reckdahl, an award-winning freelance journalist who gave birth to her son in a New Orleans hospital the day before Katrina hit. They and the rest of the investigative team interviewed homeowners and health officials, first responders and politicians, and evacuees and other ordinary citizens to explore the storm from numerous angles, including health care, social services, housing and insurance, and emergency preparedness. They also identify the political, social, geographical, and technological factors that compounded the tragedy. Comprehensive and balanced, *City Adrift* provides not only an

assessment of what went wrong in the Big Easy during and following Hurricane Katrina, but also, more importantly, a road map of what must be done to ensure that such a devastating tragedy is never repeated.

PERILOUS WATERS Jill Shalvis, Wakana

Kono, 2016-03-25 Leah Taylor has covered Mafia turf wars, the AIDS epidemic and conflict in war-torn countries. What's happened to her that has her covering local fluff pieces in a small town? One brightpoint in her life is that her station's helicopter pilot is an old flame? Wyatt. A minor story about a small boat winds up with her crew

and a group of students adrift in storm season on perilous waters. The mighty seas are getting rough, and it looks as though Leah's slim chance at romance is about to get tossed, too.

Adrift in the Pacific Jules Verne, It was the 9th of March, 1860, and eleven o'clock at night. The sea and sky were as one, and the eye could pierce but a few fathoms into the gloom. Through the raging sea, over which the waves broke with a livid light, a little ship was driving under almost bare poles. She was a schooner of a hundred tons. Her name was the *Sleuth*, but you would have sought it in vain on her stern, for an accident of some sort had torn it away. In this latitude, at the beginning of March, the nights are short. The day would dawn about five o'clock. But would the dangers that threatened the schooner grow less when the sun illumined the sky? Was not the frail vessel at the mercy of the waves? Undoubtedly; and only the calming of the billows and the lulling of the gale could save her from that most awful of shipwrecks – foundering in the open sea far from any coast on which the survivors might find safety. In the stern of the schooner were three boys, one about fourteen, the two others about thirteen years of age; these, with a young negro some twelve years old, were at the wheel, and with their united strength strove to check the lurches which threatened every instant to throw the vessel broadside on. It was a difficult task, for the wheel seemed as though it would turn in spite of all they could do, and hurl them against the bulwarks. Just before midnight such a wave came thundering against the stern that it was a wonder

the rudder was not unshipped. The boys were thrown backwards by the shock, but they recovered themselves almost immediately. "Does she still steer?" asked one of them. "Yes, Gordon," answered Briant, who had coolly resumed his place. "Hold on tight, Donagan," he continued, "and don't be afraid. There are others besides ourselves to look after. You are not hurt Moko?" "No, Massa Briant," answered the boy. "But we must keep the yacht before the wind, or we shall be pooped." At this moment the door of the companion leading to the saloon was thrown open. Two little heads appeared above the level of the deck, and with them came up the genial face of a dog, who saluted with a loud, "Whough! whough!" "Briant! Briant!" shouted one of the youngsters "What is the matter?"

Adrift Heidi E. Y. Stemple, 2021-09-07 A timely and relevant picture book about the power of community. In a gentle metaphor for the global pandemic, *Adrift* is a way to start conversations with young readers about fear and hope, and being together even from afar.

Adrift Fred J. Hamill, 1900

Adrift Brian Murphy, 2018-09-04 A story of tragedy at sea where every desperate act meant life or death The small ship making the Liverpool-to-New York trip in the early months of 1856 carried mail, crates of dry goods, and more than one hundred passengers, mostly Irish emigrants. Suddenly an iceberg tore the ship asunder and five lifeboats were lowered. As four lifeboats drifted into the fog and icy water, never to be heard from again, the last boat wrenched away from the sinking ship with a few blankets, some water and

biscuits, and thirteen souls. Only one would survive. This is his story. As they started their nine days adrift more than four hundred miles off Newfoundland, the castaways--an Irish couple and their two boys, an English woman and her daughter, newlyweds from Ireland, and several crewmen, including Thomas W. Nye from Fairhaven, Massachusetts--began fighting over food and water. One by one, though, day by day, they died. Some from exposure, others from madness and panic. In the end, only Nye and the ship's log survived. Using Nye's firsthand descriptions and later newspaper accounts, ship's logs, assorted diaries, and family archives, Brian Murphy chronicles the horrific nine days that thirteen people suffered adrift on the cold gray Atlantic. Adrift brings readers to the edge of human limits, where every frantic decision and desperate act is a potential life saver or life taker.

Adrift [Movie tie-in] Tami Oldham

Ashcraft, 2018-05-08 The heart-stopping memoir, soon to be a major motion picture starring Shailene Woodley and Sam Claflin, and directed by Baltasar Kormákur (Everest). "An inspirational and empowering read."—Shailene Woodley Young and in love, their lives ahead of them, Tami Oldham and her fiancé Richard Sharp set sail from Tahiti under brilliant blue skies, with Tami's hometown of San Diego as their ultimate destination. But the two free spirits and avid sailors couldn't anticipate that less than two weeks into their voyage, they would sail directly into one of the most catastrophic hurricanes in recorded history.

They found themselves battling pounding rain, waves the size of skyscrapers, and 140 knot winds. Richard tethered himself to the boat and sent Tami below to safety, and then all went eerily quiet. Hours later, Tami awakened to find the boat in ruins, and Richard nowhere in sight. *Adrift* is the story of Tami's miraculous forty-one-day journey to safety on a ravaged boat with no motor and no masts, and with little hope for rescue. It's a tale of love and survival on the high seas-- an unforgettable story about resilience of the human spirit, and the transcendent power of love.
