Messy Minimalism Rachelle Crawford, 2021-12-07 Think minimalism means a perfectly curated, always tidy home? Think again. Drowning in tides of toys, overflowing closets, and a crazy schedule, Rachelle Crawford assumed you had to be naturally organized to keep a tidy living space. Then she found minimalism: the messy, real-life kind, that is less about perfection and more about purpose. Thus began a journey toward decluttering her home, calendar, and soul. With empathy, grace, and humor, Crawford—who curates the popular *Abundant Life with Less* site--shares doable ways to own less and live more fully. Laying out

practical strategies for reducing waste, curbing consumption, decluttering, and finding lots more joy, Crawford offers no-nonsense solutions for the rest of us. Learn to become a more conscious consumer, create a capsule wardrobe, inspire family members to join you, free up more time for the things that matter, and create a tidy(ish) home. The messy minimalist way is a no-judgment zone, one in which we learn sustainable habits and grace-based practices. It's about living lightly on the earth and making room for purpose. Becoming a messy minimalist is not about turning into someone else; it's about clearing away clutter and expectations to unearth who you really are. It's about carrying fewer things so that we find ourselves holding onto what truly matters.

The Art of Eric Carle Eric Carle, 2021-03-09 Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Preschool Art MaryAnn F. Kohl,1994 Over 200 activities encourage children to explore and understand their world through art experiences that emphasize the process of art, not the product. The first chapter introduces basic art activities appropriate for all children, while the subsequent chapters, which build on the basic activities in the first chapter, are divided by seasons. All the activities are easy, all are fun--the emphasis here is on the process, rather than specific results--and none require any elaborate materials . . . a real find.--Sesame Street Parents, Picks for Parents Preschool Art offers help to parents of preschoolers struggling to meet the challenge of their children's creative impulses. Invitation to Draw Jean Van't Hul, 2021-06-15 Help children draw and think more creatively by inspiring them with interesting and challenging art prompts and questions. Invitation to Draw offers 99 open-ended drawing prompts, each one proposing a question to investigate that encourages children to free associate and problem solve. The perforated pages make it easy to tear out prompts for on-the-go activities or allowing multiple kids to draw at the same time. A blank cake provides the chance to decorate a dream confection, an empty house inspires stories about who lives there, and a grid of triangles supplies the chance to explore abstract art. What might be hiding in that tree? What sort of robot can you design? The possibilities are endless! Drawing prompts

inspire and encourage kids to think and draw differently, and sometimes more creatively, than they might when faced with a blank page. By offering constraints such as a pair of eyes or an empty car and asking a question, children begin thinking about the possibilities and answering the question in their heads even before they put pen (or marker or crayon!) to paper. And through the act of drawing and observing the drawing unfold, the brain continues to think and problem solve, opening up all kinds of creative possibilities around that specific idea.

ARTistic Pursuits, Elementary 4-5, Book One Brenda

Ellis, 2013-01-28 This book is the answer for the child who wants to learn to draw more realistically but doesn't know where to start. It incorporates the creative aspects of making art into each lesson. Students can begin this book without prior knowledge of art and work independently without the need for parental instruction. Children learn to see the elements of art in nature and in artwork by American masters. They will learn the techniques that artists use and produce a final work that requires assimilation of the knowledge gained in the three previous lessons within the unit. Each element is fully covered through this process of learning and builds on the others through simple yet engaging lessons. Children find, to their delight, that they are asked to choose the subject they want to draw. This results in a meaningful work of art as children fully engage in the process. In this way, children create

real works of art from the beginning to the end of the book, without boring practice routines or copying methods. Children watch their artistic skills improve and are encouraged by the works they produce. Children acquire skills in pencil drawing, scratch art, and markers. The art appreciation pages show how American artists like Remington, Audubon, Copley, and others used the elements of art and composition in their famous works, reproduced in full color. Technique pages demonstrate steps when working from direct observation, ways to add texture to a drawing, how to show form with lines, and other topics relevant to creating a drawing. The text is short and to the point and over 230 illustrations enhance visual understanding of the concepts. The content and conversational tone is perfectly suited to the age level. The book provides lessons for the completion of sixty-eight finished drawings that are both original and entirely the child's own. "This curriculum works. It makes artists! My children are really learning to draw, not just copy someone else's artwork, and to use their drawing in their daily lives. And it is so easy to use. "

Children's Educational Book: Junior Vincent Van Gogh Fiona Holt, 2013-03-27 ABOUT THE 'SMART READS for Kids' BOOK SERIES "Love Art, Love Learning" Welcome to the 'SMART READS for Kids' book series. Designed to expand and inspire young minds; this is a range of short educational books for children aged seven and over. These books do much more than just teach children about Art and Artists. They also act as a gateway to a much broader general knowledge base. Although one Artist's life and major works are always the central theme, wider learning is encouraged in the following ways:

- Geography. When locations relevant to the Artist's life are mentioned they are always accompanied by a colourful, child-friendly map so that the opportunity to learn some world geography does not pass the young reader by.
- History. If the Artist's actions or inspirations were based on the current affairs of the day then a snippet of history is explained in simple terms than can be easily understood by children.
- Vocabulary. In general the vocabulary is uncomplicated. However, a manageable number of longer words are intentionally introduced and then reused in each book. These are always demarked by bright bold colours and are accompanied by a clear definition and pronunciation. There is also a Glossary at the end.
- Maths. At least one maths sentence, for example a calculation of the Artist's age or how many years ago they were born, is included in each book. A column subtraction sum to accompany the statement is always laid out somewhere nearby.
- Concentration. Each book is written in the friendly first person and a trail of footprints running through it always leads to a cute cartoon animal at the end. The author sometimes asks questions of the young reader (and the final section is always a quiz). These features both keep children engaged in the book and encourage

them to form their own opinions. There is intentionally a high ratio of images to text. • Other Artists. No artist lives in isolation; they are invariably influenced by their peers and those that have come before them. Therefore each book introduces a select few new artist's names. In this way the child's knowledge horizon of Art History is gently expanded. ABOUT BOOK NO. 1: JUNIOR VINCENT VAN GOGH Geographical Locations Referenced: The Netherlands, The Dutch Brabant, Belgium, Antwerp, France, Paris and Arles.
