Life with My Family Renee Hooker, Karl Jones, 2018-10-16 Cute and familiar. - Kirkus From New York Times Best-Selling illustrator, Kathryn Durst, and Penguin Workshop editors and authors, Renee Hooker and Karl Jones, comes a tale of a young girl who imagines her family as a pandemonium of parrots, a swarm of bees, a smack of jellyfish, a wisdom of wombats, and more! When a young girl gets frustrated with her chaotic life at home, she imagines what things would be like if her family were animals instead. Would life be better as a pod of pelicans, a pride of lions, or a herd of buffalo? Or is it ultimately a family of humans that she needs? In this beautifully illustrated book, young readers learn the names for groups of animals through a sweet, whimsical narrative that focuses on the importance of family.

Touch Screen Theory Michele White,2022-10-25 Technology companies claim to connect people through touchscreens, but by conflating physical contact with emotional sentiments, they displace the constructed aspects of devices and women and other oppressed individuals' critiques of how such technologies function. Technology companies and device designers correlate touchscreens and online sites with physical contact and emotional sentiments, promising unmediated experiences in which the screen falls away in favor of visceral materiality and connections. While touchscreens are key elements of most people's everyday lives, critical frameworks for understanding the embodied experiences of using them are wanting. In *Touch Screen Theory*, Michele White focuses on the relation between physically touching and emotionally feeling to recenter the bodies and identities that are empowered, produced, and displaced by these digital technologies and settings. Drawing on detailed cases and humanities methods, White shows how and why gender, race, and sexuality should be further analyzed in relation to touchscreen use and design. White delves into such details as how women are informed that their bodies and fingernails are not a fit for iPhones, how cellphone surfaces are correlated with skin and understood as erotic, the ways social networks use heart buttons and icons to seem to physically and emotionally connect with individuals, how online references to feminine and queer feelings are resisted by many men, and how women producers of autonomous sensory meridian response (ASMR) videos use tactile strategies and touch screens to emotionally bond with viewers. Proposing critical methods for studying touchscreens and digital engagement, *Touch Screen Theory* expands a variety of research areas, including digital and internet cultures, hardware, interfaces, media and screens, and popular culture.

The Warrior Charles J. Pettitt,2014-12-05 "The Warrior" Endorsement "The Warrior" brought back many memories of the past in my life and some current day battles I still face. As a former UFC and Pride fighter I faced many of the same ridicule and resistance from the "Religious" community and personal friends. People would ask me daily how I could be a Christian yet get into a cage and battle. The sport then still banned on Network television and the political resistance of it becoming a mainstream sport made acceptance difficult. This book helps explain how God uses his followers in all areas and aspects of life not just in Church. I have always thought I was used to spread the glory of Jesus and had a captive audience every time I fought. It was an opportunity to spread the Love of Christ in what could be a dark place. A chance to give God the glory for my victory's when the microphone was handed to me, and quote a scripture verse pointing my finger at Jesus and not myself. Physical Sports such as MMA are no different than going to school as a teacher. It's an opportunity to give God the glory, and profess your love for an awesome God. "The Warrior" is one more way we as believers can help others have the piece that we all need. I highly recommend this book to all!" Ron Waterman, first WEC super heavyweight champion and former UFC, WWE, Pancrase and Pride Fighting Championship professional fighter. Ron is the Author of "Tapped Out by Jesus" from the cage to the cross.

Smart Ovens for Lonely People Elizabeth Tan,2020-06-01 Conspiracies, celebrities, and therapies underpin this beguiling short-story collection from Elizabeth Tan. A cat-shaped oven tells a depressed woman she doesn't have to be sorry anymore. A Yourtopia Bespoke Terraria employee becomes paranoid about the mounting coincidences in her life. Four girls gather to celebrate their fabulous underwear. With her trademark wit and slicing social commentary, Elizabeth Tan's short stories are as funny as they are insightful. This collection cements her role as one of Australia's most inventive writers 'This utterly original book will mess with your mind and make you laugh like a drain.' Sydney Morning Herald 'Elizabeth Tan can twist ordinary suburban life into the weirdest shapes.' The Monthly 'Tan twists a future that has already arrived with one in the process of arriving.' The Saturday Paper 'In a collection of consistent highlights, the brilliance of some stories is particularly blinding.' Australian Book Review 'Tan's evocation of this dreamlike incongruity is playful, reminiscent of Murakami's blasé surrealism and Coupland's crafty wryness.' Sydney Review of Books

The Generative Study of Second Language Acquisition Suzanne Flynn,Gita Martohardjono,Wayne O'Neil,2014-01-14 The vast majority of work in theoretical linguistics from a generative perspective is based on first language acquisition and performance. The vast majority of work on second language acquisition is carried out by scholars and educators working within approaches other than that of generative linguistics. In this volume, this gap is bridged as leading generative linguists apply their intellectual and disciplinary skills to issues in second language acquisition. The results will be of interest to all those who study second language acquisition, regardless of their theoretical perspective, and all generative linguists, regardless of the topics on which they work.
