In the Shadow of the Storm Ella Zeiss,2020-02-11 As World War II approaches, two families run for their lives -- and for the future of all they hold dear. 1930: As raids and violent arrests sweep through their Crimean village, two families are forced to make desperate choices in order to keep themselves--and their hope--alive. The Pfeiffers get out as quickly as they can, braving a last-minute escape in the dead of night. Their friends the Scholzes are less lucky. Captured and transported to labour camps in the icy Far North, the future seems a bleak, dark nightmare for the couple and their three children. As the 1930s march towards the inevitable horror of war, and Europe is engulfed in hostility and persecution, the Pfeiffers find there is only so long--and so far--you can run before someone uncovers your past... In their darkest hours, these two families must do everything--anything--to survive. Will they ever find peace in the new world order? The first in a two-part touching and authentic family saga about a hitherto little-known chapter in history.

Theodor Storm David Artiss,1978-01-01 How characteristic were the elements used in Theodor Storm's (1817 – 1888) fiction? What were the rich fund of symbols and myths that he used? Few Storm interpreters have addressed themselves seriously to these questions. This study tries to fill this gap.

Adorkable Sarra Manning,2012-05-24 Jeane Smith's a blogger, a dreamer, a dare-to-dreamer, jumble sale queen, CEO of her own lifestyle brand and has half a million followers on Twitter. Michael Lee's a star of school, stage and playing field. A golden boy in a Jack Wills hoodie. They have nothing in common but a pair of cheating exes. So why can't they stop snogging?

The LEGO MINDSTORMS Robot Inventor Activity Book Daniele Benedettelli,2021-09-21 An introduction to the LEGO Mindstorms Robot Inventor Kit through seven engaging projects. With its amazing assortment of bricks, motors, and smart sensors, the LEGO® MINDSTORMS® Robot Inventor set opens the door to a physical-meets-digital world. The LEGO MINDSTORMS Robot Inventor Activity Book expands that world into an entire universe of incredibly fun, uniquely interactive robotic creations! Using the Robot Inventor set and a device that can run the companion app, you'll learn how to build bots beyond your imagination—from a magical monster that gobbles up paper and answers written questions, to a remote-controlled transformer car that you can drive, steer, and shape-shift into a walking humanoid robot at the press of a button. Author and MINDSTORMS master Daniele Benedettelli, a robotics expert, takes a project-based approach as he leads you through an increasingly sophisticated collection of his most captivating robot models, chapter by chapter. Each project features illustrated step-by-step building instructions, as well as detailed explanations on programming your robots through the MINDSTORMS App—no coding experience required. As you build and program an adorable pet turtle, an electric guitar that lets you shred out solos, a fully functional, whiz-bang pinball machine and more, you'll discover dozens of cool building and programming techniques to apply to your own LEGO creations, from working with gears and motors, to smoothing out sensor measurement errors, storing data in variables and lists, and beyond. By the end of this book, you'll have all the tools, talent and inspiration you need to invent your own LEGO MINDSTORMS robots.

The Teleportation Accident Ned Beaman,2013-02-26 Long-listed for the 2012 Man Booker Prize, *The Teleportation Accident* is a hilarious sci-fi noir about sex, Satan, and teleportation devices. When you haven't had sex in a long time, it feels like the worst thing that could ever happen. If you're living in Germany in the 1930s, it probably isn't. But that's no consolation to Egon Loeser, whose carnal misfortunes will push him from the experimental theaters of Berlin to the absinthe bars of Paris to the physics laboratories of Los Angeles, trying all the while to solve two mysteries: Was it really a deal with Satan that claimed the life of his hero, Renaissance set designer Adriano Lavicini, creator of the so-called Teleportation Device? And why is it that a handsome, clever, modest guy like him can't-just once in a while-get himself laid? Ned Bauman has crafted a stunningly inventive, exceptionally funny, dangerously unsteady and (largely) coherent novel about sex, violence, space, time, and how the best way to deal with history is to ignore it.

The People's Hotel Katherine Sobering,2022-08-08 In 2001 Argentina experienced a massive economic crisis: businesses went bankrupt, unemployment spiked, and nearly half the population fell below the poverty line. In the midst of the crisis, Buenos Aires's iconic twenty-story Hotel Bauen quietly closed its doors, forcing longtime hospitality workers out of their jobs. Rather than leaving the luxury hotel vacant, a group of former employees occupied the property and kept it open. In *The People's Hotel*, Katherine Sobering recounts the history of the Hotel Bauen, detailing its transformation from a privately owned business into a worker cooperative—one where decisions were made democratically, jobs were rotated, and all members were paid equally. Combining ethnographic and archival research with her own experiences as a volunteer worker at the hotel, Sobering examines how the Bauen Cooperative grew and, against all odds, successfully kept the hotel open for nearly two decades. Highlighting successes and innovations alongside the many challenges that these workers faced, Sobering presents a vivid portrait of efforts to address inequality and reorganize work in a capitalist economy.
