Arts and Crafts Exhibition Society

The Arts and Crafts Movement Gillian Naylor, 1971 The Arts and Crafts Movement was concerned with the ethics as much as with the aesthetics of design. Its supporters were inspired by the idealism of Ruskin and Morris to campaign for a world that was fit to live in; in such a world men would enjoy the freedom to be creative, and this freedom would be expressed, in the words of William Morris, in the development of a decorative, noble, popular art-design by the people for the people. This then was the ideal, and in their attempts to achieve it, British designers so revitalized the arts of architecture and design that their efforts were admired and emulated throughout Europe and in America. A program that implied social and moral as well as aesthetic reform, however, had its ambiguities. This book, which is concerned with Arts and Crafts design and theory, discusses these ambiguities. The author shows how Arts and Crafts attitudes were conditioned, on the one hand by efforts of such reformers as Sir Henry Cole to create better standards for manufactured goods and on the other by Ruskinian loathing for machinery. The development of the idea that a corrupt society can never achieve anything of value in art, architecture, and design is traced through the work and theory of Pugin, Ruskin, and Morris. The significance and influence of such organizations as the Century Guild, the Art-Workers' Guild, the Arts and Crafts Exhibition Society, and the Guild of Handicraft is also discussed, as is the work of individual designers, including Gimson, De Morgan, the Martin Brothers, Benson, and Crane. The Arts and Crafts theory, as well as contributing to the development of Art Nouveau, also helped to form the dogma of the Modern Movement; and the conviction that ethics and aesthetics were in some way inseparable was to influence design theory at least until the 1950s.

Chapters in the History of the Arts and Crafts Movement Oscar Lovell Triggs,1902 "The Art that is Life" Wendy Kaplan,1998 Examines the goals of the Arts and Crafts movement William Morris, C.R. Ashbee, and the Arts and Crafts Peter Stansky,1984

The Arts & Crafts Movement Oscar Lovell Triggs, 2023-12-28 "Have nothing in your house that you do not know to be useful, or believe to be beautiful." This quote alone from William Morris could summarise the ideology of the Arts & Crafts movement, which triggered a veritable reform in the applied arts in England. Founded by John Ruskin, then put into practice by William Morris, the Arts & Crafts movement promoted revolutionary ideas in Victorian England. In the middle of the "soulless" Industrial Era, when objects were standardised, the Arts & Crafts movement proposed a return to the aesthetic at the core of production. The work of artisans and meticulous design thus became the heart of this new ideology, which influenced styles throughout the world, translating the essential ideas of Arts & Crafts into design, architecture and painting.

Arts and Crafts Architecture Maureen Meister, 2014-11-04 This book offers the first full-scale examination of the architecture associated with the Arts and Crafts movement that spread throughout New England at the turn of the twentieth century. Although interest in the Arts and Crafts movement has grown since the 1970s, the literature on New England has focused on craft production. Meister traces the history of the movement from its origins in mid-nineteenth-century England to its arrival in the United States and describes how Boston architects including H. H. Richardson embraced its tenets in the 1870s and 1880s. She then turns to the next generation of designers, examining buildings by twelve of the region's most prominent architects, eleven men and a woman, who assumed leadership roles in the Society of Arts and Crafts, founded in Boston in 1897. Among them are Ralph Adams Cram, Lois Lilley Howe, Charles Maginnis, and H. Langford Warren. They promoted designs based on historical precedent and the region's heritage while encouraging well-executed ornament. Meister also discusses revered cultural personalities who influenced the architects, notably Ralph Waldo Emerson and art historian Charles Eliot Norton, as well as contemporaries who shared their concerns, such as Louis Brandeis. Conservative though the architects were in the styles they favored, they also were forward-looking, blending Arts and Crafts values with Progressive Era idealism. Open to new materials and building types, they made lasting contributions, with many of their designs now landmarks honored in cities and towns across New England.
