Football Lexicon John Leigh,David Woodhouse,2006-06 A sort of Robbie Fowler's Modern English Usage, 'The Football Lexicon' provides an A to Row Z of the language of football, with over 800 examples of the set phrases we use to talk and write about the beautiful game. Altercation; A rather euphemistic way of describing a bust-up, a dust-up, a situation where players square up, as in - 'Bit of an altercation off the ball there.' See also handbags. Z - Row Z is a long way from the pitch and so, by inference, the hypothetical destination of any no-nonsense clearance. Defenders who put safety first by playing within their limitations can be praised, but a reference to the back of the stand may also depict a badly over-hit pass - 'He tried to find Fredgaard on the other wing, but that's gone straight into Row Z.' Old-school managers may even condone their players putting the opposition into the stands along with the ball - 'County boss Billy Dearden was left fuming - 'O'Driscoll should have finished in Row Z but we were too nice'.

Anti-Semitism F. Schweitzer,M. Perry,2005-11-03 In this provocative book, Marvin Perry and Frederick M. Schweitzer analyze the lies, misperceptions, and myths about Jews and Judaism that anti-semites have propagated throughout the centuries. Beginning with antiquity, and continuing into the present day, the authors explore the irrational fabrications that have led to numerous acts of violence and hatred against Jews. The book examines ancient and medieval myths central to the history of anti-semitism: Jews as 'Christ-killers', instruments of Satan, and ritual murderers of Christian children. It also explores the scapegoating of Jews in the modern world as conspirators bent on world domination; extortionists who manufactured the Holocaust as a hoax designed to gain reparation payments from Germany; and the leaders of the slave trade that put Africa in chains. No other book has focused its attention exclusively on a thematic discussion of historic and contemporary anti-semitic myths, covering such an expansive scope of time, and allowing for such a painstaking level of exemplification. Anti-semitism is an essential book that will serve as a corrective to bigotry, stereotype, and historical distortion.

Wearable Movement Sensors for Rehabilitation Gerrit Ruben Hendrik Regterschot,Gerard M Ribbers,Hans Bussmann,2021-09-23 This Special Issue shows a range of potential opportunities for the application of wearable movement sensors in motor rehabilitation. However, the papers surely do not cover the whole field of physical behavior monitoring in motor rehabilitation. Most studies in this Special Issue focused on the technical validation of wearable sensors and the development of algorithms. Clinical validation studies, studies applying wearable sensors for the monitoring of physical behavior in daily life conditions, and papers about the implementation of wearable sensors in motor rehabilitation are under-represented in this Special Issue. Studies investigating the usability and feasibility of wearable movement sensors in clinical populations were lacking. We encourage researchers to investigate the usability, acceptance, feasibility, reliability, and clinical validity of wearable sensors in clinical populations to facilitate the application of wearable movement sensors in motor rehabilitation.
