BBC Sport in Black and White Richard Haynes,2016-11-17 This book provides the first detailed account of the formative decades of BBC televised sport when it launched its flagship programmes Sportsview, Grandstand and Match of the Day. Based on extensive archival research in the BBC's written archives and interviews with leading producers, editors and commentators of the period, it provides a 'behind-the-scenes' narrative history of this major institution of British cultural life. In 2016 the BBC celebrated the fiftieth anniversary of its television coverage of England's World Cup victory. Their coverage produced one of the most oft-played moments in the history of television, Kenneth Wolstenholme's famous line: 'Some people are on the pitch, they think it's all over ... it is now!' as Geoff Hurst scored England's fourth goal, securing England's 4-2 victory. It was a landmark in English football as well as a watershed in the BBC's highly professionalised approach to televised sport. How the BBC reached this peak of television expertise, and who was behind their success in developing the techniques of televised sport, is the focus of this book.

BBC Sports Personality of the Year ,

The Premiership in Focus Martyn Smith,2007 In 1992 came the Premier League and the sport changed forever. Why has this happened? How has it affected the clubs, fans, players and managers? How long can it be sustained? This book aims to examine these questions and looks back at the great moments, outstanding matches, stunning goals, incredible saves, and the controversial decisions.

BBC Sports Report: A Celebration of the World's Longest-Running Sports Radio Programme Pat Murphy,2022-09-29 SHORTLISTED FOR THE SUNDAY TIMES SPORTS BOOK AWARDS 2023 - SPORTS ENTERTAINMENT BOOK OF THE YEAR THE OFFICIAL DEFINITIVE HISTORY OF BBC SPORTS REPORT 'Opens the doors to one of the great radio institutions.' – Dan Walker 'An absolute joy to read.' – John Inverdale 'That opening tune always quickens the pulse.' – Henry Winter Sports Report is as much a 75-year history of sport as a BBC radio institution and Pat Murphy pays handsome tribute to a programme that is still followed affectionately by millions. For nearly 75 years, one BBC programme has been a constant factor in chronicling the way sport is covered, in all its many facets. It has been a window on the sporting world all over the globe – packed tightly into every Saturday evening for the bulk of the year. First broadcast in 1948, Sports Report is the longest-running radio sporting programme in the world and one of the BBC's hardy perennials. Pat Murphy has been a reporter on the programme since 1981 and here he sifts comprehensively through the experiences of his contemporaries and those who made their mark on Sports Report in earlier decades. He hears from commentators, reporters, producers, presenters and the production teams who regularly achieved the broadcasting miracle of getting a live programme on air, without a script, adapting as the hour of news, reaction and comment unfolded. Drawing on unique access from the BBC Archives Unit, he highlights memorable moments from Sports Report, details the challenges faced in getting live interviews on air from draughty, noisy dressing-room areas and celebrates the feat of just a small production team in the studio who, somehow, get the show up and running every Saturday, with the clock ticking implacably on. --- Waterstones Best Books of 2022 – Sport

Racism and English Football Daniel Burdsey,2020-11-19 Racism and English Football: For Club and Country analyses the contemporary manifestations, outcomes and implications of the fractious relationship between English professional football and race. Racism, we were told, had disappeared from English football. It was relegated to a distant past, and displaced onto other European countries. When its appearance could not be denied, it was said to have reappeared. This book reveals that this was not true. Racism did not go away and did not return. It was here all along. The book argues that racism is firmly embedded and historically rooted in the game's structures, cultures and institutions, and operates as a form of systemic discrimination. It addresses the ways that racism has tainted English football, and the manner in which football has, in turn, influenced racial meanings and formations in wider society. Equally, it explores how football has facilitated forms of occupational multiculturalism, black player activism and progressive fan politics that resist divisive social phenomena and offer a degree of hope for an alternative future. Focusing on a diverse range of topics, in men's and women's football, at club and international level, Racism and English Football extends and expands our knowledge of how racism occurs and, critically, how it can be challenged. This is an essential read for scholars and students working on race, ethnicity, sport and popular culture, together with those interested in the social and organisational dynamics of English professional football more generally.

Online Gambling and Crime James Banks,2016-05-13 Offering the first empirically driven assessment of the development, marketisation, regulation and use of online gambling organisations and their products, this book explores the relationship between online gambling and crime. It draws upon quantitative and qualitative data, including textual and visual analyses of e-gambling advertising and the records of player-protection and standards organisations, together with a virtual ethnography of online gambling subcultures, to examine the ways in which gambling and crime have been approached in practice by gamers, regulatory agencies and online gambling organisations. Building upon contemporary criminological theory, it develops an understanding of online gambling as an arena in which risks and rewards are carefully constructed and through which players navigate, employing their own agency to engage with the very real possibility of victimisation. With attention to the manner in which online gambling can be a source of criminal activity, not only on the part of players, but also criminal entrepreneurs and legitimate gambling businesses, Online Gambling and Crime discusses developments in criminal law and regulatory frameworks, evaluating past and present policy on online gambling. A rich examination of the prevalence, incidence and experience of a range of criminal activities linked to gambling on the Internet, this book will appeal to scholars and policy makers in the fields of sociology and criminology, law, the study of culture and subculture, risk, health studies and social policy.

Who Owns Football? David Hassan,Sean Hamil,2013-09-13 The commercialization of sport since the 1990s has had a number of consequences. The market forces that have defined commercialization, notably pay-per-view television, whilst initially welcomed as important new sources of revenue, have also had the unanticipated consequences of de-stabilizing many sporting competitions and institutions, undermining the financial future of clubs in their traditional role as key social and cultural institutions. This has been manifested in the paradox of chronic financial loss-making amongst professional sports' clubs in an era of exponential revenue growth, a trend exemplified by the experience of Italy's Series A and the English Premier League – both cases examined in detail in this book. But, at the same time, some traditional sporting organizations have sought with some success, to chart a middle way, retaining traditional sporting movement objectives whilst also embracing a form of commercialism. The Gaelic Athletic Association in Ireland, the supporter-owned FC Barcelona football club, and New Zealand rugby union, offer illustrative examples of such strategies examined in detail. This book explores the background to this clash of commercial and traditional sporting objectives, and debates the consequences for wider sports governance. This book was published as a special issue of Soccer and Society.
