What Money Can't Buy Michael J. Sandel, 2012-04-24 Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In *What Money Can't Buy*, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller *Justice*, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in *What Money Can't Buy*, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of

markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

The Buy-In Emma St Clair, 2022-01-19 You can't Schitt's Creek a town, Tank. And you can't verb a noun, son. When a family of former pro football players buy a small Texas town, they didn't intend to start a war with its residents ... or to fall in love. Ever since his career-ending injury, Pat has bounced from job to job, idea to idea, short-lived relationship to short-lived relationship. But when his father purchases the town of Sheet Cake, Pat suddenly sees his life with clear purpose: get his brothers on board with his dad's wild idea and win back the one woman who got away. Lindy was supposed to be traveling the world, not stuck in a small town, caring for her niece. But she would do anything to keep custody of Jo--even if that looks like a marriage of convenience with the man who already broke her heart once. Now if she can only keep herself from falling back in love with her husband... This is a small town, marriage of convenience romantic comedy with plenty of sizzle while keeping the bedroom door closed. It's the first in a spinoff series following Harper's brothers (from *Falling for Your Best Friend*). You don't need to have read the *Love Clichés* series first to enjoy this book.

But not for Sam Wren. An hour after leaving home, he gets onto a tube train—and never gets off again. No eyewitnesses. No trace of him on security cameras. Six months later, he's still missing. Out of options and desperate for answers, Sam's wife Julia hires David Raker to track him down. Raker has made a career out of finding the lost. He knows how they think. And, in missing person cases, the only certainty is that everyone has something to hide. But in this case the secrets go deeper than anyone

imagined. As Raker starts to suspect that even the police are lying to him, it becomes clear that someone is watching. Someone who knows what happened on the tube that day. And, with Raker in his sights, he'll do anything to keep Sam's secrets to himself.

The Buy Nothing, Get Everything Plan Liesl Clark, Rebecca Rockefeller, 2021-01-12 In the spirit of The Gentle Art of Swedish Death Cleaning and The Joy of Less, experience the benefits of buying less and sharing more with this accessible 7-step guide to decluttering, saving money, and creating community from the creators of the Buy Nothing Project. In their island community, friends Liesl Clark and Rebecca Rockefeller discovered that the beaches of Puget Sound were spoiled by a daily influx of plastic items and trash washing on shore. From pens and toothbrushes to toys and straws, they wondered, where did it all come from? Of course, it comes from us—our homes, our backyards, our cars, and our workplaces. And so, a rallying cry against excess stuff was born. In 2013, they launched

the first Facebook Buy Nothing Project group in their small town off the coast of Seattle, and they never expected it to become a viral sensation. Today there are thousands of Buy Nothing groups all over the world, boasting more than a million members, and 5,000 highly active volunteers. Inspired by the ancient practice of gift economies, where neighbors share and pool resources, The Buy Nothing, Get Everything Plan introduces an environmentally conscious 7-step guide that teaches us how to buy less, give more, and live generously. At once an actionable plan and a thought-provoking exploration of our addiction to stuff, this powerful program will help you declutter your home without filling landfills, shop more thoughtfully and discerningly, and let go of the need to buy new things. Filled with helpful lists and practical suggestions including 50 items you never need to buy (Ziploc bags and paper towels) and 50 things to make instead (gift cards and salad dressing), The Buy Nothing, Get Everything Plan encourages you to rethink why you shop and embrace a space-saving, money-saving, and earth-saving mindset of buying less and sharing more.

Buy the Change You Want to See Jane Mosbacher Morris,Wendy Paris,2019-01-29 Eager to

change the world? Learn how you can have a greater social impact through your everyday purchases. The money we routinely spend on food, clothes, gifts, and even indulgences is an untapped superpower. What would happen if we slowed down to make more thoughtful decisions about what we buy? For mom and pop stores across the country, and artisan and agricultural communities around the world, every purchase matters. Consumers--whether individuals, small businesses, or corporations--are paying more attention than ever to how their goods are made; and retailers--large and small--are responding by investing in ethical and eco-friendly production. Yet figuring out which brands to support can feel overwhelming. Jane Mosbacher Morris has devoted her career to creating economic opportunities for vulnerable communities around the world, and in this valuable book, she shares her passion and insights on how we, as consumers, can create positive change too. Covering topics that range from why not all factories are evil, to how our morning coffee can be the easiest way for us to use our purchasing power for good, *Buy the Change You Want to See* makes us better informed consumers. Morris tells inspiring stories about how victims of human trafficking and natural disasters have been empowered by economic opportunity, and she offers practical ideas about how we can support these communities through our purchases--whether it comes to jewelry made from recycled materials in Haiti, sustainably grown and ethically sourced coffee and chocolate from farmers in some of the poorest regions of the world, or mass-produced jeans and shoes made in factories where workers are guaranteed decent working conditions and a fair wage.

Buy-In John P. Kotter, Lorne Whitehead, 2010-10-06 You've got a good idea. You know it could make a crucial difference for you, your organization, your community. You present it to the group, but get confounding questions, inane comments, and verbal bullets in return. Before you know what's happened, your idea is dead, shot down. You're furious. Everyone has lost: Those who would have

benefited from your proposal. You. Your company. Perhaps even the country. It doesn't have to be this way, maintain John Kotter and Lorne Whitehead. In *Buy-In*, they reveal how to win the support your idea needs to deliver valuable results. The key? Understand the generic attack strategies that naysayers and obfuscators deploy time and time again. Then engage these adversaries with tactics tailored to each strategy. By inviting in the lions to critique your idea--and being prepared for them--you'll capture busy people's attention, help them grasp your proposal's value, and secure their commitment to implementing the solution. The book presents a fresh and amusing fictional narrative showing attack strategies in action. It then provides several specific counterstrategies for each basic category the authors have defined--including:

- **Death-by-delay:** Your enemies push discussion of your idea so far into the future it's forgotten.
- **Confusion:** They present so much data that confidence in your proposal dies.
- **Fearmongering:** Critics catalyze irrational anxieties about your idea.
- **Character assassination:** They slam your reputation and credibility.

Smart, practical, and filled with useful advice, *Buy-In* equips you to anticipate and combat attacks--so your good idea makes it through to make a positive change.

Buyology Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.
