Challenging the System? Martin Forsey, 2006-12-01 The book is written with great clarity, and a strong awareness of the importance of the school's social milieu. Forsey cuts through the mealy mouthed official rhetoric of education for all and shows the massive, continuing influence of social class inequalities in Australian society. Class interests shape not only this school but the whole education system around it, public and private. Ravina High is seen as a good school largely because of its comfortable middle-class catchment.

Grey All Over Andrea Actis, 2021-04 Please stay with me, please stay here, please cause poltergeists in my stupid apartment... Late in the evening of December 13, 2007, Andrea Actis found her father, Jeff, facedown dead in her East Vancouver apartment. So began her passage through grief, self-reckoning, and graduate school in Providence, Rhode Island, where the poetics she studied (and sometimes repudiated) became integral to her gradual reconstruction of wholeness. An assemblage of evidence recovered from emails about paranormal encounters sent and received by Jeff (greyallover@yahoo.com), junk mail from false prophets, an annotated excerpt from Laura (Riding) Jackson's *The Serious Angels: A True Story*, and transcripts of Actis' dreams, conversations, and messages to the dead, *Grey All Over* not only celebrates a rare, close, complicated father-daughter bond, it also boldly expands the empathetic and critical capacities of poetry itself. In pulling us outside the comfort zones of received aesthetics and social norms, Actis asks us to embrace with whole seriousness the pragmatics of intuition in all the ways we read, live, and love. When a loved one dies, there's all this stuff to deal with, and in the midst of grief we begin to collect, sort, document, store, and discard. Andrea Actis has taken the stuff surrounding her father's death and created a book that is, like grief, in turns heartbreaking, wise, chaotic, drunk, wry, and always unflinchingly honest. This powerful testament of survival is for anyone who has felt the 'déjà vu in reverse' of grief. It is for the living. --Sachiko Murakami, author of *Render Love* letter, experimental poem, meditation, conversation with the dead--Andrea Actis's compelling debut is unlike any memoir I've ever read. In one passage, Actis digs out the biggest piece of bone she can find in the vessel of her father's ashes and gently bites on it. Reading *Grey All Over* I had a similar sensation. Ash. Bone. Love. --Jen Currin, author of *Hider/Seeker* This absolutely beautiful work makes plain that seriousness feels like love. --Aisha Sasha John, author of *I have to live*.

The Mechanics of Claims and Permissible Killing in War Alec D. Walen, 2019-03-15 According to the dominant account of rights, there are two ways to permissibly kill people: they have done something to forfeit their right to life, or their rights are outweighed by the significantly greater cost of respecting them. Contemporary just war theorists tend to agree that it is difficult to justify killing in the second way. Thus, they focus on the conditions under which rights might be forfeited. But it has proven hard to defend an account of forfeiture that permits killing when and only when it is morally justifiable. In *The Mechanics of Claims and Permissible Killing in War*, Alec D. Walen develops an alternative account of rights according to which rights forfeiture has a much smaller role to play. It plays a smaller role because rights themselves are more contextually contingent. They systematically reflect the different kinds of claims people can make on an agent. For example, those who threaten to cause harm without a right to do so have weaker claims not to be killed than innocent bystanders or those who have a right to threaten to cause harm. By framing rights as the output of a balance of competing claims, and by laying out a detailed account of how to balance competing claims, Walen provides a more coherent account of when killing in war is permissible.

Magic Ramen Andrea Wang,2019-03-05 World War II was over, but in Japan, lines for a simple bowl of ramen noodles wound down the sidewalk. What Momofuku Ando did next would change food forever. Andrea Wang, author of *Watercress* (a Newberry honor book and winner of the Caldecott Medal), tells the true story behind the creation of one of the world's most popular foods. An inspiring story of persistence and an ideal purchase for any collection. School Library Journal, STARRED review 2021 Nutmeg Book Awards Nominee Winner of the 2020 Sakura Award Read Across America Book of the Month, May 2021 Center for Multicultural Children's Literature Best Book of 2019 List Smithsonian Magazine '10 Best Children's Books of 2019' List Every day, Momofuku Ando would retire to his lab--a little shed in his backyard. For years, he'd dreamed about making a new kind of ramen noodle soup that was quick, convenient, and tasty for the hungry people he'd seen in line for a bowl on the black market following World War II. Peace follows from a full stomach, he believed. Day after day, Ando experimented. Night after night, he failed. But Ando kept experimenting. With persistence, creativity, and a little inspiration, Ando succeeded. This is the true story behind one of the world's most popular foods.

Rilke and Andreas-Salomé: A Love Story in Letters Rainer Maria Rilke,Lou Andreas-Salomé,2008-06-17 Immensely readable...a significant piece of scholarship.—Fred Volkmer, New York Sun He would become one of the most important poets of the twentieth century; she a muse of Europe's fin-de-siècle thinkers and artists. In this collection of letters, a finalist for the PEN USA translation award, the poet Rainer Maria Rilke and Lou Andreas-Salomé, a writer and intellectual fourteen years his senior, pen a relationship that spans thirty years and shifting boundaries: as lovers, as mentor and protégé, and as deep personal and literary allies.

Andreas Vesalius of Brussels 1514 - 1664 C. D. O'Malley,2023-11-10 The life of Vesalius, the foremost pioneer of modern anatomy, has never before been told in full. The present definitive biography, published in 1964 to mark the four-hundredth year since Vesalius's death, fills a serious gap in medical history. It is, in fact, the first biography of the great anatomist since Moritz Roth's work of 1892. Much new information has come to light in the intervening seventy years which enables O'Malley to reassess Vesalius in relation to his eminent contemporaries and to re-evaluate his contributions to anatomy and to medical science in general. O'Malley gives a detailed account of Vesalius's studies of anatomy in Paris, Padua, Pisa, and Bologna, and is thus able to show the comparative advancement of medical knowledge throughout Europe during the sixteenth century. In addition, the book contains a wealth of historical material of broad interest, including an account of the attempt of Vesalius and Ambroise Pare to save the life of Henry II of France as he lay dying from a lance wound in the eye. Also included is a critical account of the various stories concerning Vesalius's persecution by the Inquisition and his subsequent pilgrimage to Jerusalem. As much as possible of Vesalius's major achievement, *De humani corporis fabrica* (1543), his epochal treatise on the structure of the human body, is presented in his own words, translated from the Latin text by Dr. O'Malley. Wherever feasible, in fact, an effort has been made by the author to tell the story through the precise words of Vesalius or those of his contemporaries. This title
