Generic Enrichment in Vergil and Horace S. J. Harrison,2011-03-31 S. J. Harrison sets out to sketch one answer to a key question in Latin literary history: why did the period c.39-19 BC in Rome produce such a rich range of complex poetical texts, above all in the work of the famous poets Vergil and Horace? Harrison argues that one central aspect of this literary flourishing was the way in which different poetic genres or kinds (pastoral, epic, tragedy, etc.) interacted with each other and that that interaction itself was a prominent literary subject. He explores this issue closely through detailed analysis of passages of the two poets' works between these dates. Harrison opens with an outline of generic theory ancient and modern as a basis for his argument, suggesting how different poetic genres and their partial presence in each other can be detected in the Latin poetry of the first century BC.

Drama and Sermon in Late Medieval England Charlotte Steenbrugge,2017-11-30 This full-length study investigates how sermons and vernacular religious drama worked as media for public learning, how they combined this didactic aim with literary exigencies, and how plays acquired and reflected authority. The interrelation between sermons and vernacular drama, formerly assumed to be a close one, is addressed from historical connections, performative aspects, and the portrayal of penance. The work demonstrates the subtly different purposes and contents and outlines the unique ways in which they operate within late medieval England.

Horace and the Gift Economy of Patronage Phebe Lowell Bowditch,2001-03-02 Using modern literary and anthropological theory, Bowditch investigates the relationship between Roman poets and patrons, based on a detailed study of selected Odes and Epistles which throw light on the dynamic relationship between Horace and his own patron Maecenas.

Satiric Advice on Women and Marriage Warren S. Smith,2010-02-24 Advice on sex and marriage in the literature of antiquity and the middle ages typically stressed the negative: from stereotypes of nagging wives and cheating husbands to nightmarish visions of women empowered through marriage. *Satiric Advice on Women and Marriage* brings together the leading scholars of this fascinating body of literature. Their essays examine a variety of ancient and early medieval writers' cautionary and often eccentric marital satire beginning with Plautus in the third century B.C.E. through Chaucer (the only non-Latin author studied). The volume demonstrates the continuity in the Latin tradition which taps into the fear of marriage and intimacy shared by ancient ascetics (Lucretius), satirists (Juvenal), comic novelists (Apuleius), and by subsequent Christian writers starting with Tertullian and Jerome, who freely used these ancient sources for their own purposes, including propaganda for recruiting a celibate clergy and the promotion of detachment and asceticism as Christian ideals. Warren S. Smith is Professor of Classical Languages at the University of New Mexico.

Instigations Ezra Pound, Ernest Fenollosa, 2014-12-04 Ezra Pound (1885 - 1972) was an American poet and harsh critic following World War I. Pound was also a key contributor to the Modernist movement. One of Pound's most famous works is *Instigations* which is a series of essays critiquing a variety of writers and books.

Barangay William Henry Scott, 1994 *Barangay* presents a sixteenth-century Philippine ethnography. Part One describes Visayan culture in eight chapters on physical appearance, food and farming, trades and commerce, religion, literature and entertainment, natural science, social organization, and warfare. Part Two surveys the rest of the archipelago from south to north.

Light Perpetual Andrzej Sapkowski, 2022-10-25 From the globally bestselling author of *The Witcher* comes the final book in the rich historical epic, the Hussite trilogy. Join Reynevan—scoundrel, magician, possibly a fool—as he embarks on a last great adventure across the war-riddled landscape of 15th century Bohemia. After his adventures in *The Tower of Fools* and *Warriors of God*, Reynevan is on the run again, harried by enemies—some human, and some mystical—at every turn. These are cruel and dangerous times for a man such as Reynevan, and to survive, he must set aside his history as a peaceful healer and idealist and play the brutal role of Hussite spy as crusades sweep through Silesia and the Czech Republic, and the world around him is forever changed. Praise for the Hussite Trilogy: “A ripping yarn delivered with world-weary wit, bursting at the seams with sex, death, magic and madness.” —Joe Abercrombie This is historical fantasy done right. —Publishers Weekly (starred review) “A fantastic novel that any fan of *The Witcher* will instantly appreciate.” —The Gamer “Sapkowski's energetic and satirical prose as well as the unconventional setting makes this a highly enjoyable historical fantasy.” —Booklist Translated by David French By Andrzej Sapkowski: *The Hussite Trilogy* *The Tower of Fools* *Warriors of God* *Light Perpetual* *Witcher* collections *The Last Wish* *Sword of Destiny* *Witcher* novels *Blood of Elves* *The Time of Contempt* *Baptism of Fire* *The Tower of Swallows* *Lady of the Lake* *Season of Storms*

The Chinese Written Character as a Medium for Poetry Ernest Fenollosa, Ezra Pound, Jonathan Stalling, Lucas Klein, 2009-08-25 First published in 1919 by Ezra Pound, Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound's understanding—it is fair to say, his appropriation—of the text. Fenollosa's manuscripts, in the Beinecke Library of Yale University, allow us to see this essay in a different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound's editing of the essay obscured two important features, here restored to view: Fenollosa's encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa's important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound's deletions, insertions, and alterations to Fenollosa's sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor. Earlier drafts and related talks reveal the development of Fenollosa's ideas about culture, poetry, and translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.

Wine, Women, and Song John Addington Symonds, 2023-07-18 First published in 1884, this groundbreaking study by John Addington Symonds introduced many readers to the poetic traditions of medieval Latin students. Featuring translations of poems on a range of topics, from love and lust to scholarship and bohemian life, as well as an illuminating essay by Symonds on the cultural and

historical context of these works, this book remains an essential text for anyone interested in the literature of the Middle Ages. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Introduction to Interdisciplinary Studies Allen F. Repko, Rick Szostak, Michelle Phillips Buchberger, 2019-10-30 Introduction to Interdisciplinary Studies provides a comprehensive introduction to interdisciplinary studies with an approach that is conceptual and practical. Completely updated to reflect advances in the literature on research, learning, and assessment, the book describes the role of both disciplines and interdisciplinarity within the academy, and how these have evolved. Authors Allen F. Repko, Rick Szostak, and Michelle Phillips Buchberger effectively show students how to think like interdisciplinarians in order to facilitate their working with topics, complex problems, or themes that span multiple disciplines. New to the Third Edition are guiding questions at the start of each chapter, a discussion of the public policy issue of basic income as an example at the end of each chapter, application of interdisciplinary techniques in daily life, enhanced discussion of ethical decision-making, and updated examples and references throughout. FREE SAGE edge online resources gives instructors and students the edge they need to succeed with an array of teaching and learning tools in one easy-to-navigate website.

The Catacombs of Rome and Their Testimony Relative to Primitive Christianity William Henry Withrow, 1876 The present work, it is hoped, will supply a want long felt in the literature of the Catacombs. That literature, it is true, is very voluminous; but it is for the most part locked up in rare and costly folios in foreign languages, and inaccessible to the general reader. Recent discoveries have refuted some of the theories and corrected many of the statements of previous books in English on this subject; and the present volume is the only one in which the latest results of exploration are fully given, and interpreted from a Protestant point of view. The writer has endeavored to illustrate the subject by frequent pagan sepulchral inscriptions, and by citations from the writings of the Fathers, which often throw much light on the condition of early Christian society. The value of the work is greatly enhanced, it is thought, by the addition of many hundreds of early Christian inscriptions carefully translated, a very large proportion of which have never before appeared in English. Those only who have given some attention to epigraphical studies can conceive the difficulty of this part of the work. The defacements of time, and frequently the original imperfection of the inscriptions and the ignorance of their writers, demand the utmost carefulness to avoid errors of interpretation. The writer has been fortunate in being assisted by the veteran scholarship of the Rev. Dr. McCaul, well known in both Europe and America as one of the highest living authorities in epigraphical science, under whose critical revision most of the translations have passed. Through the enterprise of the publishers this work is more copiously illustrated, from original and other sources, than any other work on the subject in the language; thus giving more correct and vivid impressions of the unfamiliar scenes and objects delineated than is possible by any mere verbal description. References are given, in the foot-notes, to the principal authorities quoted, but specific acknowledgment should here be made of the author's indebtedness to the Cavaliere De Rossi's *Roma Sotterranea* and *Inscriptiones Christianae*, by far the most important works on this fascinating but difficult subject. Believing that the testimony of the Catacombs exhibits, more strikingly than any other evidence, the immense contrast between primitive Christianity and modern Romanism, the author thinks no apology necessary for the somewhat polemical character of portions of this book which illustrate that fact. He trusts that it will be found a contribution of some value to

the historical defense of the truth against the corruptions and innovations of Popish error.
