Labor Day: True Birth Stories by Today's Best Women Writers Eleanor Henderson, Anna Solomon, 2014-04-15 Thirty acclaimed writers share their personal birth stories—the extraordinary, the ordinary, the terrifying, the sublime, the profane. It's an elemental, almost animalistic urge—the expectant mother's hunger for birth narratives. Bookstores are filled with month-by-month pregnancy manuals, but the shelves are virtually empty of artful, entertaining, unvarnished accounts of labor and delivery—the stories that new mothers need most. Here is a book that transcends the limits of how-to guides and honors the act of childbirth in the twenty-first century. Eleanor Henderson and Anna Solomon have gathered true birth stories by women who have made self-expression their business, including Cheryl Strayed, Julia Glass, Lauren Groff, Dani Shapiro, and many other luminaries. In *Labor Day*, you'll read about women determined to give birth naturally and others begging for epidurals; women who pushed for hours and women whose labors were over practically before they'd started; women giving birth to twins and to ten-pound babies. These women give birth in the hospital, at home, in bathtubs, and, yes, even in the car. Some revel in labor, some fear labor, some feel defeated by labor, some are fulfilled by it—and all are amazed by it. You will laugh, weep, squirm, perhaps groan in recognition, and undoubtedly gasp with surprise. And then you'll call every mother or mother-to-be that you know and say You MUST read *Labor Day*. A Guide to Being Born Ramona Ausubel, 2014-05-06 Reminiscent of Aimee Bender and Karen Russell, from the author of the new collection, *Awayland*—an enthralling book of stories that uses the world of the imagination to explore the heart of the human condition. Major literary talent Ramona Ausubel, author of *Sons and Daughters of Ease and Plenty*, combines the otherworldly wisdom of her much-loved debut novel, *No One Is Here Except All of Us*, with the precision of the short-story form. *A Guide to Being Born* is organized around the stages of life—love, conception, gestation, birth—and the transformations that happen as people experience deeply altering life events, falling in love, becoming parents, looking toward the end of life. In each of these eleven stories Ausubel's stunning imagination and humor are moving, entertaining, and provocative, leading readers to see the familiar world in a new way. In "Atria" a pregnant teenager believes she will give birth to any number of strange animals rather than a human baby; in "Catch and Release" a girl discovers the ghost of a Civil War hero living in the woods behind her house; and in "Tributaries" people grow a new arm each time they fall in love. Funny, surprising, and delightfully strange—all the stories have a strong emotional core; Ausubel's primary concern is always love, in all its manifestations.

Throughout her difficult pregnancy and following her frightening labor experience, Amy Schumer found camaraderie and empowerment in hearing birth stories from other women, including those of her friend Christy Turlington Burns. It is through Schumer and Turlington Burns's conversations that the idea for *Arrival Stories* was born. By sharing their experiences, the contributors to *Arrival Stories* offer an informative and deeply affecting account of what it feels like when a woman first realizes she is a mother. Birth Matters Ina May Gaskin,2011-01-04 Renowned for her practice's exemplary results and low intervention rates, Ina May Gaskin has gained international notoriety for promoting natural birth. She is a much-beloved leader of a movement that seeks to stop the hyper-medicalization of birth—which has lead to nearly a third of hospital births in America to be cesarean sections—and renew confidence in a woman's natural ability to birth. Upbeat and informative, Gaskin asserts that the way in which women become mothers is a women's rights issue, and it is perhaps the act that most powerfully exhibits what it is to be instinctually human. *Birth Matters* is a spirited manifesta showing us how to trust women, value birth, and reconcile modern life with a process as old as our species.

Instead, these women offer us their candid experiences, presented clearly and unflinchingly. Medically reviewed by physicians Dr. Richard Randolph for the first edition and Dr. Deborah Morris for this second edition, *Real Birth* offers readers a plethora of correct information as well the kind of real scoop that other books and health care professionals are often reluctant to reveal. The result is a well-grounded book that reaches across the boundaries of childbirth literature. *Real Birth* is introduced by Ariel Gore, journalist, editor, writer, and founding editor/publisher of *Hip Mama*, an Alternative Press Award-winning publication about the culture of motherhood. Also included are an extensive glossary of medical terms, a thoroughly researched selective bibliography, and a list of resources of interest to pregnant women and new moms.

What We Talk About When We Talk About Birth Elissa Schappell,2014-03-25 It's an elemental, almost animalistic urge—the expectant mother's hunger for birth narratives. We are inundated with how-to guides and month-by-month pregnancy manuals when what we truly crave are artful, entertaining, unvarnished accounts of labor and delivery. We want to know what really happens—the good, the bad, and the ugly. In anticipation of the publication of *Labor Day: True Birth Stories* by Today's Best Women Writers, celebrated author Elissa Schappell brings us *What We Talk About When We Talk About Birth*. In this frank, funny, and bittersweet essay she explores the phenomenon of sharing birth stories, reveals her reluctance to tell her own, and discovers that talking about childbirth—the joy, the fear, the pain—is as instinctual as the act itself. And if you love birth stories as much as we do, read thirty more essays like this one in *Labor Day: True Birth Stories* By Today's Best Women Writers, including Lan Samantha Chang, Julia Glass, Lauren Groff, Ann Hood, Danzy Senna, Dani Shapiro, and Cheryl Strayed.

What We Didn't Expect Melody Schreiber,2020-11-10 Every year, 400,000 families in the United States welcome premature babies ... Ten percent of babies born in the U.S. are preemies. But that one word, preemie, encompasses a range of medical and cultural experiences. There are textbooks, medical-ish guidebooks, and the occasional memoir to turn to ... but no book that collects personal experiences from the many people who have parented, cared for, or been preemies themselves. Until now. In *What We Didn't Expect*, journalist Melody Schreiber brings together a chorus of acclaimed writers and thinkers to share their diverse stories of having or being premature babies. The stories here cover everything from life-changing tests of faith to navigating the red tape of healthcare bureauacracy; from overcoming unimaginable grief to surviving and thriving against all odds. The result is a moving, heartfelt book, and a crucial and informative resource for anyone who has, or is about to have, the experience of dealing with a premature birth.

Birth Stories Jane Dwinell,1992-08-24 Jane Dwinell has written an important book using real-life scenarios to illustrate her unique philosophy of childbirth, one that can only inspire women to take greater control over how and where they give birth. From her vantage point as a birth attendant, Dwinell recounts the moving birth experiences of twenty different women. Thus the reader learns that there are no right or wrong ways to give birth. In fact, the author shows how satisfying it can be for women to exercise their own strength, power and choice in the birth process instead of yielding to unnecessary technological and medical interventions. Birth, she says, is a process of wellness, not illness. Hence, most women don't need medication to help them deal with normal birth pains if they have the proper empowering support during labor. When women give birth in a comfortable setting of their choice, the medical wrongs against them, committed in hospitals in the name of safety and technology, are prevented. In the face of opposition from an entrenched segment of the medical establishment, Dwinell dares the view that hospital care should not be routine but should be given only with good reason and the women's permission. For pregnant women and their partners, *Birth Stories* makes a convincing argument that under normal circumstances wach women's intuitive knowledge and individual resources can help her to labor and deliver successfully in her own way. Nurses, midwives, doctors, and birth educators will find it useful to realize that there are many ways to give birth . . . that it is important for the family to be together and make their own choices . . . and that pregnant women can have safe births without excessive medical intervention. This book can also serve as a guide for professionals who want to develop this type of birthing model within their own institution.

Featuring an introduction by bestselling author and columnist Leah McLaren, *Great Expectations* takes the reader on an emotional and physical journey like no other: Lynn Coady relates the painful memory of her teenage pregnancy and the anguish of having to give up her newborn for adoption; Peter Behrens expresses a father’s feeling of utter helplessness and incomparable joy during the birth of his first child; Christy Ann Conlin describes pregnancy and birth at age forty; Afua Cooper reflects upon the immigrant’s experience of three pregnancies and childbirths in a new land with foreign, and evolving, customs; Anne Fleming contemplates her partner’s artificial insemination and the birth of a beautiful girl; and Jaclyn Moriarty transcribes her grandmother’s and her mother’s birth stories, along with her own, to create a tender oral history spanning three generations.
