

# **Borderhow**

**Nasir Uddin,Nasreen Chowdhory**

*Guns Across the Border* Mike Detty, 2013-04-29 Conducted under the umbrella of Project Gunrunner, intended to stem the flow of firearms to Mexico, the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) ran a series of “gun walking” sting operations, including Operations Wide Receiver and Operation Fast & Furious. The government allowed licensed gun dealers to sell weapons to illegal straw buyers so that they could continue to track the firearms as they were transferred to higher-level traffickers and key figures in Mexican cartels. Motivated by a sense of patriotic duty, Tucson gun dealer and author Mike Detty alerted the local ATF office when he was first approached by suspected cartel associates. Detty made the commitment and assumed the risks involved to help the feds make their case, often selling guns to these thugs from his home in the dead of night. Originally informed that the investigation would last just weeks, Detty’s undercover involvement in Operation Wide Receiver, the precursor to Operation Fast & Furious, which was by far the largest “gun walking” probe, stretched on for an astonishing and dangerous three years. Though the case took several twists and turns, perhaps the cruelest turn was his betrayal by the very agency he risked everything to help.

*Brief History Of The Triple Border* Micael Alvino da Silva, 2022-12-20 In *Brief History of the Triple Border*, historian Micael Alvino da Silva explains the formation of the Argentina-Brazil-Paraguay border, based on two key processes: the construction of the then largest hydroelectric power plant in the world (Itaipu Binacional) and the creation of the most important city in Paraguay, after the capital Asunción (Ciudad del Este). As a result, the region has become the main frontier of South America in terms of population and the movement of people and goods.

The Real Cost of an Open Border United States. Congress. House. Committee on Homeland Security. Subcommittee on

Border Security and Enforcement, United States. Congress. House. Committee on Homeland Security. Subcommittee on Counterterrorism, Law Enforcement, and Intelligence, 2024

**Empire of Borders** Todd Miller, 2019-08-06 The United States is outsourcing its border patrol abroad—and essentially expanding its borders in the process The twenty-first century has witnessed the rapid hardening of international borders. Security, surveillance, and militarization are widening the chasm between those who travel where they please and those whose movements are restricted. But that is only part of the story. As journalist Todd Miller reveals in *Empire of Borders*, the nature of US borders has changed. These boundaries have effectively expanded thousands of miles outside of US territory to encircle not simply American land but Washington's interests. Resources, training, and agents from the United States infiltrate the Caribbean and Central America; they reach across the Canadian border; and they go even farther afield, enforcing the division between Global South and North. The highly publicized focus on a wall between the United States and Mexico misses the bigger picture of strengthening border enforcement around the world. *Empire of Borders* is a tremendous work of narrative investigative journalism that traces the rise of this border regime. It delves into the practices of "extreme vetting," which raise the possibility of "ideological" tests and cyber-policing for migrants and visitors, a level of scrutiny that threatens fundamental freedoms and allows, once again, for America's security concerns to infringe upon the sovereign rights of other nations. In Syria, Guatemala, Kenya, Palestine, Mexico, the Philippines, and elsewhere, Miller finds that borders aren't making the world safe—they are the frontline in a global war against the poor.

Threat Convergence at the Border United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2005

Borders Revisited Bastian A. Vollmer, 2021-08-12 The nature

and configuration of borders, and the relationship between state borders and societies, have changed. In the 21st century, internationalism, transnationalism, and super-diversity have further provoked complexities and anxieties. It seems that as border and migration regimes undergo dramatic transformations, their public profile increases. This book revisits borders, bordering practices, and meanings, with a particular focus on the United Kingdom as a case study. Bastian A. Vollmer examines not only the theoretical and historical dimensions of borders but also various empirical data, including extensive text corpora and dozens of in-depth interviews. Expanding on the concept of vernacular security—that is, an everyday understanding of security—he argues that the existential value of borders is not merely physical, but extends into the order and future construction of states and societies. This book demonstrates decisively that the concept of the border has not left the centre stage of philosophy, political theory, and political sociology, but has instead emerged as a focal point for multidisciplinary engagements. It further demonstrates how attention to a vernacular perspective can inform those engagements, yielding vital insights. As such, it should appeal to students and scholars across disciplines interested in the contemporary development and relevance of borders and their discursive cultures.

The Digital Border Lilie Chouliaraki, Myria

Georgiou, 2022-06-21 How do digital technologies shape the experiences and meanings of migration? As the numbers of people fleeing war, poverty, and environmental disaster reach unprecedented levels worldwide, states also step up their mechanisms of border control. In this, they rely on digital technologies, big data, artificial intelligence, social media platforms, and institutional journalism to manage not only the flow of people at crossing-points, but also the flow of stories and images of human mobility that circulate among their publics. What is the role of digital technologies in shaping migration

today? How do digital infrastructures, platforms, and institutions control the flow of people at the border? And how do they also control the public narratives of migration as a “crisis”? Finally, how do migrants themselves use these same platforms to speak back and make themselves heard in the face of hardship and hostility? Taking their case studies from the biggest migration event of the twenty-first century in the West, the 2015 European migration “crisis” and its aftermath up to 2020, Lilie Chouliaraki and Myria Georgiou offer a holistic account of the digital border as an expansive assemblage of technological infrastructures (from surveillance cameras to smartphones) and media imaginaries (stories, images, social media posts) to tell the story of migration as it unfolds in Europe’s outer islands as much as its most vibrant cities. This is a story of exclusion, marginalization, and violence, but also of care, conviviality, and solidarity. Through it, the border emerges neither as strictly digital nor as totally controlling. Rather, the authors argue, the digital border is both digital and pre-digital; datafied and embodied; automated and self-reflexive; undercut by competing emotions, desires, and judgments; and traversed by fluid and fragile social relationships—relationships that entail both the despair of inhumanity and the promise of a better future.

#### Representations and Images of Frontiers and Borders

Katarzyna Nowak-McNeice, Alejandra María Aventín Fontana, 2021-11-22 This collection gathers a variety of scholars representing various methodological perspectives and applying diverse critical lenses to analyze the idea of borders, borderlands, frontiers, and liminal space, as they are represented in literature and philosophy. The idea of the border and frontier is perhaps more important than ever: under the siege of COVID-19, with shattered illusions of a post-racial world, when a global effort is required as a response to a crisis that does not respect national or regional borders, we need to reconsider what frontiers and borders mean to us, and how to best understand them so that

they do not divide, but point to areas of common knowledge, collective experiences, and shared humanity. Drawing upon examples from different continents (Africa, the Americas, Asia, and Europe) and from diverse specific places (such as the Mexico-US border, or the contested Palestinian frontiers), and using a variety of critical perspectives (evoking Gloria Anzaldua, Jorge Luis Borges, and Edward Said, for instance), this volume explores the idea of frontiers and borders in order to comment on their representations in literature, philosophy, music, and cinema, and on the human condition in general.

**What Resources Should be Used to Control Illegal Immigration at the Border and Within the Interior?** United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on Government Management, Information, and Technology, 1997 Distributed to some depository libraries in microfiche.

The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive, long-term fieldwork in the borderlands of Afghan and Tajik Badakhshan, this book explores the importance of local leaders and local identity groups for the stability of a state's borders, and ultimately for the stability of the state itself. It shows how the implantation of formal institutional structures at the border, a process supported by United Nations and other international bodies, can be counterproductive in that it may marginalise local leaders and alienate the local population, thereby increasing overall instability. The study considers how, in this particular borderland where trafficking of illegal drugs, weapons and people is rampant, corrupt customs and border personnel, and imperfect new institutional arrangements, contributed to a complex mix of oppression, hidden protest and subtle resistance, which benefitted illicit traders and hindered much needed humanitarian work. The book relates developments in this region to borderlands elsewhere, especially new borders in the former

Soviet bloc, and argues that local leaders and organisations should be given semi-autonomy in co-ordination with state border forces in order to increase stability and the acceptance of the state.

Department of Homeland Security Appropriations for 2005: Titles III and IV United States. Congress. House. Committee on Appropriations. Subcommittee on Homeland Security, 2004

*108-1 Hearings: Department of Homeland Security Appropriations For 2004, Part 3, March 20, 2003, \**, 2003

*Deterritorialised Identity and Transborder Movement in South Asia* Nasir Uddin, Nasreen Chowdhory, 2019-01-31 This volume is about migration across South Asia and the complex negotiation of borders by people and the states in the process. A border is understood as a form of demarcation, but it also opens up the flow of people, goods, and ideas of legality and illegality. Borders are dynamic and dyadic in the interface of state and non-state actors involved in border operations. Consequently, transborder movement becomes a complex web involving concerns of security, trade, militancy, and questions of citizenship, along with discourses of ghettoisation, belonging and otherness. Since the mid-20th century, the South Asian region has witnessed growing social and political instability and breakdown of regional cooperation. In this context, the volume casts a wide, interdisciplinary lens across South Asia and discusses economic migration as well as forced migration due to persecution and natural disasters. It looks at how understandings of 'territoriality' and 'border' become blurred due to increasing transborder migration in the region: how states in South Asia address transborder movements at both policy level and on the ground; and how borderlands become spaces for illegal trade and informal economy in South Asia and for negotiations between states and refugees on identity and citizenship. This highly topical volume is for a wide group of scholars and students interested in South Asia, ranging from sociology, anthropology, political

science, history, to interdisciplinary fields like migration studies, peace and conflict studies, and development studies.

Counterinsurgency In Eastern Afghanistan 2004-2008: A Civilian Perspective Robert Kemp, 2014-12-22 After the 2001 ouster of the Taliban from Afghanistan, the United States and its allies found themselves in a country devastated by a series of wars. This book looks at how, working with their Afghan counterparts, they engaged in a complex effort to rebuild security, development, and governance, all while fighting a low-intensity war.

**Visions of Invasion** Michael Lechuga, 2023-03-02 Visions of Invasion: Alien Affects, Cinema, and Citizenship in Settler Colonies explores how the US government mobilizes media and surveillance technologies to operate a highly networked, multidimensional system for controlling migrants. Author Michael Lechuga focuses on three arenas where a citizenship control assemblage manufactures alienhood: Hollywood extraterrestrial invasion film, federal antimigration and border security legislation, and various immigration enforcement protocols implemented along the Mexico–United States border. Building on rhetorical studies, settler colonial studies, and media studies, Visions of Invasion offers a glimpse at how the processes of alien-making contribute to an ongoing settler colonial project in the US. Lechuga demonstrates that popular films—The War of the Worlds, Predator, Men in Black, and more—participate in the production of migrants as subjective terrorists, felons, and other noncitizen personae vilified in public discourse. Beyond just tracing how alien invasion narratives circulate in popular media, Lechuga describes how the logics motivating early US colonists materialize in both the US’s citizenship control policy and in some of the country’s most popular texts. Beneath each of the film franchises and antimigrant political expressions described in Visions of Invasion lies an anxious colonial logic in which the settler way of life is seemingly threatened by false narratives of

imminent invasion from abroad. The volume offers a deep dive into how the rhetorical figure of the alien has been manufactured as a political subjectivity, one that plays out the anxieties, guilts, and fears of colonialism in today's science fiction landscape.

150 Most Powerful Excel Shortcuts Andrei Besedin, 2017-10-27

EXCEL SHORTCUTS No doubt Microsoft excel is a very powerful application that is used by many businesses and people around the world today. Have you been a situation where you and your colleagues will be working on the same task on the excel spreadsheet, and they will finish up within few minutes while you are still on the same task for hours? Do you think they are better than you? Do you think they are smarter than you? No, they are not, just that they know what you don't know. Wondering what that is? It is excel shortcuts /b. There are lots of excel shortcuts out there that can help you finish up your task on time. If you know the powerful excel shortcuts, you would not have to sit down the whole day trying to finish up a task while your colleagues are already done. For you to save more of your time, we have come up with an incredible and powerful short book, "150 Most Powerful Excel Shortcuts: Secrets of Saving Time with Excel!" Yes, there are lots of excel shortcuts, but our outstanding product is ready to give you 150 most powerful ones. This is because learning such a large number can be confusing and overwhelming. Apart from the 150 most powerful excel shortcuts our product offers, some extra benefits await you. Some of the unarguable benefits you can derive are: •You will learn quick ways to carry out tasks on excel •The shortcuts are precise and simple to understand so that you won't have a headache mastering them •Reading it takes less time so you can read over and over again without wasting your time •It serves as a perfect reference guide due to the great navigation index it offers No doubt, we can't argue the fact that our short book might not contain the highest level of information. We only have one aim, to provide you a quick solution to your problems by revealing to you

the most powerful Excel Shortcuts. The 150 Most Powerful Excel Shortcuts offered by our amazing short book can save you more time than you can imagine. You can save about \$1000 just by making this purchase. Seems incredible we think? The more you procrastinate on buying this success proven short book, the more you are vulnerable to wasting your precious time when dealing with huge Excel data. To have more of your time to yourself, obtain your copy of the book with just one click. Click the buy button at the upper right side of the page. By taking this action, you would be doing yourself a great favor! Why delay, when you have what can push you through huge excel task without wasting time, right at your doorstep. Purchase your copy now! PS: You will also get a valuable bonus file (please see page at the end of the book)!

**Interior, Environment, and Related Agencies Appropriations For 2007, Part 8, February 15, 2006, 109-2 Hearings, \*,2006**

Interior, Environment, and Related Agencies Appropriations for 2007 United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies,2006

**MS Excel Bible, Save Your Time With MS Excel!** Andrei Besedin,2023-07-31 No doubt, there are lots of computer programs available, but no one can deny the fact that Microsoft Excel is one of the most important computer programs. It is owing to its functional and key role in many sectors. Talk of data organization, class work, businesses activities and many more, you can find Excel very useful. So if you are a novice, just starting up Excel or a professional our Excel Bible might be all you need. Many institutional, personal, and business enterprises have embraced the use of Excel because of its utility and ability to serve as visual basic for different applications. You can embrace our Excel Bible because it has many benefits to offer you as you ride on in your Excel career. Our incredible Excel Bible is the

combination of all our exceptional Excel books. So imagine how great and powerful this book can be. Some of the benefits you can derive from our top winning Excel Bible are: •Powerful go-to guide for all Excel needs •It makes it easy for you to navigate through all Excel functions •A fully inclusive set of indexes allows users to find particular functions •It takes you lesser time to read because it lacks gibberish and unimportant contents. •Gives you access to all our Excel book at once Little can we tell you about the benefits embedded in this top winning book. You can do yourself a favor by buying this book. No doubt, you will have direct access to all the benefits our book has to offer. There is one fact that we cannot deny, our book does not contain every information about Microsoft Excel. The main aim of our Excel Bible is to provide meaningful and practical help in implementing some of the most powerful and important excel functions. Buying our book could save you about US\$1000 which is more than enough to take care of some other things on your bucket list. You don't need to wait until tomorrow before you make your purchase of this incredibly advantageous short book. Start saving your career today because tomorrow might be too late. To obtain a strong knowledge of some of the powerful excel functions all you need is just a single click. Click the buy button at the upper right side of the page. You would not regret doing it! Why wait, when you can explore the most important excel functions in just one book and take your Excel career to the next level. Purchase your copy of the top winning book now!
