The Storms That Fated Us J. P. Summers,Ashley Egan,Jessica Swift,2013-11-27 As Tia Deltoro's 23rd birthday approaches, she looks forward to meeting up with her old high school friends and hitting the ski slopes. What was supposed to be a relaxing weekend getaway, staying in a beautiful cottage overlooking the mountains, turns out to be a hellish nightmare when Tia unmistakably recognizes the person delivering their firewood. It has been five years since Tia graduated from New Holston High, yet she remains emotionally shackled to her past, or more specifically ex-best friend Carson Rodriguez, the man holding the bundle of firewood. When he accuses Tia for setting up their chance meeting she fires back running him off. Unfortunately for these two former friends, Mother Nature decides to show them an intervention they'll never forget! The drastic shift in weather conditions causes Carson to return and wait out the horrific weather conditions in the confinements of the cottage with Tia. While the storm rages outside, the two distance themselves to opposite sides of the living room for their own protection. Tia keeps herself distracted by looking at the old high school yearbooks that were packed in preparation for planning the upcoming reunion. Through a series of flashbacks, the memories come flooding back. She can't help but wonder how things could have gone differently if her ex-boyfriend Evan didn't always lure her back into his corrupting grasp or Carson's on-again-off-again girlfriend Erin hadn't been so conniving. In the end all of the jealousy, secrets, and lies ultimately severed the ties that held their four year friendship together. With the strong winds from this blizzard of mass destruction leveling their only means of shelter one window and roof tile at a time, only one question remains...will Tia and Carson be able to put aside their anger towards each other long enough to survive another storm?

Encyclopedia of Television Film Directors Jerry Roberts,2009-06-05 From live productions of the 1950s like *Requiem for a Heavyweight* to big budget mini-series like *Band of Brothers*, long-form television programs have been helmed by some of the most creative and accomplished names in directing. *Encyclopedia of Television Film Directors* brings attention to the directors of these productions, citing every director of stand alone long-form television programs: made for TV movies, movie-length pilots, mini-series, and feature-length anthology programs, as well as drama, comedy, and musical specials of more than 60 minutes. Each of the nearly 2,000 entries provides a brief career sketch of the director, his or her notable works, awards, and a filmography. Many entries also provide brief discussions of key shows, movies, and other productions. Appendixes include Emmy Awards, DGA Awards, and other accolades, as well as a list of anthology programs. A much-needed reference that celebrates these often-neglected artists, *Encyclopedia of Television Film Directors* is an indispensable resource for anyone interested in the history of the medium.

Law and Recovery From Disaster: Hurricane Katrina Robin Paul Malloy,2016-12-05 In August of 2005, Hurricane Katrina hit the Gulf Coast of the United States, directly affecting 1.5

million people. Only one year earlier, an Indian Ocean tsunami struck Indonesia, destroying or damaging more than 370,000 homes. As forces of nature, hurricanes, tsunamis, earthquakes and floods are not limited to occurrences in any one community or any one country. In *Law and Recovery from Disaster: Hurricane Katrina*, attention is focused on the ability of law and legal institutions to not only survive such disasters but to effectively facilitate recovery. Using Hurricane Katrina as a lens, contributors address a wide range of issues of interest to people concerned about property law, disaster preparedness, housing, insurance, small business recovery, land use planning and the needs of people with disabilities. While Hurricane Katrina is the focal point for discussion, the lessons learned are readily applicable to a variety of disaster situations in a wide range of global settings.
