Transformers: The Veiled Threat Alan Dean Foster,2014-06-11 Life on earth has changed forever, as humans and their courageous robotic allies, the Autobots, must warily work together to protect the planet from the destructive forces of the evil Decepticons. At the headquarters of NEST, tech sergeant Epps and captain Lennox both guard and assist cyberneticist Kaminari Ishihara and the brooding Russian AI genius Petr Andronov as they explore the differences between organics and bots. All around them, alliances fray, distrust grows, suspicions mount, and traitors come out of the shadows. Meanwhile, Optimus Prime, the powerful leader of the Autobots who is also part of NEST, plays defense, as battles flare up from Australia to Zambia. But escalating Decepticon attacks will culminate in a final confrontation from which no one—man or machine—will emerge unscathed.

Transformers John Barber,2012 Bring your young readers background on the Autobots and Decepticons waging their battle in the Dark of the Moon. First in Foundation, Optimus Prime crosses Cybertron with one goal in mind: to kill Megatron. But what led to this? Once, they were close friends--brothers under the mentorship of Sentinel Prime, aiding him in unifying Cybertron with the life-giving AllSpark and restoring the world to glory. But as the new sun set for the first time, Sentinel Prime told Optimus a secret... and that secret would change everything. Then in Rising Storm, Shockwave, the deadliest of all Decepticons, has arrived on Earth--leaving a trail of carnage behind him. Working under the command of the Decepticon leader Megatron, Shockwave violently persuades the rogue Starscream to send his forces after the human Sam Witwicky and his Autobot friend Bumblebee. Autobot leader Optimus Prime responds to Sam's distress call, but this battle may cost the Autobots more than they bargained for. Prepare to witness the truth about the most bitter rivalry in the galaxy!Aligned to Common Core Standards and correlated to state standards.Graphic Novels is an imprint of Spotlight, a division of ABDO.

Transformers: Exiles Alex Irvine,2014-06-11 The epic battles between Optimus Prime and Megatron have long thrilled Transformers fans. But these two giants weren't always great leaders and bitter foes. This new novel continues the electrifying saga that started with Transformers: Exodus, unveiling the origins of the conflict—the explosive events that unfolded before Optimus and Megatron arrived Earthside, forever altering the destiny of their kind. Once allies, Optimus and Megatron are now enemies in a civil war. To prevent Cybertron from falling into Megatron's hands, Optimus jettisons the planet's heart, the AllSpark, into space, then sets out to find it with Megatron hot on his heels. Optimus is determined to defeat Megatron, bring the AllSpark home, and restore Cybertron to its former glory. But a saboteur lurks aboard Optimus's spaceship, and ahead lie lost colonies, some of them hostile. Optimus needs help of the highest caliber, but from whom? Heroes such as Solus, Nexus, and Vector Prime are just names from make-believe stories of long ago. Or are they? Maybe it's time for Optimus Prime to find out. Maybe it's the only chance he has to vanquish mighty Megatron.

Transformers: Exodus: The Official History of the War for Cybertron Alex Irvine,2011-06 Reveals the origins of the conflict between Megatron and Optimus Prime, the reason for two allies fighting a corrupt regime to suddenly turn on each other, and the roles played by Starscream, Sentinel Prime, and Omega Supreme.

Transformation: A Personal Journey Through the British Transformers Comic Volume 2: 1987-1989 Stuart Webb,2017-07-20 By 1987, the British Transformers was at the peak of its powers. Alternating between US reprints showing the struggle for leadership within the Autobot and Decepticon forces and UK material dealing with the insane future Decepticon Galvatron's attempts to rule yesterday, what had started as a toy advert had become a sprawling space opera seared into the minds of an entire generation. Stuart Webb was one such reader, and in 2012 he began a

journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip and editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also highly personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, not just for Transformers fans, but also for those interested in the history of Marvel UK and the impact this simple little comic had on an entire generation.

How He-Man Mastered the Universe Brian C. Baer,2017-03-10 Elaborate cinematic universes and sophisticated marketing tie-ins are commonplace in entertainment today. It's easy to forget that the transmedia trend began in 1982 with a barbarian action figure. He-Man and the other characters in Mattel's popular Masters of the Universe toy line quickly found their way into comic books, video games, multiple television series and a Hollywood film. The original animated series (1983-1985) was the first based on an action figure, and the cult classic Masters of the Universe (1987) was the first toy-inspired live-action feature film. But it wasn't easy. He-Man faced adversaries more dangerous than Skeletor: entertainment lawyers, Hollywood executives, even the Reagan administration. The heroes and villains of Eternia did more than shape the childhoods of the toy-buying public—they formed the modern entertainment landscape.

Transformers: The Manga, Vol. 2 Ban Magami,Masumi Kaneda,2020-05-12 This volume collects the special one-shot story "The Decisive Battle of Planet Beast!" in addition to the bombastic "The Headmasters" and "Super-God Masterforce" story arcs! Originally published in Japan for the burgeoning Transformers fandom in the '80s, these classic tales are presented in English for the first time, alongside an enormous art gallery! -- VIZ Media

Transformers/Back to the Future Cavan Scott,2021-09-07 Great Scott! Pop-culture juggernauts collide in the ultimate 1980s (and 1950s and 2010s) showdown! Things are getting heavy--and nothing's as heavy as a Cybertronian! Marty McFly has just returned from the adventure of a lifetime to a new, better Hill Valley--everything's looking up for him! That is, until Marty and his friend Doc Brown's time machine attracts the attention of the Decepticons! With one small mistake, Marty finds himself once again thrust into adventure to stop the Decepticon plot in the past, present, and future... all with the help of a new time machine... the Autobot Gigawatt! A must-read for fans of both franchises, this all-new adventure from writer Cavan Scott (Star Wars: The High Republic, Star Wars Adventures: Tales from Vader's Castle) and artist Juan Samu (Marvel Action: Black Panther) is jam-packed with thrills and humor. Featuring Bumblebee, Biff, Optimus Prime, George McFly, Megatron, and more!

Transformation: A Personal Journey Through the British Transformers Comic Volume 1: 1984-1987 Stuart Webb,2015-07-25 Starting in 1984, the British Transformers comic wasn't just a successful toy advert, it taught a generation of British schoolboys how to read through its exciting action packed pages. With sales that vied with 2000AD writers Simon Furman and Bob Budiansky created a generation of fan boys that have never looked back. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip, every comedic cartoon and each editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, for Transformers fans, and those interested in the history of Marvel comics in the UK and the impact this comic had on an entire generation.
