Doing Their Bit Michael S. Shull,David E. Wilt,2014-05-23 The golden age of animation stretched from the early 1930s to the mid-1950s, with movie cartoons reaching an extraordinarily high level of artistry and technique--far higher than today's TV cartoons, for instance. Nearly 1000 cartoons were produced by the seven major animation studios in the U.S. between January 1, 1939, and September 30, 1945--the immediate pre-World War II period up to the cessation of hostilities. More than a quarter of the cartoons substantially refer to the war, and thereby are invaluable in helping to understand American attitudes and Hollywood's reflection of them. The meat of *Doing Their Bit* is a filmography with extremely detailed summaries of the 260 or so commercially produced, animated, war-related shorts, 1939-1945. There is also a good bit of overall commentary on these films as a group. Two chapters wrap up animated cartoons of World War I and the general political tenor of animated talkies of the 1930s. This edition also includes a new chapter on the outrageous government-sponsored Pvt Snafus.

Animation Paul Wells, 2019-07-25 *Animation: Genre and Authorship* explores the distinctive language of animation, its production processes, and the particular questions about who makes it, under what conditions, and with what purpose. The Art of Pixar Short Films Amid Amidi, 2017-05-16 While Pixar Animation Studios was creating beloved feature-length films such as *Monsters Inc.*, *Ratatouille*, and *WALL-E*, it was simultaneously testing animation and

storytelling techniques in dozens of memorable short films. Andre and Wally B proved that computer animation was possible; Tin Toy laid the groundwork for what would become Toy Story; and Mike's New Car exposed Pixar's finely tuned funny bone. In *The Art of Pixar Short Films*, animation expert and short film devotee Amid Amidi shines a spotlight on these and many more memorable vignettes from the Pixar archive. Essays and interviews illuminate more than 250 full-color pastels, pencil sketches, storyboards, and final rendered frames that were the foundation of Pixar's creative process.

Drive Daniel H. Pink, 2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Producing Independent 2D Character Animation Mark A. Simon, 2013-02-11 *PRODUCING INDEPENDENT 2D CHARACTER ANIMATION* takes an in-depth look at the artistry and production process of cel animation in a friendly, how-to manner that makes the sometimes tedious process of animation enjoyable and easy to understand. This book guides animators through every step of planning and production; includes examples of actual production forms, organization tips, screen shots, and sketches from the pre- to post-production processes; and contains detailed information on the hardware and software used to complete each step. By mapping out the course of how his small studio brainstormed, created, then produced its award-winning animation, *TIMMY'S LESSONS IN NATURE*, Mark Simon explains to animators what it takes—both creatively and resource-wise—to get their animations to market. Includes exclusive interviews with Oscar-nominated independent animator Bill Plimpton, Craig McCracken, creator of the *POWER PUFF GIRLS*, Craig Spike Decker of *SPIKE & MIKE'S SICK AND TWISTED FESTIVAL OF ANIMATION*, David Fine & Alison Snowden who are the Academy Award-Winning producers of *BOB AND MARGARET*, Cartoon Network's Senior Vice President of Original Animation, Linda Simensky, and Tom Sito, Co-Director of *OSMOSIS JONES*...as well as others.

Creating a 3D Animated CGI Short Michael Scaramozzino, 2010-02-17 *Creating a 3D Animated CGI Short* presents an insightful behind-the-scenes tour of the entire production process for 3D artists, animators, and independent filmmakers who are interested in creating their own CGI shorts as well as for those who are simply fans and enthusiasts of CGI films in general. This book presents detailed examples of every step of the production process; from initial concept through character design, set design, modeling, texturing,

lighting, camera animation, character animation, lip sync, rendering, post-production, compositing, and all the way to film festival submissions and online web distribution. It truly has something for everyone interested in CGI films. Using readily available off-the-shelf hardware and software such as modo, LightWave 3D, FPrime, HD Instance, Peak, Shake, iMovie, iDVD, GarageBand and more, *Creating a 3D Animated CGI Short* shows how to produce a complete 3D animated CGI Short, including how to fund the production by taking on paid freelance projects along the way. On Animation Ron Diamond, 2019-09-24 Be a fly on the wall as industry leaders Bill Kroyer and Tom Sito take us through insightful face-to-face interviews, revealing, in these two volumes, the journeys of 23 world-class directors as they candidly share their experiences and personal views on the process of making feature animated films. The interviews were produced and edited by Ron Diamond. Your job is not to be the one with the answers. You should be the one that gets the answers. That's your job. You need to make friends and get to know your crew. These folks are your talent, your bag of tricks. And that's where you're going to find answers to the big problems - Andrew Stanton It's hard. Yet the pain you go through to get what you need for your film enriches you, and it enriches the film. - Brenda Chapman Frank and Ollie always used to say that great character animation contains movement that is generated by the character's thought process. It can't be plain movement. - John Lasseter The beauty of clay is that it doesn't have to be too polished, or too smooth and sophisticated. You don't want it to be mechanical and lifeless. - Nick Park The good thing about animation is that tape is very cheap. Let the actor try things. This is where animation gets to play with spontaneity. You want to capture that line as it has never been said before. And, most likely, if you asked the actor to do it again, he or she just can't repeat that exact performance. But you got it. - Ron Clements

Max the Mighty Rodman Philbrick, 2013-06-25 A companion to Newbery Honor winning author Rodman Philbrick's *Freak the Mighty*. Still grieving over the loss of his best friend, Kevin, Max finds himself defending a young, solitary girl cruelly nicknamed Worm because she loves to read so much. When Max gets blamed for a horrific crime, he and Worm are forced to run for their lives. They flee across America -- hunted by the police, and pursued by the mysterious man known as the Undertaker. The only way they can survive is to confront Worm's darkest and most revealing secret. And that means facing something more frightening than death itself.
