A Beginner's Guide to Winter Survival - How to Survive Cold Weather Dueep J. Singh, John Davidson, 2015-01-05 A Beginner's Guide to Winter Survival - How to Survive Cold Weather Table of Contents Introduction Winter Storms and Warnings Freezing Rain Winter Preparation Winter Clothing What Do You Do in Cases of Frostbite? Symptoms of Frostbite Hypothermia Traveling In Harsh Weather Caught in a Blizzard Sheltering from Blizzards in Your House Defrosting Frozen Pipes Winter Survival Kit When to Call 911 Winter Fuels Carbon Monoxide Another Heating Tip Appendix Long-Lasting healthy foods Granola Pemmican Making Biltong the Traditional Way Conclusion Author Bio Publisher Introduction Mankind has been looking for the best ways in which to survive the harsh winter, for millennia. That means that he knows that at one particular period of the year, he is going to be subject to ice, snow and cold temperatures. He is also going to face blizzards and storms. As man has not been built by nature to curl up in a warm cave and hibernate throughout the winter like more sensible animals, the onset of winter brings with it the heightened sense of self-preservation. In olden days, all man could do was huddle into a corner, around the fire, and keep praying for the blizzard to stop. During this time, he survived on the food that he had stored in his cave or in his place of shelter during the more clement and temperate months of the year. As time went by man found that it was easy to transport himself and his family to other places, on horseback, or in a cart. And that is why he managed to look for more temperate regions - where the weather was not so harsh - before the onset of winter. But as time went by, nature still kept to her rules of a harsh winter, but mankind did not learn much in terms of common sense. In fact, he persisted on going out in the cold, instead of staying under shelter. And that is why the popular melodramatic cliché of someone turned from a doorstep on a harsh winters evening remained a popular theme in theaters. Even today in 80% of the popular escapist novels, the dumb, but beautiful heroine (single and pregnant in 90% of the cases, according to manuscript submission requirements, goes driving in a blizzard. - I told you that she is dumb - And the multibillionaire hero rescues her. And there is going to be a happily ever after, on page 186, because he is going to marry her. And there we are, we have just wasted our money on another thoroughly idiotic novel.) In real life, she would have died of hypothermia, because she is not well clothed, does not have fuel and has been buried in a snowdrift.

A Beginner's Guide to Desert Survival Skills - Knowledge and Skills to Survive in the Desert John Davidson, Dueep J. Singh, 2013-05-15 A Beginner's Guide to Desert Survival Skills Knowledge and Skills to Survive in the Desert Table of Contents Introduction Protecting Yourself in a Desert Low Ground Versus High Ground Common Sense Survival Tips Car Breakdown in the Desert Traveling in a Dust Storm Area Protective Clothing Desert Survival Kit Food Why a Good Lighter? Trapping Food in the Desert Extremely easy Hopi bird

snare Making Slipknots Making a Slingshot Conclusion Author Bio- Introduction I remember seeing Lost in the Desert as a child, and there are just some scenes which I remember. The father of a child lost in the desert believes that his child has survived a plane crash. So he gets millions of leaflets printed and airdropped all over the desert, with survival tips to his son, reassuring him that his father will find him, and all he has to do is survive. Dirkie and his dog survived - this movie -made by Jamie Uys who then produced the hugely successful The Gods Must Be Crazy - is based on a true story. So the first point is, you need to have a will to survive. Movies and reality apart, how is it possible for people to survive in the desert, especially in adverse weather conditions for centuries? How is it that people in the Kalahari, in the Sahara or in the Thar desert do not mind living out their lives in such bleak and harsh conditions? Fortunately, a majority of our 21st century world is still green and does not consist of miles and miles of land with no water and no food in sight. Well there is a slight lack of knowledge here. There is food and water in the desert. It depends on us to know how to get it. This book is going to give you information, especially useful tips and techniques, on how to preserve you and survive in desert conditions, especially when you are on limited food and water supplies.
