Catastrophic Coastal Storms David R. Godschalk, David J. Brower, Timothy Beatley, 1989 As people cluster on the coast in increasing numbers, coastal populations become more vulnerable to severe damage from catastrophic coastal storms. The authors contend that current public policy has proved unable to cope with the growing problem, and in response they present a comprehensive analysis of coastal storm hazards, standard policy approaches, and promising new means of managing coastal growth. Catastrophic Coastal Storms offers a solution to the policy problem by proposing a merger of hazard mitigation with development management, basing this on extensive surveys of at-risk coastal locations and case studies of post-hurricane recovery. Starting with the local level of government and proceeding to state and federal levels, the authors propose a strategy for overcoming the formidable obstacles to safeguarding the shoreline population and its structures from hurricanes and other severe storms.

Navigating the Landscape of FAIR Data Sharing and Reuse: Repositories, Standards, and Resources Maaïke M. H. Van Swieten,Christian Haselgrove,2024-03-08 The huge volume of neuroscience data and the wide variety of data formats generated across different neuroscience communities has posed a challenge to traditional methods of data management, data sharing and data mining. Mandates on data sharing and the demand for using open data has driven the development of advanced methodologies and tools to effectively explore, mine and integrate data. However, the growing number of resources make it harder for researchers to navigate this landscape. Awareness of these tools and resources is vital for effective data mining and unlocking new discoveries. The goal of this research collection is to provide an overview of available resources, centred around making data findable, accessible, interoperable and reusable (FAIR).

The Official Indoor and Arena Football Trading Card Guide B. M. Publishing LLC, 2008 I had too many secrets. I wanted out of this closet. People all over the world were coming out. We could see them on national TV and books had been written. What was so difficult about it? I had to be free to talk with my grandchildren about it. I didn't want them to ever experience anything like this. There were more doors to open and bricks that needed to be blasted. What if my grandchildren changed their opinions of me when the truth was told? I couldn't hide anymore, my hands needed to be free. I had lived a half of a century and the one person who knew the truth had already forgiven me. Now, it was my time to do the same.
