Breeding Sex Stories: MILF and Slut Wife Action Rick Donahue,2013-04-06 A compilation of breeding sex erotic short stories by erotica writer Rick Donahue. With a perfect blend of big cock sex stories and breeding sex, Rick has created another masterpiece to add to his series of taboo sex fiction books. With great story lines and superb plots, Rick brings his books to life with sultry images that help him narrate these real life breeding sex stories that have been made fiction just to protect the names of the characters in them. A master of the art here is an excerpt of one of the breeding sex stories: I was just as ready to go and this time I was sitting on him; riding him like a real cowgirl as his head was spinning from side to side like a gig in reaction to the way he was moving around inside me, hitting all the spots and crevices inside. Steamy metaphors and a great story line are a trademark of Rick's breeding sex stories.

What I Was Doing While You Were Breeding Kristin Newman,2014-05-20 A funny, sexy, and ultimately poignant memoir about mastering the art of the “vacationship”—the inspiration for the upcoming Freeform series *While You Were Breeding* “What I Was Doing While You Were Breeding is kind of like if *Eat, Pray, Love* were written by your funniest friend.”—Rachel Dratch Kristin Newman spent much of her twenties and thirties buying dresses to wear to her friends' weddings and baby showers. Not ready to settle down and in need of an escape from her fast-paced job as a sitcom writer, Kristin instead traveled the world, often alone, for several weeks each year. In addition to falling madly in love with the planet, Kristin fell for many attractive locals, men who could provide the emotional connection she wanted without costing her the freedom she desperately needed. Kristin introduces readers to the Israeli bartenders, Finnish poker players, sexy Bedouins, and Argentinean priests who helped her transform into “Kristin-Adjacent” on the road—a slower, softer, and, yes, sluttier version of herself at home. Equal parts laugh-out-loud storytelling, candid reflection, and wanderlust-inspiring travel tales, *What I Was Doing While You Were Breeding* is a compelling debut that will have readers rushing to renew their passports.

Horses in Society Margaret E. Derry,2016-01-27 Before crude oil and the combustion engine, the industrialized world relied on a different kind of power - the power of the horse. *Horses in Society* is the story of horse production in the United States, Britain, and Canada at the height of the species' usefulness, the late nineteenth and early twentieth-century. Margaret E. Derry shows how horse breeding practices used during this period to heighten the value of the animals in the marketplace incorporated a intriguing cross section of influences, including Mendelism, eugenics, and Darwinism. Derry elucidates the increasingly complex horse world by looking at the international trade in army horses, the regulations put in place by different countries to enforce better horse breeding, and general aspects of the dynamics of the horse market. Because it is a story of how certain groups attempted to control the market for horses, by protecting their breeding activities or 'patenting' their work, *Horses in Society* provides valuable background information to the rapidly developing present-day problem of biological ownership. Derry's fascinating study is also a story of the evolution of animal medicine and humanitarian movements, and of international relations, particularly between Canada and the United States.

The Story of the Plott Hound Bob Plott,2007-12-17 Recognized now as one of the premier hunting dogs in America, the Plott bear hound is unique among hunting dog breeds because it descends from Germanic stock rather than the traditional English foxhound. The breed's story began when its original breeder, Johannes Plott, and his brother Enoch left Germany in 1750 with their prized hunting dogs. This trip across the Atlantic began the two-hundred-year journey that would culminate in the North Carolina mountains with the development of what is now arguably the world's finest breed of hunting dog. This fascinating story of the Plott family and the Plott hound is a classic American tale of adventurers and underdogs--a story that Bob Plott, the great-great-great-grandson of Johannes Plott, is uniquely qualified to tell.

Art and Science in Breeding Margaret Elsinor Derry,2012-01-01 Chickens are now the most scientifically engineered of livestock. How have the methods used by geneticists differed from those employed by domestic breeders over time? *Art and Science in Breeding* details the relationship between farm practices and agricultural genetics in poultry breeding from 1850 to 1960. Margaret E. Derry traces the history and organization of chicken breeding in North America, from craft approaches and breeding as an 'art,' to the conflicts that had emerged between traditional and scientific methods by the 1940s. Derry assesses links between the 'scientific' revolution of chicken farming and the development of corporate

breeding as a modern, international industry. Using poultry as a case study for the wider narrative of agricultural genetics, *Art and Science in Breeding* adds considerable knowledge to a rapidly growing field of inquiry.

Midnight Breed Bundle: 3 Stories by Lara Adrian Lara Adrian, 2017-03-28 Tempted by Midnight Once, they lived in secret alongside mankind. Now, emerged from the shadows, the Breed faces enemies on both sides—human and vampire alike. No one knows that better than Lazaro Archer, one of the eldest, most powerful of his kind. His beloved Breedmate and family massacred by a madman twenty years ago, Lazaro refuses to open his heart again. Sworn to his duty as the leader of the Order's command center in Italy, the last thing the hardened warrior wants is to be tasked with the rescue and safekeeping of an innocent woman in need of his protection. But when a covert mission takes a deadly wrong turn, Lazaro finds himself in the unlikely role of hero with a familiar, intriguing beauty he should not desire, but cannot resist. Melena Walsh has never forgotten the dashing Breed male who saved her life as a child. But the chivalrous hero of her past is in hard contrast to the embittered, dangerous man on whom her safety now depends. And with an unwanted—yet undeniable—desire igniting between them, Melena fears that Lazaro's protection may come at the price of her heart... Stroke of Midnight Born to a noble Breed lineage steeped in exotic ritual and familial duty, vampire warrior Jehan walked away from the luxurious trappings of his upbringing in Morocco to join the Order's command center in Rome. But when a generations-old obligation calls Jehan home, the reluctant desert prince finds himself thrust into an unwanted handfasting with Seraphina, an unwilling beauty who's as determined as he is to resist the antiquated pact between their families. Yet as intent as they are to prove their incompatibility, neither can deny the attraction that ignites between them. And as Jehan and Seraphina fight to resist the calling of their blood, a deadly enemy seeks to end their uneasy truce before it even begins.... Midnight Untamed The mission was supposed to be simple. Infiltrate an enemy's stronghold outside Rome and eliminate its leader. For a Breed warrior as lethal as Ettore Selvaggio, AKA "Savage", stealth assassinations are only one of his many cold-hearted specialties. But the last thing Savage expects to find behind enemy lines—in his target's bed—is a woman he once adored. It's been years since Savage last saw beautiful Arabella Genova. Years he's strived to banish to his past, along with the fierce desire he once felt toward Bella . . . and the irresistible calling of her blood that stirs in him even now, despite the fact that she belongs to another male. But when fate throws Savage and Bella together again in a race for their lives, will his long-lost love prove to be the one woman he can't live without, or the perfect weapon to destroy him?

Horse Breeds and Breeding in the Greco-Persian World Thomas Donaghy, 2014-06-30 Although there are many publications which discuss the history of the ancient horse, few focus their attention on the origin and development of the various breeds. Most publications examine the horse's contribution to human history through its role as transport facilitator and military machine, and concentrate mainly on subjects such as the origin and development of chariot and cavalry equipment and changes in military tactics over time. This book examines what happened when humans took the horse from the wild and domesticated it for their own use. This focus was taken as it was felt that the understanding of the huge role which the horse played in human history can only be improved by gaining an understanding of the equally huge role which humans played when they took horses from the wild and, through many hundreds of years of daily interaction, cross-breeding, and training, facilitated the development and spread of many breeds across the ancient world. This book takes as its chronological focus the Greco-Persian world of the second and first millennia BC. This time period was selected for examination as it was during these two millennia that the

vital role which the horse was to play in human history became fully apparent. The second millennium BC saw the development of the vast chariot forces which were to form an important part of the armed forces of numerous lands, from Mycenaean Greece in the West to India and China in the far East, while the following millennium saw the gradual replacement of chariots with cavalry forces, which continued to play a vital role in military warfare right up until the beginnings of the twentieth century AD. Part One traces the history of the horse from its evolution to the development and spread of chariot and cavalry forces. Parts Two and Three examine the famous horse-breeding regions of the ancient world and, through an analysis of archaeological, iconographical, and literary evidence, attempts to determine why these regions were famed for horse breeding and what were the physical characteristics and given attributes of the various breeds.

Meet Travis Breeding a Story of Being Accountable Travis Breeding, 2018-06-22 Travis introduces himself to the Autism community and explains how in some of his prior books information may have been skewed due to him experiencing psychosis as he wrote. Travis honestly explains some of his psychotic claims that certain things cured his autism in an honest account and explanation of some of his behaviors of the past. Travis separates truth from fiction in this tell all book in which he attempts to explain what writing was caused by psychosis and what writing was an honest picture of how autism affects him. Travis explains how psychosis confused him and made him think things that were not true about life. He shares his journey of how he strives to determine what is autism and what is psychosis in life. Most importantly Travis denounces earlier claims in some of his books that certain things like social skills coaching and sex helped cure his autism. He explains that those claims were born from psychosis and a sincere belief that certain things really helped him with autism. Travis tells how a deep desire to receive certain treatments and therapies led to him believing those therapies helped cure him of autism. In reality Travis was never looking to be cured of autism. He wanted to be cured of psychosis and mental illness. Travis often confused the two and thought many of his psychotic symptoms were actually autism when they were not. The psychotic episodes and bouts of schizophrenia and bi-polar led Travis to believe many things that were not accurate. Travis shared some of these beliefs with his readers in these books and now he comes clean by explaining how some of the beliefs he spoke of in his earlier books were inaccurate. This book is an honest account of a life that has been full of many ups and downs. This book is an honest account of someone who is now doing better and overcoming mental illness and psychosis to embrace, enjoy, and love life on the autism spectrum. Travis explains the importance of understanding psychosis and the relationship to autism spectrum disorder. It is important to separate the two so that yourself and many others do not become confused. This is a book that explains both and explains some of Travis' previous behavior and statements in some of his books.

Breeding (EN01) Sue Yan Nish, 2022-11-22 C01 Modern Nation Building: Empty Nation is a, sci-fi, romantic, erotic, political satire, comedy. The story begins two hundred years in the future. In this first book the framework for the entire series is defined. Yanket & Seymour concoct a wild futuristic plan for a new government program, the MSES®, to control the economic fate of the world (nothing new). Note: the appendix for the entire series is in the SM069 Manual available on both Audible.com and Amazon.com websites. C02 Program: Seymour explores for the first time how absolutely wild their plan really is. Yet supplying a sufficient amount of good-time sex to the workforce is deemed essential to the Nations

survival. Yanket & Seymour wrangle with the Cunt-gress to support their MSES® scheme regardless of the social and political nightmare it may cause. C03 Family: The two main characters in the Series, Mary & Jane (the Gurls) are breed into existence and introduced to the readers and listeners (available on Audible.com). This book steps through a brief history of the Gurls, from conception, birth and breeding by the Human host families. All the while, they're being indoctrinated into the USA Inc. political and economic systems by government supplied drugs to maintain a pleasant and sensual, sedated-state in a surrealistic world as Sex-Slaves (Sissies) for profit. C04 HCC: This story has many concepts which are bitter & sweet till you realize you're reading fiction. The USA Inc. government in the future is portrayed as an imperialistic, monstrous demon shunned by all other nations and the UN. The society in the new America crosses some pretty taboo moral lines supported completely by the new US second constitution with amendments. So performing lewd sex acts and behavior was legitimizing for citizens in and out of public. And what better way to nullify the old morals of the Caligula type society than through religion. The final scene has Jane Gurl, who is a one year old, baptized at the Holy Cockolic Church (HCC) and her mother goes to confession which requires deep penetration penance.
