The Cadillac Story Thomas E. Bonsall, 2004 The Cadillac story is more than the story of a car company. It is, in many ways, the story of the American automobile industry itself—which, as much as any industry, drove America's growth in the twentieth century and defined who we are as a people. For generations of Americans, Cadillac epitomized expansive prosperity. This illustrated history of Cadillac presents all the triumphs and failures of the marque's last sixty years; from the good times, through the disastrous 1980s, and up to the current reconstitution of the brand.

The Gold Cadillac Mildred D. Taylor, 1998-02-01 Another powerful story in the Logan Family Saga and companion to Mildred D. Taylor's Newbery Award-winning *Roll of Thunder, Hear My Cry*. A drive South becomes dangerous for 'lois and her family. 'Lois and Wilma are proud of their father's brand-new gold Cadillac, and excited that the family will be driving it all the way from Ohio to Mississippi. But as they travel deeper into the rural South, there are no admiring glances for the shiny new car; only suspicion and anger for the black man behind the wheel. For the first time in their lives, Lois and her sister know what it's like to feel scared because of the color of their skin. A personal, poignant look at a black child's first experience with institutional racism.--

The Cadillac Northstar V-8 Anthony Young, 2017-02-02

Cadillac has had a long history in the automotive marketplace as General Motors' luxury car division. During the 1980s, Cadillac's management wanted to reestablish the brand as a leader in sophistication, innovation, refinement and prestige. Engineers

conceived a new dual-overhead cam, four-valve-per-cylinder V-8 engine--the Northstar. This power plant was the heart of Cadillac's Northstar System, which included a greatly improved suspension and braking system. The division redesigned its entire line to incorporate these new technologies for the 1990s and beyond. The Northstar was the last engine designed and built by Cadillac before the 2005 establishment of GM Powertrain, which took over engine design for all GM divisions. This history of the Northstar V-8 and the cars it powered covers the first generation front-wheel drive Northstar, the second generation rear-wheel drive model, and the supercharged version, along with racing history and the most collectible Northstar-powered Cadillacs.

First Lady of Detroit Karen Elizabeth Bush, 2001 First Lady of Detroit is the spirited tale of an adventurous girl who grew up to commission and equip her own expedition to le Detroit, joining her husband there in the fall of 1701 -- less than a dozen weeks after Fort Pontchartrain was carved out of the Michigan wilderness. Born in 1671, Marie-Therese Guyon was educated in Quebec by Ursuline nuns. Although she was schooled to be a lady, her life was filled with excitement. She married the dashing and ambitious Antoine Laumet de Lamothe Cadillac just a month after they met. They would have thirteen children. Marie Therese took life in stride -- whether it included fire, an escape into the forest, kidnapping by a Spanish privateer, or just the need to purchase supplies for her husband's troops. The author interweaves vivid historical detail with entertaining dialogue and clever storytelling as she re-creates the life of this remarkable woman. To aid her audience, she has added notes explaining how the story was created from available historical facts. First Lady of Detroit is designed to appeal to older children, but readers of all ages are sure to find this a fascinating look at life in Nouvelle France.

Cadillac Desert Marc Reisner, 1993-06-01 "I've been thinking a lot about Cadillac Desert in the past few weeks, as the rain fell and fell and kept falling over California, much of which, despite

the pouring heavens, seems likely to remain in the grip of a severe drought. Reisner anticipated this moment. He worried that the West's success with irrigation could be a mirage — that it took water for granted and didn't appreciate the precariousness of our capacity to control it.” – Farhad Manjoo, The New York Times, January 20, 2023 The definitive work on the West's water crisis. --Newsweek The story of the American West is the story of a relentless quest for a precious resource: water. It is a tale of rivers diverted and dammed, of political corruption and intrigue, of billion-dollar battles over water rights, of ecological and economic disaster. In his landmark book, *Cadillac Desert*, Marc Reisner writes of the earliest settlers, lured by the promise of paradise, and of the ruthless tactics employed by Los Angeles politicians and business interests to ensure the city's growth. He documents the bitter rivalry between two government giants, the Bureau of Reclamation and the U.S. Army Corps of Engineers, in the competition to transform the West. Based on more than a decade of research, *Cadillac Desert* is a stunning expose and a dramatic, intriguing history of the creation of an Eden--an Eden that may only be a mirage. This edition includes a new postscript by Lawrie Mott, a former staff scientist at the Natural Resources Defense Council, that updates Western water issues over the last two decades, including the long-term impact of climate change and how the region can prepare for the future.

The Cadillac That Followed Me Home Christopher W. Cummings, 2006-09-21 The Cadillac V-16 was conceived in secrecy in the middle of the Roaring Twenties, when incomes were rising, prosperity seemed endless and the car business was beginning to break from a traditional emphasis on function over form. But by the time the Cadillac V-16 reached showrooms in

1930, the nation was falling headlong into the Great Depression, and it soon became a rare relic of the boom before the crash. That is why in the mid-1960s, when Christopher Cummings was an adolescent car enthusiast, the oldest Cadillac V-16s were a dream just out of reach. This memoir tells the story of a boy who grew up loving cars, learned everything he could about them, and acquired quite a few impressive models for himself, while always looking forward to the day he would, by surprising circumstance, find the automobile of his dreams. Early chapters reveal the adventure Cummings underwent renovating his first car at age 13. Over the course of his teenage years he would work to acquire three classic Cadillacs: a 1941 Cadillac Series 7523 seven-passenger touring sedan, a 1941 Cadillac Series 61 coupe, and a 1931 Cadillac Series 355A Fleetwood Cabriolet. Later chapters recount the painstaking effort he put into renovating and maintaining those coveted vehicles. The story culminates with Cummings' unexpected acquisition of the car that earned the motto Standard of the World, the 1930 V-16 Imperial Sedan limousine. In all, this memoir bears witness to an elegant sample of the best that the Classic era of automotive history had to offer.

Cadillac V-16s Lost and Found Christopher W.

Cummings, 2014-01-29 For eleven years prior to World War II, Cadillac defied the norms of practicality and produced an extravagant supercar, a 16-cylinder luxury automobile that could be tailored to the customer's every want. Big, thirsty and lavish, it cemented Cadillac's place in the top tier of motoring magnificence. Each of the cars has its own colorful and fascinating story to tell. Driven by a life-long love of the V-16 and an interest in the history of his own car, the author has assembled more than 65 of these tales, gleaned from interviews, books, periodicals and documents, into a liberally illustrated book. Each story is shaped by the people a particular car touched, and the events they lived through together. All are an important part of our automotive and cultural history.

Pink Cadillac Robert Dunn, 2001 Both a love story and a mystery, this book features a runaway girl, a down-at-its-heels roadhouse, a hot-headed sax player, a tormented recordman, a drop-in from Elvis Presley, and a magical car. It is tinged with magic and mojo and goes far behind the music to tell one of the great lost stories of rock 'n' roll.

with Granny in her old Cadillac, as she cruises through traffic like a bull through a dance.

Land of the Lost Souls Cadillac Man, 2009-07-01 For the past 16 years, Cadillac Man (so named because he was once hit by an El Dorado and thereafter bore an imprint of its hood ornament) has lived on the streets of New York City. Over those years, he has recorded the facts of his daily life - the harsh realities of surviving on the street, the often tragic encounters with the non-homeless world, the deep bonds with his fellow homeless, and the surprisingly varied realities of life on the outside - writing hundreds of thousands of words in a series of spiral bound notebooks. *My Life in the Streets* distills those journals into a memoir of homeless life that is peopled with indelible characters and packed with gripping stories. In a gritty, poignant, and funny voice, Cadillac narrates his descent into homelessness, the travails and unexpected freedoms of his life, and the story of his love affair with a young runaway, whom he eventually (and tragically) reunites with her family. The United States has 700,000 homeless people; ultimately, Cadillac's story is their story.

Cadillac Rob Leicester Wagner, 2002 In celebration of Cadillac's 100th anniversary, this handsome volume pays just tribute in words and pictures to the stylish design, refined comfort, and precision engineering for which Cadillac is renowned. Stunning photography illustrates automotive historian Rob Leicester Wagner's thoughtfully written history of the famous marque, known as the Standard of the World. -- Large format book showcases more than 150 exquisite full-color photographs plus rare archival pictures of the classic Model 30 engine stripped to the chassis, ever-evolving hood ornaments, and classic advertisements -- Includes revealing sidebars that profile Cadillac's pioneering visionaries as well as celebrities who owned this classic marque -- An ideal gift for the aficionado, whose automotive book collection would be incomplete without this thorough history of Cadillac's time-honored fleet

Cadillac Robert J Headrick Jr, 2008-05-15 The tail fin era is one of the most recognized in automotive styling, and the influence spread worldwide. As everyone knows, designer Harley Earl took his inspiration from World War II fighter aircraft and the fins grew bolder and larger as competing manufacturers jumped on the bandwagon to produce the most striking vehicle, until they became almost outrageous and turned people off, and then became less prominent again through the 1960s. *Cadillac: The Tail Fin Years*, takes an in-depth look at the years from 1948 to 1964. A chapter is devoted to each model year and provides unique facts and features, historical information, specifications, production numbers, options, prices, and more. And of course, the real heart of the book is the many colorful illustrations drawn from the exciting original sales and marketing materials, original factory photos, and examples of well-preserved originals still around today. Often the models featured are those that we all wish we had! Also featured are the famous jewelry ads through

this special era in automotive history.
