General Motors Corporation. Cadillac Motor Car Division

**The Cadillac Story** Thomas E. Bonsall,2004 The Cadillac story is more than the story of a car company. It is, in many ways, the story of the American automobile industry itself—which, as much as any industry, drove America's growth in the twentieth century and defined who we are as a people. For generations of Americans, Cadillac epitomized expansive prosperity. This illustrated history of Cadillac presents all the triumphs and failures of the marque's last sixty years; from the good times, through the disastrous 1980s, and up to the current reconstitution of the brand.

*The Cadillac That Followed Me Home* Christopher W. Cummings,2006-09-21 The Cadillac V-16 was conceived in secrecy in the middle of the Roaring Twenties, when incomes were rising, prosperity seemed endless and the car business was beginning to break from a traditional emphasis on function over form. But by the time the Cadillac V-16 reached showrooms in 1930, the nation was falling headlong into the Great Depression, and it soon became a rare relic of the boom before the crash. That is why in the mid-1960s, when Christopher Cummings was an adolescent car enthusiast, the oldest Cadillac V-16s were a dream just out of reach. This memoir tells the story of a boy who grew up loving cars, learned everything he could about them, and acquired quite a few impressive models for himself, while always looking forward to the day he would, by surprising circumstance, find the automobile of his dreams. Early chapters reveal the adventure Cummings underwent renovating his first car at age 13. Over the course of his teenage years he would work to acquire three classic Cadillacs: a 1941 Cadillac Series 7523 seven-passenger touring sedan, a 1941 Cadillac Series 61 coupe, and a 1931 Cadillac Series 355A Fleetwood Cabriolet. Later chapters recount the painstaking effort he put into renovating and maintaining those coveted vehicles. The story culminates with Cummings' unexpected acquisition of the car that earned the motto Standard of the World, the 1930 V-16 Imperial Sedan limousine. In all, this memoir bears witness to an elegant sample of the best that the Classic era of automotive history had to offer.

**More Cadillac V-16s Lost and Found** Christopher W. Cummings,2021-01-15 In 1930, Cadillac rolled out a line of new cars of unsurpassed elegance and craftsmanship that would launch the company into the top tier of luxury carmakers. While competitors produced models with eight or twelve-cylinder engines, Cadillac offered the smooth, powerful performance of a V-16. Over the next 11 years, each of the more than 4000 V-16s was as close to hand-made as a commercial auto manufacturer could come. Their drivers included statesmen, celebrities, businessmen and, sometimes, well-heeled ne'er-do-wells. Many of the cars survived wartime scrap drives, obsolescence, lack of replacement parts, neglect and the elements. This follow-up volume to *Cadillac V-16s Lost and Found* (2014) documents the individual stories of 67 more of these magnificent machines.

*The Cadillac Northstar V-8* Anthony Young,2017-02-02 Cadillac has had a long history in the automotive marketplace as General Motors' luxury car division. During the 1980s, Cadillac's management wanted to reestablish the brand as a leader in sophistication, innovation, refinement and prestige. Engineers conceived a new dual-overhead cam, four-valve-per-cylinder V-8 engine--the Northstar. This power plant was the heart of Cadillac's Northstar System, which included a greatly improved suspension and braking system. The division redesigned its entire line to incorporate these new technologies for the 1990s and beyond. The Northstar was the last engine designed and built by Cadillac before the 2005 establishment of GM Powertrain, which took over engine design for all GM divisions. This history of the Northstar V-8 and the cars it powered covers the first generation front-wheel drive Northstar, the second generation rear-wheel drive model, and the supercharged version, along with racing history and the most collectible Northstar-powered Cadillacs.

**Cadillac V-16s Lost and Found** Christopher W. Cummings,2014-01-29 For eleven years prior to World War II, Cadillac defied the norms of practicality and produced an extravagant supercar, a 16-cylinder luxury automobile that could be tailored to the customer's every want. Big, thirsty

and lavish, it cemented Cadillac's place in the top tier of motoring magnificence. Each of the cars has its own colorful and fascinating story to tell. Driven by a life-long love of the V-16 and an interest in the history of his own car, the author has assembled more than 65 of these tales, gleaned from interviews, books, periodicals and documents, into a liberally illustrated book. Each story is shaped by the people a particular car touched, and the events they lived through together. All are an important part of our automotive and cultural history.
