Night Storm Catherine Coulter,2009-10-13 Dear Reader, You met Alec Carrick in Night Fire. He returns full force-and believe me, this man's got force--in Night Storm, the third novel of the Night Trilogy which I wrote in the Fall of 1988. The Paxtons are shipbuilders in Baltimore. Alec Carrick is an English nobleman who wants to buy them out. Genny Paxton isn't at all what she seems. She dresses like Eugene and wants to build her own sailing ships without male interference. Alec, a man of great insight, knows exactly what lies beneath those britches. He gets Genny's goat more times than she can count. This is a love story filled with wit, humor, and outrageous circumstance. It's got more unexpected spins than a roulette wheel. Then there's five-year-old Hallie, Alec's daughter, a charmer who will take hold of your heart and never let go. Do enjoy Alec and Genny--and let me know which of the novels in the Night Trilogy you like best.

Out of the Storm Carol Ashe,2016-02-18 Detective Isabelle Carte is in love—with her job. It's all she needs and all she has time for. A dedicated and capable detective, she knows how to get the job done, regardless of the risk. Or so she thinks. When a stalker becomes obsessed with Isabelle and murders women to get her attention, her confidence is shaken. Isa takes refuge at her family's lake cabin in rugged Northwestern Ontario. Little does she know how much her life is about to change. Alec Reed is at the lake to rebuild his family's cabin and to make peace with a family tragedy that had happened years before. He's on track—finishing up with the remodel, and ready to return to his flourishing business in Calgary—until a pesky female shows up with her lovable dog at the cabin on the other side of the lake. She manages to capsize her canoe, blame him for ungentlemanly behaviour, and then throws everything off kilter. Falling in love with a cop was not on his agenda, especially a cop who can't seem to stay out of trouble. When Isa goes missing, Alec realizes there is only one thing he can do: find her. But in doing so, they have to face their feelings for each other. Can they overcome their differences?

The Umbral Storm Alec Hutson,2022-05-15 A thousand years ago the Heart of the World was shattered, its fragments scattered across the lands. In the chaos that followed, martial orders arose to gather these shards, for it was found that great powers were granted when these pieces were bonded to the flesh of the chosen. These are the Sharded Few, warriors imbued with the divine energies that once coursed through the Heart, and driven to absorb enough fragments to claim godhood.Deryn has known nothing in his life except suffering. Orphaned at the edge of the realms, indentured to a cruel slaver, he can see little chance of escaping his circumstances. But elsewhere ancient powers are stirring, new alliances threaten the peace of the old order, and against all odds, Deryn will find himself a player in a game that will decide the fate of the world.

Fighting the Storm Kari Kilgore,2019-06-22 The Storm Breaks Alex Collins and Etan Griffith thought love, hard work, and magic protected them from the end of the world. Until heartbreak struck much closer to home. Picking up the pieces brings new friends and new challenges. Threats unseen and unexpected. Will the power of family bring them all through, together? An excerpt from Fighting the Storm: Etan didn't have to look at Alex to know he was biting his tongue, dying to say something. He could feel how tense Alex's leg was against his own, could just about hear his agitation. "What are you wanting to say, Alex?" "I don't want to be an asshole, but if we have to set you up as a prophet, that's what we need to do. I hated what happened in Maple Ridge and everywhere else. But we can't have gone through so much hell to get here and let everything fall apart again. If people will follow the Great Prophet Etan and that lets us survive, then that's who you need to be." Etan did groan then, closing his eyes for a second. Not only because this was what he'd been afraid of. Because the words and the ideas sounded true. They felt true, no matter how much he might dislike them. "I don't know if I can agree to that, not right now. I have no idea how to do any of this, much less create a new religion. I'm scared to death of making a hard situation worse."

Joining the Storm Kari Kilgore,2018-12-05 The Storm Builds Etan Griffith loves his life in Chicago, far from his native Blue Ridge Mountains. Alex Collins escaped Wisconsin to a career he loves, in a city that welcomes him more than his own family. Both seek the missing piece to their puzzle. Dreams and patterns. Restless and searching. Then one snowy night sets their shared destiny in motion. An excerpt from Joining the Storm: "I never wanted you to know about the dreams," Etan said. "I feel crazy enough without you confirming it." "Crazy isn't the question," Alex said, stroking Etan's hair. "Unless it's both of us. You missed me saying every word feels true." "I don't even know what the dreams are, Alex. I know I have them, but I never remember a thing. That's not exactly stable." "Well, have a drink and let me enlighten you." Etan sat up, managing to keep himself from curling up into a knot of fear again. He drained the whiskey, watching Alex do the same. "What you tell me in the middle of the night is all about how we can't stay here much longer. Something bad is going to happen, with the food supply I think, and none of the cities are going to be safe anymore. And we don't have much time to get ready before we're trapped along with everyone else who's not going to make it out."

Summer of the Storm Catherine George,2012-07-16 The Magic Was Still There But was the gap between them too wide to bridge after all this time! Alec Neville thought so, but Cassie wasn't sure what to feel. The overwhelming mutual physical attraction came flooding back—as did memories of that long, hot summer ten years before, when she'd fallen in love with a wilder, younger Alec. She'd had to break off their relationship, and it had broken her heart. Since then, she'd fought hard for her independence and her success as a crime writer. Now Alec had come back. It was so tempting to love him again—but was she only trying to relive the past, or did they have a future together?

Storm Front Leo J. Maloney, 2022-01-25 The second installment in acclaimed Black-Ops thriller author Leo J. Maloney's spin-off series featuring Alex Morgan, daughter of Zeta operative Dan Morgan. STORM FRONT Ares, an insidious challenger to the Zeta group, is sowing conflict around the world, orchestrating an explosive endgame. Identifying the next target as a cruise ship on the Coral Sea, Zeta sends undercover operatives Alex Morgan and Alicia Schmitt to avert catastrophe. Infiltrating the crew and passengers is easy for the skilled agents—but also for the fortified and highly trained extremists, who topple security and gain control of the ship. The attackers' demands: inconceivable. Their threats: immediate. As a massive storm bears down off the Australian coast, Alex and Alicia are outnumbered, outgunned, and out to sea. In full chaos mode, Alex shores up her last defenses, unaware that someone close to her could shift the odds in her favor—or against her. Ares has every advantage in this operation, but they have overlooked one key thing. Never underestimate a Zeta agent . . . especially one whose last name is Morgan. Praise for Leo J. Heavy Weather Sailing 8th edition Martin Thomas, Peter Bruce, 2022-09-01 For over 50 years Heavy Weather Sailing has been regarded as the ultimate international authority on surviving storms at sea aboard sailing and motor vessels. In this book, former Commodore of the Ocean Cruising Club Martin Thomas brings together a wealth of expert advice from many of the great sailors of the present, including fresh accounts of yachts overtaken by extreme weather, from Ewan Southby-Tailyour, Alex Whitworth and Dag Pike to Larry and Lin Pardey, Matt Sheahan and Andrew Claughton. The expert advice section has been updated in line with current thinking, with major new additions tackling preventing or coping with lightning strikes, navigating in heavy weather with both paper and electronic charts, the choice and use of tenders in severe weather, and special problems faced by the new generation of foiled cruising boats. For the first time the book also covers the unique challenges presented by weather in high latitudes, with more yachts crossing the Drake Passage and attempting the North West Passage. These revisions ensure that Heavy Weather Sailing is as relevant, useful and instructive for today's sailor venturing offshore as it ever was. This is the definitive book for crews of any size contemplating voyages out of sight of land anywhere in the world, whether racing or cruising. It gives a clear message regarding the preparations required, and the tactics to consider when it comes on to blow.

Guess that someone will have to be me.

Under the Weather Stephanie Sodero, 2022-11-15 Humans and human mobility, including driving and flying, are entangled with the climate emergency. Fossil-fuelled mobility worsens severe weather, and in turn, severe weather disrupts human mobility. A shift to zero-emission vehicles is critical but insufficient to repair the damage or prepare communities for the coming disruptions severe weather will bring. In Under the Weather Stephanie Sodero explores the intersection between human mobility and severe weather. Anchored in two Atlantic Canadian hurricane case studies, Hurricane Juan in Mi'kma'ki/Nova Scotia in 2003 and Hurricane Igor in

Ktaqmkuk/Newfoundland in 2010, the book contributes to contemporary cultural and policy discussions by offering five practical recommendations – revolutionize mobility, prioritize vital mobility of medical goods and services, embrace ecological mobilities, rebrand redundancy, and think flexibly – for how mobility can be reimagined to work with, rather than against, the climate in ways that also benefit the health, education, and economy of local communities. This ecological approach to mobilities sheds light on extreme mobility dependency and the impact of mobility disruptions on the ground in Canadian communities. Focusing on the entangled relationship between human mobility and the climate, *Under the Weather* examines how communities can transform their relationship with mobility to enable greater resilience.
