The Phenomenon of Býčí Skála Cave Martin Golec,et al., The book is divided into seven parts of discussions on one of the most famous localities on the territory of Moravia. It explains the existence of the cave in the landscape, the communication network and the network of artefacts in the human world (Parts 1 to 3). It further presents the complete human activities in Býčí Skála Cave from the Palaeolithic to today (Part 4), it starts from the archaeological, historical and ethnographic sources accumulated between 2007 and 2016. In the fifth part, it presents the complete landscape of the people of the Hallstatt Period and the emergence of the cave sanctuary in the unsettled landscape. In the sixth part, this landscape is look at in relation to mankind and the cave from the perspectives of sociology, cultural anthropology and religious studies. In the seventh part, the world and the life of “Wenkel’s princess” – one of the wealthiest women of the time around the middle of the sixth century BC in Moravia from her birth to her death – is presented with elements of the archaeological reconstruction.

Piety in Pieces Kathryn M. Rudy,2016-09-26 Medieval manuscripts resisted obsolescence. Made by highly specialised craftspeople (scribes, illuminators, book binders) with labour-intensive processes using exclusive and sometimes exotic materials (parchment made from dozens or hundreds of skins, inks and paints made from prized minerals, animals and plants), books were expensive and built to last. They usually outlived their owners. Rather than discard them when they were superseded, book owners found ways to update, amend and upcycle books or book parts. These activities accelerated in the fifteenth century. Most manuscripts made before 1390 were bespoke and made for a particular client, but those made after 1390 (especially books of hours) were increasingly made for an open market, in which the producer was not in direct contact with the buyer. Increased efficiency led to more generic products, which owners were motivated to personalise. It also led to more blank parchment in the book, for example, the backs of inserted miniatures and the blanks ends of textual components. Book buyers of the late fourteenth and throughout the fifteenth century still held onto the old connotations of manuscripts—that they were custom-made luxury items—even when the production had become impersonal. Owners consequently purchased books made for an open market and then personalised them, filling in the blank spaces, and even adding more components later. This would give them an affordable product, but one that still smacked of luxury and met their individual needs. They kept older books in circulation by amending them, attached items to generic books to make them more relevant and valuable, and added new prayers with escalating indulgences as the culture of salvation shifted. Rudy considers ways in which book owners adjusted the contents of their books from the simplest (add a marginal note, sew in a curtain) to the most complex (take the book apart, embellish the components with painted decoration, add more quires of parchment). By making sometimes extreme adjustments, book owners kept their books fashionable and emotionally relevant. This study explores the intersection of codicology and human desire. Rudy shows how increased modularisation of book making led to more standardisation but also to more opportunities for personalisation. She asks: What properties did parchment manuscripts have that printed books lacked? What are the interrelationships among technology, efficiency, skill loss and standardisation?

Trust and Proof Andrea Rizzi,2017-11-06 The chapters in this volume share an aim to historicize the role of the translator as a cultural and political agent in the early modern West.

Europa Postmediaevalis 2020 Gabriela Blažková,Kristýna Matějková,2021-03-25 Post-medieval pottery in the spare time is a collection of papers planned for what would have been the second Europa Postmediaevalisconference. The focus is on the Early Modern period (15th to 18th centuries) and the growing use of new ceramic forms for leisure activities. Although the conference itself could not be held, due to the COVID-19 pandemic, the volume nevertheless brings together 28 contributions from authors from nine countries, from Portugal to Russia, from Italian Sardinia to Polish Stargard. A finds assemblage from the United Arab Emirates published by Portuguese colleagues, represents the tenth country. The volume comprises several subtopics which at first glance seem diverse. And yet, be they smoking, drinking coffee or alcohol, garden strolls or games, they share one thing in common: they are hobbies and vices enjoyed mainly in one's free time. In the Early Modern period, these were typically activities of a rather luxurious nature, initially reserved for those with loftier positions in society but which, over time, gradually filtered down to the lower economic classes. It is therefore not surprising that the greater demand for new activities was also reflected in pottery production. As such, new ceramic forms such as cups, pipes and flowerpots began to appear in Early Modern archaeological assemblages and form the basis of this anthology. The volume will provide readers with useful comparison assemblages and serve as a source of inspiration for subsequent research.

Designs of the Ancient World ,1978 A collection of copyright-free designs from the ancient world including Egyptian and Roman designs.

The Curse of the Voynich Nicholas Pelling,Nick Pelling,2006-01-01 For hundreds of years, the bizarre Voynich Manuscript has been the subject of intrigue and fascination. My Crazy Century Ivan Klíma,2013-11-04 An intimate, politically vital memoir by the acclaimed Czech author “of enormous power and originality” explores his life under Nazi and Communist regimes (The New York Times Book Review). In the 1930s on the outskirts of Prague, Ivan Klíma wasunaware of his concealed Jewish heritage until the invading Nazis transported him and his family to the Terezín concentration camp. Miraculously, most of them survived. But they returned home to a city that was falling into the grip of another totalitarian ideology:

Communism. Along this harrowing journey, Klíma discovered his love of literature and matured as a writer. But as the regime further encroached on daily life, arresting his father and censoring his work, Klíma recognized the party for what it was: a deplorable, colossal lie. The true nature of oppression became clear to him and many of his peers, among them Josef Škvorecký, Milan Kundera, and Václav Havel. From the brief hope of freedom during the Prague Spring of 1968 to Charter 77 and the eventual collapse of the regime in 1989's Velvet Revolution, Klíma's revelatory account provides a profoundly rich personal and national history. Klíma's memoir provides "a sweeping, revealing look at one man's personal struggle as writer and individual, set against the backdrop of political turmoil" (Booklist) and a "searching exploration of a warped era . . . rich in irony—and dogged hope." (Publishers Weekly).

The Wanderings of a Pen and Pencil F. P. Palmer,1846

Pirouettes on a Postage Stamp Hrabal, Bohumil ,2008-01-01 The book is a novel-interview initiated by the Hungarian journalist, writer and anti-communist activist based in Slovakia László Szigeti. It retains the character of a more or less verbatim oral record - it is full of false starts and thematic and syntactic digressions, characteristic for the majority of Hrabal's magical, bizarre and grotesque tales. It is unique for being autobiographical and for making the reader understand Hrabal's personality, his philosophy and perception and understanding of Central Europe shortly before the fall of totalitarian regime in the late 80s.

The Hours of Simon de Varie James H. Marrow,François Avril,1994 Leading French painters in the late medieval period executed miniatures for lavishly illuminated books of hours. In the mid-fifteenth century, Simon de Varie commissioned such a book. Completed in 1455, it included five priceless works by the most eminent French painter of the time, Jean Fouquet, as well as other striking paintings by two of his contemporaries. In the seventeenth century, Simon de Varie's book was divided into three sections and sold as separate volumes. Two of these volumes are today in the Royal Library in The Hague. The third volume--thought lost until 1984, when it surfaced in a private collection and was subsequently acquired by the Getty Museum--contains the first miniatures by Jean Fouquet to have been discovered in eighty years. This beautiful book will reproduce in color all of the miniatures and historiated initials in the original manuscript, along with selected text pages with secondary decoration. Comparative illustrations also accompany the two essays in the volume. Marrow's text addresses the role of books of hours in late medieval culture; the contents and form of de Varie's Hours; and the relationship of the miniatures by Fouquet to the rest of the artist's oeuvre. In a related essay, Francois Avril discusses the position of Simon de Varie and his family in mid-fifteenth-century France. The publication of The Hours of Simon de Varie adds to the Getty's impressive list of publications on illuminated manuscripts begun in 1990 and including the widely acclaimed facsimile Mira calligraphiae monumenta.

Judge On Trial Ivan Klíma,2010-09-30 Judge On Trial is Ivan Klíma's epic novel about those who stayed in Prague after 1968. When middle-aged judge Adam Kindl is asked not only to try a double murder case but is also expected to find the accused guilty it is his own shattered faith in the political system that is put on trial. To understand the crises he is experiencing in both his professional and personal life, Adam has to confront his own and his country's past which has been mis-shapen first by Nazism, then Stalinism, the false hope of the Prague Spring and the collaborationist regime that followed.
