Radiant Child Javaka Steptoe, 2016-11-08 Winner of the Randolph Caldecott Medal and the Coretta Scott King Illustrator Award Jean-Michel Basquiat and his unique, collage-style paintings rocketed to fame in the 1980s as a cultural phenomenon unlike anything the art world had ever seen. But before that, he was a little boy who saw art everywhere: in poetry books and museums, in games and in the words that we speak, and in the pulsing energy of New York City. Now, award-winning illustrator Javaka Steptoe's vivid text and bold artwork echoing Basquiat's own introduce young readers to the powerful message that art doesn't always have to be neat or clean--and definitely not inside the lines--to be beautiful.

Stories of Art James Elkins, 2013-10-18 *Stories of Art* is James Elkins's intimate history of art. Concise and original, this engaging book is an antidote to the behemoth art history textbooks from which we were all taught. As he demonstrates so persuasively, there can never be one story of art. Cultures have their own stories - about themselves, about other cultures - and to hear them all is one way to hear the multiple stories that art tells. But each of us also has our own story of art, a kind of private art history made up of the pieces we have seen, and loved or hated, the effects they had on us, and the connections that might be drawn among them. Elkins opens up the questions that traditional art history usually avoids. What about all the art not produced in Western Europe or in the Europeanized Americas? Is it possible to include Asian art and Indian art in 'the story?' What happens when one does? To help us find answers, he uses both Western and non-Western artworks, tables of contents from art histories written in cultures outside the centre of Western European tradition, and strangely wonderful diagrams of how artworks might connect through a single individual. True multiculturalism may be an impossibility, but art lovers can each create a 'story of art' that is right for themselves.

The Art of Eric Carle Eric Carle, 2021-03-09 Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Pigskins to Paintbrushes Don Tate,2021-08-17 From acclaimed author and illustrator Don Tate, the rousing story of Ernie Barnes, an African American pro football player and fine artist He realized how football and art were one and the same. Both required rhythm. Both required technique. Passing, pulling, breaking down the field—that was an art. Young Ernie Barnes wasn't like other boys his age. Bullied for being shy, overweight, and uninterested in sports like boys were “supposed” to be, he instead took refuge in his sketchbook, in vibrant colors, bold brushstrokes, and flowing lines. But growing up in a poor, Black neighborhood during the 1930s, opportunities to learn about art were rare, and art museums were off-limits because of segregation laws. Discouraged and tired of being teased, Ernie joined the school football team. Although reluctant at first, he would soon become a star. But art remained in Ernie's heart and followed him through high school, college, and into the NFL. Ernie saw art all around him: in the dynamic energy of the game, the precision of plays, and the nimble movement of his teammates. He poured his passion into his game and his craft, and became famous as both a professional athlete and as an artist whose paintings reflected his love of the sport and celebrated Black bodies as graceful and beautiful. He played for the Baltimore Colts (1959–60), Titans of New York (1960), San Diego Chargers (1960–62), and the Denver Broncos (1963–64). In 1965, Barnes signed with the Saskatchewan Roughriders in Canada, but fractured his right foot, which ended his professional football career. Soon after, he met New York Jets owner Sonny Werblin, who was impressed by Barnes and his art. In 1966, Barnes had a debut solo exhibition in New York City, sponsored by Werblin at the Grand Central Art Galleries; all the paintings were sold. Barnes became so well-known as an artist that one of his paintings was featured in the opening credits of the TV show *Good Times*, and he was commissioned to create official posters for the Los Angeles 1984 Summer Olympics. From award-winning author and illustrator Don Tate, *Pigskins to Paintbrushes* is the inspiring story of Ernie Barnes, who defined himself on his own terms and pushed the boundaries of “possible,” from the field to the canvas. The back matter includes Barnes's photograph and his official Topps trading card. Also included are an author's note, endnotes, a bibliography, and a list of websites where Barnes's work can be seen.

The Story of Art Workbook L. G. Williams,2016-02-02 The Story Of Art Workbook is designed specifically to accompany the classic text, *The Story of Art* by E.H. Gombrich. This supplemental drawing workbook has roughly 400 assignments to help students get the most they can out of *The Story of Art*, and out of their art history and art appreciation courses. The workbook challenges students to undertake fun-to-do drawing excersises that help them experience and understand the concepts firsthand, before or after they've read about in the textbook. As a supplemental workbook, *The Story Of Art Workbook* uniquely addresses the most pressing paradox that

currently exists in every college and university Art Appreciation and Introductory Art History classroom in the United States. Namely, the seminal visual principals, theories, and concepts in Art's history are still delivered solely through the same old, textual approach. This antiquated methodology remains to this very day, as distant, passive, and ineffectual as it was since its conception. After all, one cannot and should not expect the major achievements of the visual arts to be fully understood, grasped or appreciated by any means other than a direct, hands-on approach. The Story Of Art Workbook's various assignments are presented in the workbook in simple, contemporary terms and scenarios. The Table of Contents closely follows many versions of Gombrich's classic text, and is organized along the lines of a typical Art History and Art Appreciation course. Art in Chicago Maggie Taft, Robert Cozzolino, 2018-10-10 For decades now, the story of art in America has been dominated by New York. It gets the majority of attention, the stories of its schools and movements and masterpieces the stuff of pop culture legend. Chicago, on the other hand . . . well, people here just get on with the work of making art. Now that art is getting its due. *Art in Chicago* is a magisterial account of the long history of Chicago art, from the rupture of the Great Fire in 1871 to the present, Manierre Dawson, László Moholy-Nagy, and Ivan Albright to Chris Ware, Anne Wilson, and Theaster Gates. The first single-volume history of art and artists in Chicago, the book—in recognition of the complexity of the story it tells—doesn't follow a single continuous trajectory. Rather, it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced, yet wholly accessible history of visual art in the city. From the temptingly blank canvas left by the Fire, we loop back to the 1830s and on up through the 1860s, tracing the beginnings of the city's institutional and professional art world and community. From there, we travel in chronological order through the decades to the present. Familiar developments—such as the founding of the Art Institute, the Armory Show, and the arrival of the Bauhaus—are given a fresh look, while less well-known aspects of the story, like the contributions of African American artists dating back to the 1860s or the long history of activist art, finally get suitable recognition. The six chapters, each written by an expert in the period, brilliantly mix narrative and image, weaving in oral histories from artists and critics reflecting on their work in the city, and setting new movements and key works in historical context. The final chapter, comprised of interviews and conversations with contemporary artists, brings the story up to the present, offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as—or resist identifying as—a Chicago artist today. The result is an unprecedentedly inclusive and rich tapestry, one that reveals Chicago art in all its variety and vigor—and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage. Part of the Terra Foundation for American Art's year-long Art Design Chicago initiative, which will bring major arts events to venues throughout Chicago in 2018, *Art in Chicago* is a landmark publication, a book that will be the standard account of Chicago art for decades to come. No art fan—regardless of their city—will want to miss it.

The Stories of the Mona Lisa Piotr Barsony, 2012-10-08 “Dad, will you tell me a story?” asks a little girl. “Sure,” artist Piotr Barsony responds. “I’ll tell you a story about a painting. And the Mona Lisa, the most beautiful painting in all the world, will be our subject.” Thus begins the fascinating history of modern painting through what many consider the most famous work in the history of art: the Mona Lisa by Léonardo De Vinci. Piotr acts as the museum guide for his young daughter throughout the book, taking us on a journey through an imaginary museum. He describes famous art movements and artists, including: impressionism, cubism, expressionism, fauvism, minimalism, surrealism; Monet, Manet, Cézanne, Picasso, Bacon, Pollock, and more. All of the most famous painters of the modern and contemporary art movements are explained with their own Mona Lisa portraits, in their signature styles.

Throughout the book, Piotr acts as a guide, explaining to his daughter (and the reader) each genre of paintings in a clear, simple, and entertaining way. By the end of the book, we discover that he's actually the artist who's been painting all those Mona Lisas—and the results are spectacular. *The Stories of the Mona Lisa* is the perfect book for any child who loves art, history, and a good story.

The Short Story of Art, 2017-05-02 *The Short Story of Art* is a pocket guide to key movements, works, themes and techniques – a new and innovative introduction to the subject of art. Simply constructed, the book explores 50 key works, from the wall paintings of Lascaux to Damien Hirst installations, and then links these to sections on art movements, themes and techniques. The design of the book allows the student or art enthusiast to easily navigate their way around key periods, artists and styles. Accessible and concise, it simplifies and explains the most important and influential concepts in art, and shows how they are connected. The book explains how, why and when art changed, who introduced certain things, what they were, where they were produced, and whether they matter. It demystifies artistic jargon, giving readers a thorough understanding and broad enjoyment of art. 'Susie Hodge has culled through hundreds of art movements to highlight and present 36 that illustrate transitions of art, its ideas, representations, characteristics, and production from Prehistoric times up to the dynamic shifts of the 1960s and '70s. As complex as art history is, this book is a welcome, succinct introduction to some classic Western masters.' Cindy Helm, New York Journal of Books 'Excellent introduction to the subject. A good quality book, tightly bound, and well illustrated.' – Colin, Amazon reviewer 'The Short Story of Art is an attractive volume that serves as a convenient introduction to major movements, works, themes, and techniques of Western art. The works within are featured more for their seminal or illustrative nature than their fame per se, so the story part of the title is apt. The cross referencing and Other works by... sections makes it clear that this book is encouraging the reader to explore art on his own.' –Tommy Grooms, Goodreads reviewer

Art Firsts Nick Trend, 2023-06-15 The story of art is not always the story of art-historical 'isms' and complex academic debate. The real history is often the story of some very simple firsts - the first time an artist painted themselves, the first time someone painted a smile, the first actual place to be depicted, the first feminist artwork, the first anti-war work. Art evolves and revolutionises itself through these simple - but ground-breaking - creative leaps. *Art Firsts* brings together 30 of these pioneering firsts to piece together an original approach to looking at and appreciating art, as well as understanding where it has come from and how it relates to you. Each first is approachable and engaging, while each work is simply and satisfyingly explained. Every work is also fully illustrated, and its significance is shown through images of the subsequent artists directly inspired by them. *Art Firsts* offers a refreshing and fascinating narrative for those curious about why so-called 'masterpieces' are so important and how the story of art can be boiled down to flashes of fascinating brilliance. When was art's first kiss? Who painted the first ever smile and the first self-portrait? Who made the first known depiction of a gay embrace, when did Western art first depict a Black subject or approach feminism? And why were each of these firsts so important? This book answers all these fascinating questions and more. A new, simple way of looking at, appreciating and understanding where art has come from. Each 'first' is deliberately related to our everyday - instead of the traditional art-historical milestones - and is succinctly and entertainingly explained Includes famous and iconic works alongside unknown gems from around the world A simple and satisfying escorted tour through art's history for the curious

Dancing Through Fields of Color Elizabeth Brown, 2019-03-19 They said only men could paint powerful pictures, but Helen Frankenthaler (1928-2011) splashed her way through the modern art world. Channeling deep emotion, Helen poured paint onto her

canvas and danced with the colors to make art unlike anything anyone had ever seen. She used unique tools like mops and squeegees to push the paint around, to dazzling effects. Frankenthaler became an originator of the influential “Color Field” style of abstract expressionist painting with her “soak stain” technique, and her artwork continues to electrify new generations of artists today. *Dancing Through Fields of Color* discusses Frankenthaler’s early life, how she used colors to express emotion, and how she overcame the male-dominated art world of the 1950s.

ARTistic Pursuits Early Elementary K-3, Book Two Brenda Ellis, 2013-01-28 This book focuses on the lives of artists who left the world with a vision that has awed and inspired others for generations. Using colorful illustrations and works by Master artists like Giotto, Michelangelo, Rembrandt, Vermeer, and Turner, this book tells the stories of individual artists within major periods of art from 13th century late Gothic to the academy artists of the 18th century. Projects encouraging creativity include watercolor painting, oil pastels, printmaking, and mixed media. This book is a continuation of the ancient art history section of *Artistic Pursuits Early Elementary K-3, Book One, An Introduction to the Visual Arts* and it can be used independently. The introduction to each lesson helps children see a relationship between their own lives and that of the artist. Parents simply read the text and allow their child to ponder the similarities. The fictional story adds details and focuses on points for which the artist and his art are remembered. The story incorporates known facts about the artist's life in a way that appeals to young minds. This ten-minute lesson is followed by a project related to the story in which the child works with materials in a variety of ways. The following lesson features a work of art by the Master artist and children interact by answering focused questions related to the artwork. This activity is followed by a project related to the artwork. Printmaking is covered over several artists and periods and is a favorite art technique for children of this age group. This book provides lessons for the completion of thirty-six finished drawings, paintings, and prints that are both original and wholly the child’s own. “My son enjoys the stories of the artist’s lives, and is very enthusiastic about completing his projects...I CAN teach art, I just needed a good guide!” Homeschool Parent – Christy Lucas / Ohio “I love your approach to art history and that the children are getting a rich education through your materials!” Homeschool Parent and Teacher - Hannah Kendall / Kansas.

Scrapbook Jack Whyte, 2015-06-21 “Access to arts and culture should be free for everyone,” says artist Jack Whyte. “Anyone can tour my 2015 exhibits online for free and - from anywhere in the world.” He and his son Dylan Whyte created a virtual gallery this past Spring where artworks are experienced up close and personally, as if literally standing in front of them. It's great to produce and present work on a scale of my choice, the way I originally envisioned it, Jack explains. As a young boy he never imagined having the opportunity to design and construct art without restriction. The discovery of a platform which allows for creative freedom has provided a new means

for connecting with others. Jack Whyte was born in 1939 in Toronto, Ontario - just before the start of the second World War. Having been influenced at an early age by a creative environment, he has pursued artistic practices as well as the adventure of invention for more than 55 years. 2015 marks the beginning of a new exploit for Jack, the release of his latest publication, 'Scrapbook: a story of art'. From modelling with Mickey Mouse as a child to showing at the Pollock Gallery and even winning awards for videos, this book recounts the journey and challenges faced by a becoming artist and the enormous adversity that life can throw at you. In the autumn of 2014, Jack mentioned to his son, Dylan, that he was starting a book and could use some help with it. Over the course of a long winter and many toasty afternoons by the fire, they searched for, found, prepared and put together what has become a very personal and thoughtful one-of-a-kind memoir. It's not until you have the whole story that you really understand how the pieces all fit together, says Dylan Whyte. It's also difficult to put everything into perspective when you're part of the story. Getting to the point where I can hold a part history in my hands helps me understand where I come from. When Jack and Dylan started producing the book, it was just a collection of stories and images, but with months of collaboration and hard work, they have created an album that is delightfully personable and genuinely familiar. Jack tells you about the experiences that influenced him as an artist and includes all sorts of fun stories from his life, says Ashley Whyte, wife of Dylan and proprietor of the Whytes gallery on the waterfront in the Gore Bay Harbour Centre. There is also an abundance of never-before-seen photographs and a wealth of artwork. When Jack named it Scrapbook, he really meant it. Coming in at a whole 456 pages, Scrapbook was digitally published in June of this year and is available online for everyone to read for free. Although it was only meant to be a digital publication, new economic platforms have given Scrapbook the opportunity to become something more than just a concept. The book is obviously quite big and financing a print run on our own wouldn't be viable, so we talked about other options and crowdfunding came up as a potential, explains Ms. Whyte. It's an incredibly different approach than anything Jack is familiar with, he has always done things on his own. It wasn't until only recently that we knew something like this even existed. Crowdfunding is the process of funding your projects through small contributions made by many individuals in order to attain a certain monetary goal, typically via the internet. The model that has been around the longest is rewards-based crowdfunding, where people can donate and receive goods in recognition of their support. Ashley and Dylan Whyte have taken Scrapbook to RocketHub; a platform specializing in arts and entertainment, to seek help in bringing Jack's story to life. They've launched their campaign and are working to raise \$11,500 to cover the costs of printing a limited edition hardcover. In the meantime, Scrapbook remains free for everyone to read online and enjoy. For more information about Scrapbook and how you can help, please visit their Rockethub campaign at: scrapbook.whytesonline.com
