Alexander McConnell,William Revell Moody,Arthur Percy Fitt

Record of Christian Work Alexander McConnell, William Revell Moody, Arthur Percy Fitt, 1913 Includes music.

After Blanchot Leslie Hill, Brian Nelson, Dimitris Vardoulakis, 2005 What does it mean to come after Blanchot? Three things, at least. First, it is to recognise that it is no longer possible to believe in an essentialist determination of literary discourse or of aesthetic experience. All this has disappeared; and there is no way back. Second, there is the question of history. What is Blanchot's legacy to us, his readers? Any name, however irreplaceably singular, is always already preceded, limited, challenged even, by the abiding anonymity of the person, animal, or thing it claims to name. Every name is necessarily impersonal, anonymous, other. Blanchot after Blanchot, then, can best be understood in the sense of that which is according to Blanchot - and that is nothing other than the infinite process of reading and rereading Blanchot: without end. Here, a third meaning to the phrase after Blanchot comes into view. For if we come after Blanchot, it is surely because Blanchot is still before us, still in front, still in the future, still to come.

Intrigues Gabriel Riera, 2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible. It also discusses what the implications are for an ethically inflected criticism. Emmanuel Levinas and Maurice Blanchot, whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing, are Riera's main focus. Critics in recent years have discussed an ethical moment or turn characterized by the other's irruption into the order of discourse. The other becomes a true crossroads of disciplines, since it affects several aspects of discourse: the constitution of the subject, the status of knowledge, the nature of representation, and what that representation represses (gender, power). Through close readings of texts by Heidegger, Levinas, and Blanchot, this book examines how the question of the other engages the very limits of philosophy, rationality, and power.

Sachiko Caren Barzelay Stelson, 2016 This striking work of narrative nonfiction tells the true story of six-year-old Sachiko Yasui's survival of the Nagasaki atomic bomb on August 9, 1945, and the heartbreaking and lifelong aftermath. Having conducted extensive interviews with Sachiko Yasui, Caren Stelson chronicles Sachiko's trauma and loss as well as her long journey to find peace. This book offers readers a remarkable new perspective on the final moments of World War II and their aftermath.

Affinity Online Mizuko Ito, Crystle Martin, Rachel Cody Pfister, Matthew H. Rafalow, Katie Salen, Amanda Wortman, 2018-12-18 How online affinity networks expand learning and opportunity for young people Boyband One Direction fanfiction writers, gamers who solve math problems together, Harry Potter fans who knit for a cause. Across subcultures and geographies, young fans have found each other and formed community online, learning from one another along the way. From these and other in-depth case studies of online affinity networks, Affinity Online considers how young people have found new opportunities for expanded learning in the digital age. These cases reveal the shared characteristics and unique cultures and practices of different online affinity networks, and how they support "connected learning"—learning that brings together youth interests, social activity, and accomplishment in civic, academic, and career relevant arenas. Although involvement in online communities is an established fixture of growing up in the networked age, participation in these spaces show how young people are actively taking up new media for their own engaged learning and social development. While providing a wealth of positive examples for how the online world provides new opportunities for learning, the book also examines the ways in which these communities still reproduce inequalities based on gender, race, and socioeconomic status. The book concludes with a set of concrete suggestions for how the positive learning opportunities offered by online communities could be made available to more young people, at school and at home. Affinity Online explores how online practices and networks bridge the divide between in-school and out-of-school learning, finding that online affinity networks are creating new spaces of opportunity for realizing the ideals of connected learning.

Jacqueline, a story of the Reformation in Holland Janet Gordon Hardy, 1872 Set in the Netherlands during Reformation times, this story follows the checkered love lives of a young armourer and a high-born Roman Catholic girl who is liberated from seclusion in a convent.

Multilingual Brazil Marilda C. Cavalcanti, Terezinha M. Maher, 2017-09-22 This book brings together cutting edge work by Brazilian researchers on multilingualism in Brazil for an English-speaking readership in one comprehensive volume. Divided into five sections, each with its own introduction, tying together the themes of the book, the volume charts a course for a new sociolinguistics of multilingualism, challenging long-held perceptions about a monolingual Brazil by exploring the different policies, language resources, ideologies and social identities that have emerged in the country's contemporary multilingual landscape. The book elucidates the country's linguistic history to demonstrate its evolution to its present state, a country shaped by political, economic, and cultural forces both locally and globally, and explores different facets of today's multilingual Brazil, including youth on the margins and their cultural and linguistic practices; the educational challenges of socially marginalized groups; and minority groups' efforts to strengthen languages of identity and belonging. In addition to assembling linguistic research done in Brazil previously little known to an English-speaking readership, the book incorporates theoretical frameworks from other disciplines to provide a comprehensive picture of the social, political, and cultural dynamics at play in multilingual Brazil. This volume is key reading for researchers in linguistic anthropology, sociolinguistics, applied linguistics, cultural studies, and Latin American studies.

The Adventures of Leucippe and Clitophon - Delphi Complete Works of Achilles Tatius (Illustrated) Achilles Tatius, 2016-09-11 The sole surviving work of Achilles Tatius, a Greek writer from Alexandria, is a novel in eight books, 'The Adventures of Leucippe and Clitophon', one of the five surviving Ancient Greek romances. This comprehensive eBook presents the complete extant text of 'The Adventures of Leucippe and Clitophon', with relevant illustrations, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Achilles Tatius' life and work * Features the complete text of 'The Adventures of Leucippe and Clitophon', in both English translation and the original Greek * Concise introduction to 'The Adventures of Leucippe and Clitophon' * Includes Stephen Gaselee's translation from the Loeb Classical Library edition of Achilles Tatius * Images of famous paintings inspired by 'The Adventures of Leucippe and Clitophon' * Excellent formatting of the texts * Provides a special dual English and Greek text, allowing readers to compare the sections paragraph by paragraph - ideal for students * Features a bonus biography - discover Achilles Tatius' ancient world Please visit www.delphiclassics.com to explore our range of Ancient Classics titles or buy the entire series as a Super Set CONTENTS: The Translation LEUCIPPE AND CLITOPHON The Greek Text CONTENTS OF THE GREEK TEXT The Dual Text DUAL GREEK AND ENGLISH TEXT The Biography INTRODUCTION TO ACHILLES TATIUS by Stephen Gaselee Please visit www.delphiclassics.com to browse through our range of exciting titles

The Routledge Handbook of Language and Creativity Rodney H. Jones, 2015-09-08 The Routledge Handbook of Language and Creativity provides an introduction to and survey of a wide range of perspectives on the relationship between language and creativity. Defining this complex and multifaceted field, this book introduces a conceptual framework through which the various definitions of language and creativity can be explored. Divided into four parts, it covers: different aspects of language and creativity, including

dialogue, metaphor and humour literary creativity, including narrative and poetry multimodal and multimedia creativity, in areas such as music, graffiti and the internet creativity in language teaching and learning. With over 30 chapters written by a group of leading academics from around the world, The Routledge Handbook of Language and Creativity will serve as an important reference for students and scholars in the fields of English language studies, applied linguistics, education, and communication studies.

Anime and Manga ,
Just Doing It: A History of Advertising Pia Elliott,2014-10-09 The purpose of the book is to provide an overall view of advertising in the twentieth century while filling in the gap of information that exists in Italy ? where just a few names are known. The book also provides a leading thread about those professionals who, in the second half of the 20th century, were the protagonists of the creative revolution and whose influence has been seminal on both American and English advertising. The book has no historical intentions nor aims at classifying people into schools or categories (as such an approach would be pretentious and inadequate in a profession so deeply entangled with economics and consumer attitudes). The content in brief: The book is made up of short biographies of famous and well known advertising people ? mainly art directors and copywriters ? interspersed with a few explanatory chapters that are simply summaries on certain subjects. For instance The Big Agencies outlines the origins of historical agencies, such as J.W. Thompson, BBDO, and Young & Rubicam. The State of Things explains what happened after the (so called) Creative Revolution. The Spot-Makers presents people like Howard Zieff, Joe Pytko, Rick Levine, and Bob Giraldo. Old School Ties and Colonels is about British advertising before Collett Dickinson and Pearce. La Grande Parade depicts the peculiarities of French advertising and Carosello and its Victims explains the unusual features of the Italian Carosello (an early TV format that hosted commercials), etc. Biographies are structured differently along the lines of individual stories and, generally, tend to highlight the meaningful events in one s career rather than their early life and experiences. This way of telling a story is, of course, somewhat influenced by the author s experiences and point of view and represents the original aspect of the book. Among the influentials , Americans and Britons outnumber French and Italians. A final section with Contributions by various authors and famous copywriters: Gossage, Della Femina, Abbott, Séguéla, Marcantonio, Pirella, etc. completes the book.

The Comic Book Story of Basketball Fred Van Lente,Joe Cooper,2020-09-22 A fast-break history of basketball--from its humble beginnings to its all-time great players--featuring engaging true tales from the court and vivid, dynamic illustrations. Whether it's millionaire pros facing off in an indoor arena full of screaming fans or a lone kid shooting hoops on an outdoor court, basketball is one of the most popular and widely played sports in the world. The Comic Book Story of Basketball gives you courtside seats to the history of hoops. It chronicles the sport from its beginnings in a YMCA in Massachusetts to its current status as a beloved international game for men and women of all ages. Learn the true stories behind the college game, the street game, the women's game, and the international game, with legendary players and coaches like Dr. J, Michael Jordan, LeBron James, and Steph Curry profiled throughout.

Frozen 2: Dangerous Secrets: The Story of Iduna and Agnarr Mari Mancusi,2020-11-03 Sixteen-year-old Iduna harbors a dark secret. On the surface, she is an Arendellian village girl, an aspiring inventor, and the best friend of Prince Agnarr, but she is also secretly Northuldra. Ever since the day the forest fell, Arendellians have despised and distrusted Northuldra with a vengeance. No matter that the Northuldra—along with some of Arendelle’s own—have been trapped in the Enchanted Forest behind an impenetrable wall of mist since the day of the battle. Iduna doesn’t know why the mist refuses to part, or why it descended to begin with. The only clear thing is that she must keep her identity from everyone, even Agnarr. Her life depends on it. Fortunately for her, Agnarr doesn’t know that Iduna is the Northuldra girl he saw seemingly flying on a gust of wind all those years ago, the day of the celebration turned disaster. The day Agnarr lost his father, the king. The day Agnarr himself almost died. What Agnarr does know is that Iduna is a true ally in the face of his royal responsibilities and the expectations of an overbearing council and a well-meaning regent who will rule in Agnarr’s place until he turns twenty-one and assumes the Arendellian throne. As Iduna and Agnarr grow ever closer, however, friendship is no longer enough. If only falling for each other didn’t mean risking their futures: Iduna’s as a hidden-in-plain-sight citizen of Arendelle, and Agnarr’s as imminent king. But for a chance at true love, the risk might be worth taking

Music, Sound and Multimedia Jamie Sexton,2007-11-14 This new series aims to explore the area of "e;screen music"e;. Volume topics will include multimedia music, music and television, Hollywood film music, and the music of Bollywood cinema.Music and other sound effects have been central to a whole host of media forms throughout the twentieth century, either as background, accompaniment, or main driving force. Such interactions will continue to mutate in new directions, with the widespread growth of digital technologies. Despite the expansion of research into the use of music and sound in film, the investigation of sonic interactions with other media forms has been a largely under-researched area. Music, Sound and Multimedia provides a unique study of how music and other sounds play a central part in our understandings and uses of a variety of communications media. It focuses on four areas of sound and music within broader multimedia forms - music videos, video game music, performance and presentation, and production and consumption - and addresses the centrality of such aural concerns within our everyday experiences. Charting historical developments, mapping contemporary patterns, and speculating on future possibilities, this book is essential for courses on sound and media within media and communications studies, cultural studies and popular music studies.Key features* Charts a number of key developments in music and multimedia interactions* Provides both historical overviews and theoretical analyses* Features a number of in-depth case studies of important issues.

DIY Media Michele Knobel,Colin Lankshear,2010 Schools remain notorious for co-opting digital technologies to «business as usual» approaches to teaching new literacies. DIY Media addresses this issue head-on, and describes expansive and creative practices of digital literacy that are increasingly influential and popular in contexts beyond the school, and whose educational potential is not yet being tapped to any significant degree in classrooms. This book is very much concerned with engaging students in do-it-yourself digitally mediated meaning-making practices. As such, it is organized around three broad areas of digital media: moving media, still media, and audio media. Specific DIY media practices addressed in the chapters include machinima, anime music videos, digital photography, podcasting, and music remixing. Each chapter opens with an overview of a specific DIY media practice, includes a practical how-to tutorial section, and closes with suggested applications for classroom settings. This collection will appeal not only to educators, but to anyone invested in better understanding - and perhaps participating in - the significant shift towards everyday people producing their own digital media.
