Storm of Ash (The Book of Fire series, Book 3) Michelle Kenney, 2019-12-11 'If an action-packed blend of Roman mythology and dystopian fantasy sounds like your cup of tea, you should definitely pick up the Book Of Fire trilogy.' – Katharine Corr, co-author of The Witch's Kiss Trilogy The brand new novel from Michelle Kenney, author of the Book of Fire and City of Dust!

A Storm of Silver and Ash Marion Blackwood, 2019-10-08 What would you sacrifice to save your friend? Your soul? Your humanity? Your life? The Oncoming Storm is a name whispered in awe throughout the Underworld. She's known as a master thief and a lethal knife-wielder - some even say she has the skills of an assassin. All of it is true. She's also a sarcastic smartmouth with the social graces of a bull. You will find her running across rooftops, sneaking in the shadows, and breaking into houses. That is, if she's not busy getting ambushed and blackmailed into a seemingly impossible mission. Grudgingly caught in a dangerous power struggle, the Oncoming Storm must leave behind the world she knows and maneuver through scheming assassins, calculating elves, and desperate royals. Before her adventure is over, she will have loved, saved, killed, and double-crossed those around her.

The only question is, who? The clock is ticking, and before time runs out, the Oncoming Storm must decide who to trust and who to betray...

A Storm of Silver and Ash Marion Blackwood,2020-06-29

Out of the Storm Christopher Ash,2006 Ash explores the lonely and cruel nature of suffering and whether or not God can be found in the midst of it. He exposes the shortcomings of Job's friends, and takes the reader through Job's long debate with God towards a humbling--and hopeful--resolution. (Biblical Studies)

The Last Storm Tim Lebbon,2022-07-19 A gripping, terrifying road trip through the heat of the post-apocalyptic American desert from the author of Netflix's *The Silence*. This action-packed and thought-provoking eco-nightmare will appeal to fans of Benjamin Percy, Christopher Golden and Josh Malerman. With global warming out of control, large swathes of North America have been struck by famine and drought and are now known as the Desert. A young woman sets out across this dry, hostile landscape, gradually building an arcane apparatus she believes will bring rain to the parched earth. Jesse lives alone, far from civilization. Once, he too made rain, but he stopped when his abilities caused fatalities, bringing down not just rain but scorpions, strange snakes and

spiders. When his daughter Ash inherited this tainted gift, Jesse did his best to stop her. His attempt went tragically wrong, and he believes himself responsible for her death. But now his estranged wife Karina brings news that Ash is still alive. And she's rainmaking again. Terrified of what she might bring down upon the desperate communities of the Desert, they set out to find her. But Jesse and Karina are not the only ones looking for Ash. As the storms she conjures become more violent and deadly, some follow her seeking hope. And one is hungry for revenge.

The Oncoming Storm Sophia Evans, 2018-09-27 The crew of a ship are sailing directly into the path of an oncoming storm. Will Captain Steve be able to save them all? Will his ship sink? And what is that flash of light in the distance?

Of Storm and Ash T J Chamberlain, 2020-09-15 In the world of Komos, everything is neatly divided into two categories: Light and Dark. For centuries, Light mages and Dark mages have existed separately, each side holding on to a long and bloody history of hatred for the other. Nerissa Smith and her brother, Poseidon, are Grey mages-a perfect mix of Light and Dark. As revolution stirs in the kingdom of Aether, they are forced out of hiding and wind up under the protection of a dedicated group of political reformists. But

it is not only the social order that is falling out of balance; suddenly, it is up to Nerissa and Poseidon to find a way to restore balance to the entity Chaos, even as they prepare for the war they were born to fight.

Dust Storm David Neth, 2019-10-22 The truth will set him free... In the aftermath of Black Magnet's demise, Ash and his friends are still adjusting to the ramifications it had on their lives. Now equipped with a glimpse of who he was before he woke up in the mine, Ash is reluctant to learn more about himself and looks for anything to keep his mind off of his past. When a student at Perry's new job at a nearby university winds up dead with no sign of attack other than sand scattered around the body, Ash finds the perfect distraction. Only, he can barely get answers on the first victim before another student is killed in the same way somewhere else on campus. While attempting to solve the murders that Ash knows was done by a super, he soon finds himself in the cross-hairs of the police detective leading the investigation. In order to stop the super truly responsible for the murders, Ash is faced with a choice: take the fall for the attacks or expose himself as Heat. *Dust Storm* is the second book in the Heat series.

Storm (Stone Braide Chronicles Book #3) Bonnie S.

Calhoun,2016-11-01 Now That Glade, Selah's Protecting Force, Is Gone, the Hunt Is On to Capture Her Selah has survived the forces of both man and nature to reunite her family. But her happiness is short-lived as they are forced into a barren world of volcanic ash that conceals the storm boiling beneath. The clock is ticking and Selah's abilities are growing--along with the list of those out for her blood. Selah feels unworthy of her status as a novarium and is tortured by the knowledge of lives lost to protect her. Her physical and mental abilities will tempt her to be reckless, but she must learn to wield such power responsibly. Time is running out as more lives are tragically cut short and the search for the Third Protocol takes Selah into lands that have fallen into legend. Can Selah follow the trail of ancient artifacts and finish the quest? Or have she and her companions pinned their hopes on nothing more than a fanciful story? Calhoun's characters race headlong into an explosive combination of futuristic technology, age-old greed, and the sacrifices for love that drive them to impossible choices.

Naturalizing Africa Cajetan Iheka,2017-12-07 The problem of environmental degradation on the African continent is a severe one. In this book, Cajetan Iheka analyses how African literary texts have engaged with pressing ecological problems in Africa,

including the Niger Delta oil pollution in Nigeria, ecologies of war in Somalia, and animal abuses. Analysing narratives by important African writers such as Amos Tutuola, Wangari Maathai, J. M. Coetzee, Bessie Head, and Ben Okri, Iheka challenges the tendency to focus primarily on humans in the conceptualization of environmental problems, and instead focuses on how African literature demonstrates the interconnection and 'proximity' of human and nonhuman beings. Through this, Iheka ultimately proposes a revision of the idea of agency based on human intentionality in African literary studies and postcolonialism: that texts yoke the exploitation of Africans to the despoliation of the environment, and they recommend responsibility toward human and nonhuman beings as crucial for ecological sustainability and addressing climate change.

Storm-Star I.N. Morgan, 2019-09-02 Ash Jagerhund thought he found the answers to the questions that have plagued him all these years since his mother disappeared. A phone call from a stranger leads him to Rust Springs, Ohio: a quaint town with a dark secret. Firestorm Edward Struzik, 2017-10-05 Frightening...Firestorm

comes alive when Struzik discusses the work of offbeat scientists. -
-New York Times Book Review Comprehensive and compelling. --
Booklist A powerful message. --Kirkus Should be required reading.
--Library Journal In the spring of 2016, the world watched as wildfire ravaged the Canadian town of Fort McMurray. Firefighters named the fire the Beast. It seemed to be alive with destructive energy, and they hoped never to see anything like it again. Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace. In *Firestorm*, Edward Struzik confronts this new reality, offering a deftly woven tale of science, economics, politics, and human determination. It's possible for us to flourish in the coming age of megafires--but it will take a radical new approach that requires acknowledging that fires are no longer avoidable. Living with fire also means, Struzik reveals, that we must better understand how the surprising, far-reaching impacts of these massive fires will linger long after the smoke eventually

clears.

Unleash the Storm Annette Marie, 2016-03-04 Piper thought she could handle the Sahar, the most powerful magical weapon in existence. She thought she could protect her loved ones and stop a war. She thought she could make a difference. She was wrong, and her mistakes were paid for in blood. Leaving her world--and her failures--behind, she retreats to the Underworld with Ash and the other draconians. They forge deep into long-abandoned mountains, the first draconians to fly the valleys and passes in centuries--or so they thought. Until now, Ash's mysterious heritage has been nothing but a name, but his presence does not go unnoticed. A new danger stalks him, one that may be even greater than what they escaped. Cut off from the power she'd come to rely on and lost in a world where she doesn't belong, Piper has never felt so hopeless. But she must find her strength, and find it quickly, before she loses Ash to an ancient power he can't fight, before her home is devastated by the daemon war, and before her mind, body, and soul are consumed by the Sahar's insidious magic.

The Knowing One Lexy Wolfe, 2017-03-24 After two thousand years, the Desanti god known as the Raging One was freed from his imprisonment, releasing the Sundered Lands from the chains

slowly tearing apart the fabric of reality. Except freedom came with a heavy price. Almek must reverse the accelerated degradation of time on his body before it's too late. Only by returning to the Fortress of the goddess of time will he be able to stop the damage. Although powerful, Almek's students cannot alter the natural course of the seasons, and the onset of winter makes travel impossible. The victory they gained will be lost unless two long-time enemies bridge the chasm between their cultures in time to save their friend and master.

We Are Unprepared Meg Little Reilly, 2016-08-30 Meg Little Reilly places a young couple in harm's way—both literally and emotionally—as they face a cataclysmic storm that threatens to decimate their Vermont town, and the Eastern Seaboard in her penetrating debut novel, *WE ARE UNPREPARED*. Ash and Pia move from hipster Brooklyn to rustic Vermont in search of a more authentic life. But just months after settling in, the forecast of a superstorm disrupts their dream. Fear of an impending disaster splits their tight-knit community and exposes the cracks in their marriage. Where Isole was once a place of old farm families, rednecks and transplants, it now divides into paranoid preppers, religious fanatics and government tools, each at odds about what

course to take. WE ARE UNPREPARED is an emotional journey, a terrifying glimpse into the human costs of our changing earth and, ultimately, a cautionary tale of survival and the human

Hell's Dust Storm Scott Hayes,2023-06-05 In the sweltering heat of a typical summer day, the bustling city of Phoenix, Arizona, goes about its usual business. However, an unprecedented natural disaster looms on the horizon. A massive dust storm, known as a haboob, brews in the south, and with each passing moment, its intensity grows. As the haboob envelops the city, a sense of chaos takes hold. Violent winds whip through the streets, uprooting trees and tossing debris in a menacing dance. Making matters worse a volcano hundreds of miles away in Mexico erupts, spewing tons of volcanic ash into the atmosphere. Carried by the force of the storm, this ash becomes entangled with the swirling dust, engulfing Phoenix in a thick blanket of death and darkness. Can Phoenix survive the Dust Storm from Hell?
