The Art of French Pastry Jacquy Pfeiffer,Martha Rose Shulman,2013-12-03 Winner of the 2014 James Beard Award for Best Cookbook, Dessert & Baking What does it take to perfect a flawless éclair? A delicate yet buttery croissant? To pipe dozens of macarons? The answer is: an intimate knowledge of the fundamentals of pastry. In *The Art of French Pastry* award-winning pastry chef Jacquy Pfeiffer, cofounder of the renowned French Pastry School in Chicago, gives you just that. By teaching you how to make everything from pâte à choux to pastry cream, Pfeiffer builds on the basics until you have an understanding of the science behind the ingredients used, how they interact with one another, and what your hands have to do to transform them into pastry. This yields glorious results! Expect to master these techniques and then indulge in exquisite recipes, such as: • brioche • napoléons / Mille-Feuilles • cream puffs • Alsatian cinnamon rolls / chinois • lemon cream tart with meringue teardrops • elephant ears / palmiers • black forest cake • beignets as well as some traditional Alsatian savory treats, including: • Pretzels • Kougelhof • Tarte Flambée • Warm Alsatian Meat Pie Pastry is all about precision, so Pfeiffer presents us with an amazing wealth of information—lists of necessary equipment, charts on how ingredients react in different environments, and the precise weight of ingredients in grams, with a look at their equivalent in U.S. units—which will help you in all aspects of your cooking. But in order to properly enjoy your “just desserts,” so to speak; you will also learn where these delicacies originated. Jacquy Pfeiffer comes from a long line of pastry chefs and has been making these recipes since he was a child working in his father’s bakery in Alsace. Sprinkled with funny, charming memories from a lifetime in pastry, this book will have you fully appreciating the hundreds of years of tradition that shaped these recipes into the classics that we know and love, and can now serve to our friends and families over and over again. *The Art of French Pastry*, full of gorgeous photography and Pfeiffer’s accompanying illustrations, is a master class in pastry from a master teacher.

Rîmaru Mike Phillips,Stejărel Olaru,Ramona Mitrică,2012 In September 1971 Ion Rimaru stood trial for the murder of several women, accused of 23 very serious offences over a period of one year from May 1970: murders committed in extremely aggravated circumstances, with cruelty, premeditation, bestiality and sadism in four cases; attempted murders in six cases; rapes and attempted rapes; theft.

The Immune System Recovery Plan Susan Blum,2013-04-02 The bestselling book with 100,000 copies in print from one of the most sought-after experts in the field of functional medicine, Dr. Susan Blum, author of *Healing Arthritis*, shares the four-step program she used to treat her own serious autoimmune condition and help countless patients reverse their symptoms, heal their immune systems, and prevent future illness. DR. BLUM ASKS: • Are you constantly exhausted? • Do you frequently feel sick? • Are you hot when others are cold, or cold when everyone else is warm? • Do you have trouble thinking clearly, aka “brain fog”? • Do you often feel irritable? • Are you experiencing hair loss, dry skin, or unexplained weight fluctuation? • Do your joints ache or swell but you don’t know why? • Do you have an overall sense of not feeling your best, but it has been going on so long it’s actually normal to you? If you answered yes to any of these questions, you may have an autoimmune disease, and this book is the “medicine” you need. Among the most prevalent forms of chronic illness in this country, autoimmune disease affects nearly 23.5 million Americans. This epidemic—a result of the toxins in our diet; exposure to chemicals, heavy metals, and antibiotics; and unprecedented stress levels—has caused millions to suffer from autoimmune conditions such as Graves’ disease, rheumatoid arthritis, Crohn’s disease, celiac disease, lupus, and more. DR. BLUM’S INNOVATIVE METHOD FOCUSES ON: • Using food as medicine • Understanding the stress connection • Healing your gut and digestive system • Optimizing liver function Each of these sections includes an interactive workbook to help you determine and create your own personal treatment program. Also included are recipes for simple, easy-to-prepare dishes to jump-start the healing process. *The Immune System Recovery Plan* is a revolutionary way for people to balance their immune systems, transform their health, and live fuller, happier lives.

Not Exactly Retired: A Life-Changing Journey on the Road and in the Peace Corps David Jarmul,2020-04-02 Not Exactly Retired shows how Americans approaching retirement can redefine their lives and find new fulfillment by pursuing international adventure and service instead of drifting in their familiar jobs. It highlights the rewards of doing good while seeing the world. Author David Jarmul describes how he and his wife veered from their conventional American lives to wander around Nepal and the United States and serve as Peace Corps Volunteers in Moldova, Eastern Europe, in their sixties.

The Art of Fermentation Sandor Ellix Katz,2012 The bible for the D.I.Y set: detailed instructions for how to make your own sauerkraut, beer, yogurt and pretty much everything involving microorganisms.--The New York Times *Named a Best Gift for Gardeners by New York Magazine The original guide to kraut, kombucha, kimchi, kefir, and kvass; mead, wine, and cider; pickles and relishes; tempeh, koji, miso, sourdough and so much more...! Winner of the James Beard Foundation Book Award for Reference and Scholarship, and a New York Times bestseller, with more than a quarter million copies sold, The Art of Fermentation is the most comprehensive guide to do-it-yourself home fermentation ever published. Sandor Katz presents the concepts and processes behind fermentation in ways that are simple enough to guide a reader through their first experience making sauerkraut or yogurt, and in-depth enough to provide greater understanding and insight for experienced practitioners. While Katz expertly contextualizes fermentation in terms of biological and cultural evolution, health and nutrition, and even economics, this is primarily a compendium of practical information--how the processes work; parameters for safety; techniques for effective preservation; troubleshooting; and more. With two-color illustrations and extended resources, this book provides essential wisdom for cooks, homesteaders, farmers, gleaners, foragers, and food lovers of any kind who want to develop a deeper understanding and appreciation for arguably the oldest form of food preservation, and part of the roots of culture itself. Readers will find detailed information on fermenting vegetables; sugars into alcohol (meads, wines, and ciders); sour tonic beverages; milk; grains and starchy tubers; beers (and other grain-based alcoholic beverages); beans; seeds; nuts; fish; meat; and eggs, as well as growing mold cultures, using fermentation in agriculture, art, and energy production, and considerations for commercial enterprises. Sandor Katz has introduced what will undoubtedly remain a classic in food literature, and is the first--and only--of its kind.

Human Computer Interaction and Emerging Technologies Fernando Loizides,Marco Winckler,Usashi Chatterjee,2020-10-09 The INTERACT Conferences are an important platform for researchers and practitioners in the field of human-computer interaction (HCI) to showcase their work. They are organised biennially by the International Federation for Information Processing (IFIP) Technical Committee on Human-Computer Interaction (IFIP TC13), an international committee of 30 member national societies and nine Working Groups. INTERACT is truly international in its spirit and has attracted researchers from several countries and cultures. With an emphasis on inclusiveness, it works to lower the barriers that prevent people in developing countries from participating in conferences. As a multidisciplinary field, HCI requires interaction and discussion among diverse people with different interests and backgrounds. The 17th IFIP TC13 International Conference on Human-Computer Interaction (INTERACT 2019) took place during 2-6 September 2019 in Paphos, Cyprus. The conference was held at the Coral Beach Hotel Resort, and was co-sponsored by the Cyprus University of Technology and Tallinn University, in cooperation with ACM and ACM SIGCHI. This volume contains the Adjunct Proceedings to the 17th INTERACT Conference, comprising a series of selected papers from workshops, the Student Design Consortium and the Doctoral Consortium. The volume follows the INTERACT conference tradition of submitting adjunct papers after the main publication deadline, to be published by a University Press with a connection to the conference itself. In this case, both the Adjunct Proceedings Chair of the conference, Dr Usashi Chatterjee, and the lead Editor of this volume, Dr Fernando Loizides, work at Cardiff University which is the home of Cardiff University Press. Skunk Works Leo Janos,Ben R. Rich,2013-02-26 This classic history of America's high-stakes quest to dominate the skies is a gripping technothriller in which the technology is real (New York Times Book Review). From the development of the U-2 to the Stealth fighter, Skunk Works is the true story of America's most secret and successful aerospace operation. As recounted by Ben Rich, the operation's brilliant boss for nearly two decades, the chronicle of Lockheed's legendary Skunk Works is a drama of Cold War confrontations and Gulf War air combat, of extraordinary feats of engineering and human achievement against fantastic odds. Here are up-close portraits of the maverick band of scientists and engineers who made the Skunk Works so renowned. Filled with telling personal anecdotes and high adventure, with narratives from the CIA and from Air Force pilots who flew the many classified, risky missions, this book is a riveting portrait of the most spectacular aviation triumphs of the twentieth century. Thoroughly engrossing. --Los Angeles Times Book Review
