**The Arts & Crafts Movement** Rosalind P. Blakesley, 2009-03-07 A comprehensive survey of the popular Arts and Crafts Movement.

The Arts and Crafts Movement Gillian Naylor, 1971 The Arts and Crafts Movement was concerned with the ethics as much as with the aesthetics of design. Its supporters were inspired by the idealism of Ruskin and Morris to campaign for a world that was fit to live in; in such a world men would enjoy the freedom to be creative, and this freedom would be expressed, in the words of William Morris, in the development of a decorative, noble, popular art-- design by the people for the people. This then was the ideal, and in their attempts to achieve it, British designers so revitalized the arts of architecture and design that their efforts were admired and emulated throughout Europe and in America. A program that implied social and moral as well as aesthetic reform, however, had its ambiguities. This book, which is concerned with Arts and Crafts design and theory, discusses these ambiguities. The author shows how Arts and Crafts attitudes were conditioned, on the one hand by efforts of such reformers as Sir Henry Cole to create better standards for manufactured goods and on the other by Ruskinian loathing for machinery. The development of the idea that a corrupt society can never achieve anything of value in art, architecture, and design is traced through the work and theory of Pugin, Ruskin, and Morris. The significance and influence of such organizations as the Century Guild, the

Art-Workers' Guild, the Arts and Crafts Exhibition Society, and the Guild of Handicraft is also discussed, as is the work of individual designers, including Gimson, De Morgan, the Martin Brothers, Benson, and Crane. The Arts and Crafts theory, as well as contributing to the development of Art Nouveau, also helped to form the dogma of the Modern Movement; and the conviction that ethics and aesthetics were in some way inseparable was to influence design theory at least until the 1950s.

*In the Arts and Crafts Style* Barbara Mayer, 1992-10 Each chapter of this book examines a different facet of this aesthetic, beginning with its European origins and proceeding to American classics, including California's Mission style. The book highlights the work of such influential designers as Gustav Stickley, L & J.G. Stickley, Charles Voysey, Greene & Greene, George Ohr, Tiffany, Frank Lloyd Wright, and Charles Rohlfs, among others, and features Arts and Crafts standards, such as the Morris chair, the Stickley settle, the Tiffany lamp, and the Fulper bowl, all displayed in a variety of contemporary interiors.

**The Arts & Crafts Movement in Europe & America** Wendy Kaplan, Alan Crawford, 2004

*The Arts and Crafts Movement in the Pacific Northwest* Lawrence Kreisman, Glenn W. Mason, 2007 This magnificent compendium is the first comprehensive exploration of the Arts and Crafts legacy in the Pacific Northwest. It traces the movement from its nineteenth-century English

beginnings to its flowering in Washington and Oregon through the 1920s and beyond, weaving into a tale of idealism and devotion everything from iconic masterpieces to recent discoveries. You will meet the architects, artists, craftspeople, and entrepreneurs in Seattle, Spokane, Portland, and smaller communities throughout the region in their own words in journal entries, letters, articles, and promotional materials of the period. Included are public and private architecture, furniture, pottery and tile, metalwork, lighting, leaded and stained glass, jewelry, textiles, basketry and the influence of Native American arts, painting and printmaking, photography, graphic arts, and book design. The ideals of the Arts and Crafts movement—a celebration of craftsmanship and the creative process; an appreciation of sound construction, pleasing proportion, grace, and simplicity; and a comfortable rusticity that sees beauty in nature and honors indigenous materials—found fertile ground in Washington and Oregon. The inspired handiwork of anonymous amateurs and significant regional artists alike yielded a remarkable variety of progressive architect-designed residences, bungalows for everyone, and all manner of artistic and practical furnishings and accessories. Beautifully illustrated with nearly 400 photographs and period graphics, including rare images published here for the first time, this groundbreaking volume is an authoritative reference, a provocative story, and an irresistible treasure trove for Arts and Crafts collectors and enthusiasts everywhere.

The Arts and Crafts Movement in Britain Mary Greensted,2010-11-23 Mary Greensted tells the story of the birth and development of the Arts and Craft movement in Britain with the help of numerous illustrations showing the buildings, furniture, metalwork, and the people who influenced it. The movement was concerned with the revival of traditional crafts, and a return to the vernacular, and it had socialist ideals at its heart. This movement, which flourished in the early twentieth century, has not only bequeathed us with a wealth of fine objects and buildings, but also a way of thinking about life and craft that continues to influence many today. **The Arts & Crafts Movement** Oscar Lovell Triggs, 2023-12-28 “Have nothing in your house that you do not know to be useful, or believe to be beautiful.” This quote alone from William Morris could summarise the ideology of the Arts & Crafts movement, which triggered a veritable reform in the applied arts in England. Founded by John Ruskin, then put into practice by William Morris, the Arts & Crafts movement promoted revolutionary ideas in Victorian England. In the middle of the “soulless” Industrial Era, when objects were standardised, the Arts & Crafts movement proposed a return to the aesthetic at the core of production. The work of artisans and meticulous design thus became the heart of this new ideology, which influenced styles throughout the world, translating the essential ideas of Arts & Crafts into design, architecture and painting.

Gustav Stickley and the American Arts & Crafts Movement Kevin W. Tucker, Gustav Stickley, Beverly Kay Brandt, Sally-Anne Huxtable, 2010 After three decades of Arts and Crafts exhibitions that have surveyed the entire movement or focused on its many regional manifestations, Gustav Stickley, the movement's central figure in the US, now receives his due. This exhibition catalogue, redolent with stunning color photographs of 100-plus selected Stickley pieces, draws its intellectual credibility from essays by six

leading scholars of the Arts and Crafts movement: Tucker, Brandt, David Cathers, Joseph Cunningham, Beth Ann Macpherson, and Tommy MacPherson. They examine the cultural and economic circumstances of Stickley's emergence around 1900, the formulation of his business strategies and ideals, the role of Irene Sargent and The Craftsman magazine, the paradoxical nature of the craftsman home, and Stickley's own two homes. Stickley is a large subject, but this catalogue captures the essence of the man and his work. Summing Up: Highly recommended. Upper-division undergraduates and above; general readers. **Inspiring Reform** Marilee Boyd Meyer, 1997-02-01 Fine craftsmanship and handiwork, originality in design, aesthetic purity, and honest use of materials in both decorative and utilitarian objects were the ideals embraced by Boston's Society of Arts and Crafts. This book celebrates the organization's centenary with splendid examples of metalwork, jewelry textiles, furniture, ceramics, photography, and more. 273 illustrations, 52 in color. D.
