Brassey's Naval Annual ,1942

Airplane Flight in the Stratosphere Ugo De Caria,1932 This brief survey of the problems encountered in high-altitude flight deals in particular with the need for high lift coefficient in the wings, large aspect ratios in the wings, and also the problem of hermetically sealing the cabin.

Fleet Air Arm Boys Steve Bond,2023-09-14 Steve Bond is back with the final volume in this popular series. Unlike his previous three tomes, with their focus on aircraft and rotorcraft, this book is uniquely dedicated to the personnel of the Fleet Air Arm (FAA) themselves. Each chapter will concentrate on the memories of contributors who served in a range of roles, including those below the flight deck. Accounts will focus on the everyday life upon an aircraft carrier as well as the extraordinary challenges faced during operations. There is a fascinating chapter covering exchange services with the RAF and other navies including the French and US; and also insight into the Indian navy's experience with the Sea Hawk and Sea Harrier. Within the previous volumes, we met some true characters and there is a chapter devoted to people's memories of them. The closing section entitled 'Thoughts' sees contributors reflect on their FAA career with many deeply moving responses and discourses on the future of the service. The book is heavily illustrated throughout in color and black and white with personal photographs from the contributors, artwork and tongue-in-cheek cartoons for which the FAA is famous. Volume Four is the perfect conclusion to the ongoing post-war story of a truly astounding branch of the armed forces.

He Who Would Valiant Be Terry Lewin,2015-11-19 Admiral of the Fleet Lord Lewin was the last Military leader of Great Britain to serve throughout the entire duration of WW2. A career that culminated in his role as head of the British Armed Forces and a seat in the victorious Cabinet of Prime Minister Thatcher that restored British Sovereignty over the Falkland Islands. This important book is the very first step on that career path. Since the time of Nelson Midshipmen in the Royal Navy were obliged to keep a Journal, a record of the life, events and actions of the ship in which they served. Terry Lewin was posted as a 19-years old to HMS Valiant, a Jutland-era battleship in December 1939. This book faithfully reproduces his hand-written record of the first year of the War seen from a ship at sea. All Midshipmen kept a journal, not all Midshipmen went on to influence the development of the modern Navy to the extent achieved by Terry Lewin. This book is essential reading for anyone with an interest in WW2, and life in the Royal Navy.
