Pro Web 2.0 Mashups Raymond Yee, 2008-04-25 Mashups are hugely popular right now, a very important topic within the general area of Web 2.0, involving technologies such as CSS, JavaScript, Ajax, APIs, libraries, and server-side languages (such as PHP and ASP.NET.) This book aims to be the definitive tome on Mashup development, to stand in the middle of all the other, more API specific books coming out on Google Maps, Flickr, etc. The book shows how to create real world Mashups using all the most popular APIs, such as Google Maps, Flickr, Amazon Web Services, and delicious, and includes examples in multiple different server-side languages, such as PHP, Java, and .NET.

Environmental Justice in Postwar America Christopher W. Wells, 2018-07-16 In the decades after World War II, the American economy entered a period of prolonged growth that created unprecedented affluence—but these developments came at the cost of a host of new environmental problems. Unsurprisingly, a disproportionate number of them, such as pollution-emitting factories, waste-handling facilities, and big infrastructure projects, ended up in communities dominated by people of color. Constrained by long-standing practices of segregation that limited their housing and employment options, people of color bore an unequal share of postwar America's environmental burdens. This reader collects a wide range of primary source documents on the rise and evolution of the environmental justice movement. The documents show how environmentalists in the 1970s recognized the unequal environmental burdens that people of color and low-income Americans had to bear, yet failed to take meaningful action to resolve them. Instead, activism by the affected communities themselves spurred the environmental justice movement of the 1980s and early 1990s. By the turn of the twenty-first century, environmental justice had become increasingly mainstream, and issues like climate justice, food justice, and green-collar jobs had taken their places alongside

the protection of wilderness as “environmental” issues. Environmental Justice in Postwar America is a powerful tool for introducing students to the US environmental justice movement and the sometimes tense relationship between environmentalism and social justice. Unequal City Carla Shedd, 2015-10-20 Chicago has long struggled with racial residential segregation, high rates of poverty, and deepening class stratification, and it can be a challenging place for adolescents to grow up. *Unequal City* examines the ways in which Chicago’s most vulnerable residents navigate their neighborhoods, life opportunities, and encounters with the law. In this pioneering analysis of the intersection of race, place, and opportunity, sociologist and criminal justice expert Carla Shedd illuminates how schools either reinforce or ameliorate the social inequalities that shape the worlds of these adolescents. Shedd draws from an array of data and in-depth interviews with Chicago youth to offer new insight into this understudied group. Focusing on four public high schools with differing student bodies, Shedd reveals how the predominantly low-income African American students at one school encounter obstacles their more affluent, white counterparts on the other side of the city do not face. Teens often travel long distances to attend school which, due to Chicago’s segregated and highly unequal neighborhoods, can involve crossing class, race, and gang lines. As Shedd explains, the disadvantaged teens who traverse these boundaries daily develop a keen “perception of injustice,” or the recognition that their economic and educational opportunities are restricted by their place in the social hierarchy. Adolescents’ worldviews are also influenced by encounters with law enforcement while traveling to school and during school hours. Shedd tracks the rise of metal detectors, surveillance cameras, and pat-downs at certain Chicago schools. Along with police procedures like stop-and-frisk, these prison-like

practices lead to distrust of authority and feelings of powerlessness among the adolescents who experience mistreatment either firsthand or vicariously. Shedd finds that the racial composition of the student body profoundly shapes students' perceptions of injustice. The more diverse a school is, the more likely its students of color will recognize whether they are subject to discriminatory treatment. By contrast, African American and Hispanic youth whose schools and neighborhoods are both highly segregated and highly policed are less likely to understand their individual and group disadvantage due to their lack of exposure to youth of differing backgrounds.

Social Work Services in Schools Paula Allen-Meares, Robert O. Washington, Betty L. Welsh, 1996 In this book we discuss major concepts, policies, and practices in the field of social work in schools.

Understanding, Dismantling, and Disrupting the Prison-to-School Pipeline Kenneth J. Fasching-Varner, Lori Latrice Martin, Roland W. Mitchell, Karen Bennett-Haron, Arash Daneshzadeh, 2016-12-06 This volume examines the school-to-prison pipeline, a concept that has received growing attention over the past 10-15 years in the United States. The "pipeline" refers to a number of interrelated concepts and activities that most often include the criminalization of students and student behavior, the police-like state found in many schools throughout the country, and the introduction of youth into the criminal justice system at an early age. The school-to-prison pipeline negatively and disproportionately affects communities of color throughout the United States, particularly in urban areas. Given the demographic composition of public schools in the United States, the nature of student performance in schools over the past 50 years, the manifestation of school-to-prison pipeline approaches pervasive throughout the country and the world, and the growing incarceration rates for youth, this volume explores this issue from the sociological,

criminological, and educational perspectives. Understanding, Dismantling, and Disrupting the Prison-to-School Pipeline has contributions from scholars and practitioners who work in the fields of sociology, counseling, criminal justice, and who are working to dismantle the pipeline. While the academic conversation has consistently called the pipeline 'school-to-prison,' including the framing of many chapters in this book, the economic and market forces driving the prison-industrial complex urge us to consider reframing the pipeline as one working from 'prison-to-school.' This volume points toward the tensions between efforts to articulate values of democratic education and schooling against practices that criminalize youth and engage students in reductionist and legalistic manners.

Bad Luck Bridesmaid Alison Rose Greenberg, 2022-01-11 Most Anticipated Romance of 2022 by Goodreads A compulsively readable, witty, and humorous novel about the pursuit of a happily ever after...with oneself. - Tif Marcelo Whip-smart, heartfelt and joyful, Alison Rose Greenberg's *Bad Luck Bridesmaid* is a celebration of complicated women and a power-anthem to live your truth.

Happy Ever After. On Her Own Terms. It's official: Zoey Marks is the cursed bridesmaid that no engagement can survive. Ten years, three empire waist dresses, and ZERO brides have walked down the aisle. After strike three, Zoey is left wondering if her own ambivalence towards marriage has rubbed off on those she loves. And when her building distrust of matrimony culminates in turning down a proposal from her perfect All-American boyfriend, Rylan Harper III, she and Rylan are both left heartbroken, leaving Zoey to wonder: what is it exactly about tying the knot that makes her want to run in the opposite direction? Enter Hannah Green: Zoey's best friend, who announces that she's marrying a guy she just met (cue eye roll). At a castle. In gorgeous, romantic Ireland, where Rylan will be in attendance, and Zoey will be a bridesmaid. It'll be fine. Okay, the woman definition of fine (NOT FINE). Determined to turn her luck around, Zoey accepts her role and vows to get Hannah down the aisle—all the while praying her best friend's wedded bliss will allow her to embrace marriage and get Rylan back. But as the weekend goes on, Zoey is plagued with more questions than answers. Can you be a free spirit, yet still want a certain future? Can you have love and be loved on your terms? And how DO you wrangle a bossy falcon into doing your bidding? Laugh-out-loud funny in places and heart-rending serious in others, Greenberg's debut is a unique romance strong on friendships and the importance of being true to oneself that also explores an alternate route to a different happily-ever-after. —Booklist An unconventional love story for independent women. —Kirkus Reviews

Crabgrass Frontier Kenneth T. Jackson, 1987-04-16 This first full-scale history of the development of the American suburb examines how the good life in America came to be equated with the a home of one's own surrounded by a grassy yard and located far from the urban workplace. Integrating social history with economic and architectural analysis, and taking into

account such factors as the availability of cheap land, inexpensive building methods, and rapid transportation, Kenneth Jackson chronicles the phenomenal growth of the American suburb from the middle of the 19th century to the present day. He treats communities in every section of the U.S. and compares American residential patterns with those of Japan and Europe. In conclusion, Jackson offers a controversial prediction: that the future of residential deconcentration will be very different from its past in both the U.S. and Europe.

Neighborhood Knowledge for Change Steve Costa, Jeremy Hays, 2002-01-01 This innovative report uses neighborhood-level indicators to draw links between West Oakland's pollution and its political, economic, and social state.

A New Model of School Discipline David R. Dupper, 2010-03-25 Mounting evidence shows that zero-tolerance policies, suspensions, and restrictive security policies fail to improve school safety and student behaviors, and are linked with increased risk of dropping out. Minority students are suspended at disproportionate rates, and over a million cases of corporal punishment are reported each year. Against this dismal backdrop, David Dupper presents a transformative new model of school discipline that is preventive, proactive, and relationship-based. Unlike traditional punitive and exclusionary practices, the model developed in this Workshop volume focuses on enhancing students' connection to school through building relationships and bolstering social skills. Drawing on the latest research about what works, and what doesn't, this highly practical guide catalogs an array of proven and promising practices designed to engage, instead of exclude, students. Rather than illustrate a one-size-fits-all approach, it guides practitioners and administrators in identifying their school's unique needs and selecting appropriate strategies for use at the universal, targeted, and remedial levels. A five-step strategic planning model helps schools transition toward a holistic,

relationship-based approach to discipline. Boxes, bullets, evidence summaries, and practice tips make this an accessible, forward-thinking resource for school personnel seeking to engage students and reduce behavior problems in the most effective, pragmatic, and cost-efficient manner possible.

Creating Trauma-Informed Schools Eileen A. Dombo, Christine Anlauf Sabatino, 2019-01-15 Children in all educational levels are vulnerable to abuse, neglect, bullying, violence in their homes and neighborhoods, and other traumatic life events; research shows that upwards of 70% of children

in schools report experiencing at least one traumatic event before age 16. Though school social workers are on the front lines of service delivery through their work with children who face social and emotional struggles in the pursuit of education, there are scant resources to assist them in the creation of trauma-informed schools. This book presents an overview of the impact of trauma on children and adolescents, as well as interventions for direct practice and collaboration with teachers, families, and communities. Social work practitioners and students will learn distinct examples of how to implement the ten principles of trauma-informed services in their schools; provide students with trauma-informed care that is grounded in the principles of safety, connection, and emotional regulation; and develop beneficial skills for self-care in their work.

A Tragedy of Democracy Greg Robinson, 2009-06-30 The confinement of some 120,000 Japanese Americans during World War II, often called the Japanese American internment, has been described as the worst official civil rights violation of modern U. S. history. Greg Robinson not only offers a bold new understanding of these events but also studies them within a larger time frame and from a transnational perspective. Drawing on newly discovered material, Robinson provides a backstory of confinement that reveals for the first time the extent of the American government's surveillance of Japanese communities in the years leading up to war and the construction of what officials termed concentration camps for enemy aliens. He also considers the aftermath of confinement, including the place of Japanese Americans in postwar civil rights struggles, the long movement by former camp inmates for redress, and the continuing role of the camps as touchstones for nationwide commemoration and debate. Most remarkably, *A Tragedy of Democracy* is the first book to analyze

official policy toward West Coast Japanese Americans within a North American context. Robinson studies confinement on the mainland alongside events in wartime Hawaii, where fears of Japanese Americans justified Army dictatorship, suspension of the Constitution, and the imposition of military tribunals. He similarly reads the treatment of Japanese Americans against Canada's confinement of 22,000 citizens and residents of Japanese ancestry from British Columbia. *A Tragedy of Democracy* recounts the expulsion of almost 5,000 Japanese from Mexico's Pacific Coast and the poignant story of the Japanese Latin Americans who were kidnapped from their homes and interned in the United States. Approaching Japanese confinement as a continental and international phenomenon, Robinson offers a truly kaleidoscopic understanding of its genesis and outcomes. Critical Race Spatial Analysis Deb Morrison, Subini Ancy Annamma, Darrell D.

Jackson, 2023-07-03 How does space illuminate educational inequity? Where and how can spatial analysis be used to disrupt educational inequity? Which tools are most appropriate for the spatial analysis of educational equity? This book addresses these questions and explores the use of critical spatial analysis to uncover the dimensions of entrenched and systemic racial inequities in educational settings and identify ways to redress them. The contributors to this book – some of whom are pioneering scholars of critical race spatial analysis theory and methodology – demonstrate the application of the theory and tools applied to specific locales, and in doing so illustrate how this spatial and temporal lens enriches traditional approaches to research. The opening macro-theoretical chapter lays the foundation for the book, rooting spatial analyses in critical commitments to studying injustice. Among the innovative methodological chapters included in this book is the re-conceptualization of mapping and space beyond the simple exploration of external spaces to considering internal geographies, highlighting how the privileged may differ in socio-spatial thinking from oppressed communities and what may be learned from both perspectives; data representations that allow the construction of varied narratives based on differences in positionality and historicity

of perspectives; the application of redlining to the analysis of classroom interactions; the use of historical archives to uncover the process of marginalization; and the application of techniques such as the fotonovela and GIS to identify how spaces are defined and can be reimagined. The book demonstrates the analytical and communicative power of mapping and its potential for identifying and dismantling racial injustice in education. The editors conclude by drawing connections across sections, and elucidating the tensions and possibilities for future research. Contributors Benjamin Blaisdell, Graham S. Garlick, Leigh Anna Hidalgo, Mark C. Hogrebe, Joshua Radinsky, Daniel G. Solórzano, William F. Tate, Verónica N. Vélez, Federico R. Waitoller

Civil Litigation Laurence M. Olivo, Mary Ann Kelly, 2020 The fourth edition of *Civil Litigation* will respond to changes in the Rules of Civil Procedure.
