*Building a StoryBrand* Donald Miller, 2017-10-10 More than half-a-million business leaders have discovered the power of the StoryBrand Framework, created by New York Times best-selling author and marketing expert Donald Miller. And they are making millions. If you use the wrong words to talk about your product, nobody will buy it. Marketers and business owners struggle to effectively connect with their customers, costing them and their companies millions in lost revenue. In a world filled with constant, on-demand distractions, it has become near-impossible for business owners to effectively cut through the noise to reach their customers, something Donald Miller knows first-hand. In this book, he shares the proven system he has created to help you engage and truly influence customers. The StoryBrand process is a proven solution to the struggle business leaders face when talking about their companies. Without a clear, distinct message, customers will not understand what you can do for them and are unwilling to engage, causing you to lose potential sales, opportunities for customer engagement, and much more. In *Building a StoryBrand*, Donald Miller teaches marketers and business owners to use the seven universal elements of powerful stories to dramatically improve how they connect with customers and grow their businesses. His proven process has helped thousands of companies engage with their existing customers, giving them the ultimate competitive advantage. *Building a StoryBrand* does this by teaching you: The seven universal story

points all humans respond to; The real reason customers make purchases; How to simplify a brand message so people understand it; and How to create the most effective messaging for websites, brochures, and social media. Whether you are the marketing director of a multibillion-dollar company, the owner of a small business, a politician running for office, or the lead singer of a rock band, Building a StoryBrand will forever transform the way you talk about who you are, what you do, and the unique value you bring to your customers.

Chris Ware, 2012 In Chris Ware's own words, 'Building Stories follows the inhabitants of a three-flat Chicago apartment house: a thirty-year-old woman who has yet to find someone with whom to spend the rest of her life; a couple who wonder if they can bear each other's company for another minute; and finally an elderly woman who never married and is the building's landlady...' The scope, the ambition, the artistry and emotional heft of this project are beyond anything even Chris Ware has achieved before.

*Stories for Classroom and Assembly* Mal Leicester, 2003-12-16 By emphasising the importance of 'the story' as a springboard to learning, this practical book for teachers consists of 15 learning sessions for use as one-hour classroom lessons or as the basis for a school assembly, pitched at the 4 - 8-year-old.

Stories For Circle Time and Assembly Mal Leicester, 2005-11-14 Circle time is a very popular activity in today's schools and creates a safe, fun environment where children can think about their relationships, their behaviour, and be honest about their problems and feelings. In this book, the highly successful and popular author Mal Leicester offers a range of lively and engrossing stories, poems and songs for use in circle time activities and assemblies. They are specially written to develop the cognitive and emotional development of young children and aim to encourage active and responsible

participation. Using plentiful illustrations, photocopiable pages and practical activities, the author links twelve key value-based themes in the circle time stories to stimulate discussion and enhance pupils' literacy skills and citizenship education.

*Assembling California* John McPhee, 2010-04-01 At various times in a span of fifteen years, John McPhee made geological field surveys in the company of Eldridge Moores, a tectonicist at the University of California at Davis. The result of these trips is *Assembling California*, a cross-section in human and geologic time, from Donner Pass in the Sierra Nevada through the golden foothills of the Mother Lode and across the Great Central Valley to the wine country of the Coast Ranges, the rock of San Francisco, and the San Andreas family of faults. The two disparate time scales occasionally intersect—in the gold disruptions of the nineteenth century no less than in the earthquakes of the twentieth—and always with relevance to a newly understood geologic history in which half a dozen large and separate pieces of country are seen to have drifted in from far and near to coalesce as California. McPhee and Moores also journeyed to remote mountains of Arizona and to Cyprus and northern Greece, where rock of the deep-ocean floor has been transported into continental settings, as it has in California. Global in scope and a delight

to read, *Assembling California* is a sweeping narrative of maps in motion, of evolving and dissolving lands.

**Screenplay** Jule Selbo, 2015-07-24 *Screenplay: Building Story Through Character* is designed to help screenwriters turn simple or intricate ideas into exciting, multidimensional film narratives with fully-realized characters. Based on Jule Selbo's unique 11-step structure for building story through characters, the book teaches budding screenwriters the skills to focus and shape their ideas, turning them into stories filled with character development, strong plot elements based on obstacles and conflicts, and multifaceted emotional arcs. Using examples and analysis from classic and contemporary films across a range of genres, from *The Godfather* to *Guardians of the Galaxy*, Selbo's *Screenplay* takes students inside the scriptwriting process, providing a broad overview for both beginners and seasoned writers alike. The book is rounded out with discussion questions, writing exercises, a guide to the business of screenwriting, in-depth film breakdowns, and a glossary of screenwriting terms.
