Art of Vinyl Toys S. A. Instituto Monsa de Ediciones, Josep Maria Minguet, 2014-05 Una de las aficiones o movimiento mas popular de los últimos años es el coleccionar muñecos de vinilo de diseñadores actuales. Esta tendencia comenzó en la década de los 90 en Hong Kong, cuando los artistas Michael Lau y Eric So emplearon el vinilo para crear versiones limitadas de juguetes coleccionables dirigidos a un publico adulto. Lo que hoy conocemos como ART TOY o VINYL TOY, juguetes producidos en edición limitada, los cuales son creados por diseñadores y artistas del mundo del diseño gráfico, dibujantes de cómic e ilustradores, grafiteros

Ohio Art Lisa Kerr, 1998 Most people know the toy Etch A Sketch, but relatively few know that Ohio Art Company produced it and some of America's most beautifully lithographed popular toys. Over 400 color photographs of toys from the 1920s through the 1980s and the text explore the evolution of Ohio Art. Catalog pages, information for determining dates of production, and a guide to current values make this a must for toy collectors.

Childhood by Design Megan Brandow-Faller, Michael E. Yonan, 2018-04-19 Informed by the analytical practices of the interdisciplinary 'material turn' and social historical studies of childhood, *Childhood By Design: Toys and the Material Culture of Childhood* offers new approaches to the material world of childhood and design culture for children. This volume situates toys and design culture for children within broader narratives on history, art, design and the decorative arts, where toy design has traditionally been viewed as an aberration from more serious pursuits. The essays included treat toys not merely as

unproblematic reflections of socio-cultural constructions of childhood but consider how design culture actively shaped, commodified and materialized shifting discursive constellations surrounding childhood and children. Focusing on the new array of material objects designed in response to the modern 'invention' of childhood—what we might refer to as objects for a childhood by design—*Childhood by Design* explores dynamic tensions between theory and practice, discursive constructions and lived experience as embodied in the material culture of childhood. Contributions from and between a variety of disciplinary perspectives (including history, art history, material cultural studies, decorative arts, design history, and childhood studies) are represented ? critically linking historical discourses of childhood with close study of material objects and design culture. Chronologically, the volume spans the 18th century, which witnessed the invention of the toy as an educational plaything and a proliferation of new material artifacts designed expressly for children's use; through the 19th-century expansion of factory-based methods of toy production facilitating accuracy in miniaturization and a new vocabulary of design objects coinciding with the recognition of childhood innocence and physical separation within the household; towards the intersection of early 20th-century child-centered pedagogy and modernist approaches to nursery and furniture design; through the changing consumption and sales practices of the postwar period marketing directly to children through television, film and other digital media; and into the present, where the line between the material culture of childhood and adulthood is increasingly blurred.

I Am Plastic, Too Paul Budnitz, 2010-10-01 A collection of high class designer toys from around the world

Toys for the Souls Reimar Schefold, 2017 This book presents a detailed and inspiring picture of the traditional ways of life and the impressive art of the Mentawai archipelago located off the west coast of Sumatra in Indonesia. This shamanistic culture, most notably found on the northernmost island of Siberut, maintains an ancient relationship between man and the spiritual world. Within this worldview, everything is animated. Not only do humans have souls, but so do animals, plants and objects. To please these souls and to create harmony, alluring artifacts have been created for generations. In this way life, art, ritual and aesthetics are intertwined: a notion reflected in the field photographs and in the beautiful and rare objects that are described and illustrated here. 'Toys for the Souls' reveals for the first time the richness and creative power of an artistic imagination, deeply rooted in Southeast Asian prehistory.
