Transformational Teaching Mary Goral,2009-05 We have the power to transform our public schools--not through government mandates or the newest teacher-proof text series, and not through what many educators call best practices. Our schools can be transformed by applying Waldorf-inspired practices into the public-school setting. This little-known, but well established form of education can be an invaluable source of ideas and strategies to teachers, administrators, and teacher educators. Rudolf Steiner had a special interest in the education of children and saw schooling as a way to achieve social renewal. He initiated Waldorf schools to counteract certain trends of his time, which continue to move toward an increasingly mechanistic, analytical, and intellectual educational environment. Waldorf students do not learn in a fragmentary ways, nor is the curriculum prepackaged. Their education is centered in creativity and social values, forming a solid foundation for learning the skills needed to integrate into the society and the workplace. Mary Goral explores ways that Waldorf principles can be applied in public schools to educate children for life rather than simply to meet the demands of rigid, one-size-fits-all programs such as No Child Left Behind. She points out ways that Waldorf methods require teachers and parents to engage more fully with students, to practice ways of self-development, and to build a greater sense of community. Using the concrete example of the Waldorf-inspired Cadre--a group of public-school teachers who have agreed to go on such a journey, take risks, and learn new skills along with their students--Dr. Goral shows how teachers can bring many of the benefits of Waldorf education into the public setting, with remarkable results. *Transformational Teaching* provides important and inspirational reading for those who wish to transform their local public schools into places of learning that truly focus on the educational and life needs of children and the communities in which they live.

Heaven on Earth Sharifa Oppenheimer,2006-08 As we see a shift of old forms that were once the foundations of our daily lives, parents--who must prepare the next generation to meet the changing world--have more questions today than ever before. Although our cultural values and family structures may change, it is the atmosphere in the home that continues to form the foundation of a child's life. In *Heaven on Earth*, parent and educator Sharifa Oppenheimer reveals how parents can make the home environment warm, lively, loving, and consistent with their highest ideals. *Heaven on Earth* balances a theoretical understanding of child development with practical ideas, resources, and tips that can transform family life. Readers will learn how to create the regular life rhythms needed to establish a foundation for learning; how to design indoor play environments that allow children the broadest development of skills; and how to create outdoor play spaces that encourage vigorous movement and a wide sensory palette. Through art, storytelling, and the festival celebrations, this book is an invaluable guide to building a family culture based on the guiding

principle of love--a culture that supports children and encourages the free development of each unique soul. Sharifa Oppenheimer offers a gift from the heart. Heaven on Earth is a practical, inspiring resource that brings the author's informed, intuitive understanding of young children into the heart of the home. Sharifa Oppenhiemer has given the world a great gift in the pages of this book. The important child-development information is exquisitely combined with the best 'How-to's' I have seen in any book for parents. Her book, is a ready guide that insures joyful, enthusiastic children who learn easily and contribute to their families and society for a lifetime. I have delighted in every page and feel this is absolutely A must read for parents, grandparents, teachers, and perhaps everyone who will ever touch the life of a child. --Carla Hannaford, Ph.D., biologist and international educational consultant to 32 countries and author of Smart Moves: Why Learning Is Not All in Your Head and Awakening the Child Heart, Handbook for Global Parenting This delightful book will be a wonderful resource for parents. They will certainly appreciate its warm, friendly, personal, and reassuring tone. I would have loved such a book when I was a young mother! For those whose children already attend Waldorf programs, it provides a helpful resource for creating a bridge between home and kindergarten. For others, this lovely book offers wonderful glimpses into the wise and nurturing practices of Waldorf early childhood education. In a world where childhood is increasingly 'media'ted and 'adult'erated, this book offers much-needed support for the protection of childhood. --Susan Howard, chairperson, Waldorf Early Childhood Association of North America and coordinator, International Association for Steiner/Waldorf Early Childhood Education Being a parent is a challenging assignment, but with the help of Sharifa Oppenheimer's book, Heaven on Earth, our work immediately becomes easier. This book is both heartfelt and practical. It offers sound parenting principles with down-to-earth examples of how to raise children with both insight and grace. --Jack Petrash, director, Nova Institute, and author, Navigating the Terrain of Childhood: A Guidebook for Meaningful Parenting and Heartfelt Discipline
