A caixa de Pandora Multilíngue English/ Español/ Português Eliana Sá,2020-09-14 Neste box especial apresentamos A caixa de Pandora em três idiomas, Português, Inglês e Espanhol. Ideal para o treino e aprendizado de línguas. A caixa de Pandora é uma lenda clássica da mitologia grega. Conta a história da menina Pandora que ganha de presente dos deuses uma caixa misteriosa, que ela não deve abrir logo... Instigada pela curiosidade, Pandora abre a caixa de onde saem todos os males do mundo, que atacam a menina sem piedade. Porém, no fundo da caixa, Pandora descobre a Esperança, um pequeno ser, que diz para ela não chorar mais, pois as coisas sempre podem mudar.

In Defense of Honor Sueann Caulfield,2000 Examines debates over sexual honor to explore the ways in which private morality was infused with the cultural politics of nation-building and modernization, and was used to legitimate power differentials based on race, gender, and class.

Vargas and Brazil J. Hentschke,2006-12-11 This volume unites scholars from Brazil, the U.S. and Europe, who draw on a close re-reading of the Vargas literature, hitherto unavailable or unused sources, and a wide array of methodologies, to shed new light on the political changes and cultural representations of Vargas's regimes, realising why he meant different things to different people.

Claiming Brazil Gregg Bocketti,2022-12-20 Brazil marked its centennial as an independent country in 1922. Claiming Brazil explores how Brazilians from different walks of life commemorated the event, and how this led to conflicting ideas of national identity. Civic rituals hold enormous significance, and Brazilian citizens, immigrants, and visitors employed them to articulate and perform their sense of what Brazil was, stood for, and could be. Gregg Bocketti argues that these celebrations, rather than uniting the country, highlighted tensions between modernity and tradition, over race and ethnicity, and between nation and region. Further, the rituals contributed to the collapse of the country's social and political status quo and gave substance to the debates and ideas that characterized Brazilian life in the 1920s and then under the transformative rule of Getúlio Vargas (1930–1945). Now, at the bicentennial of Brazil's independence, which itself unfolds in a period of political crisis and economic dislocation, and in the aftermath of several large civic events, it is an opportune moment to consider how Brazilians used civic rituals to engage with questions of identity, belonging, and citizenship one hundred years ago.

A History of Public Banking in Portugal in the 19th and 20th Centuries Pedro Lains,2021-07-29 This book examines the history of what became one of Portugal's largest banks, the Caixa Geral de Depósitos. The bank was founded in 1876 by the state to run public deposits, and evolved into a savings bank, catering for both public and private deposits. Its history goes beyond the history of banking, as it ties in with the role of the state in the banking sector and financial markets. The book weaves in and out of different political and international contexts, following the many changes of the Portuguese political regime and of its interactions with the national and international economy. The most important lesson from the study is that publicly owned institutions can compete successfully

with the private sector when they simultaneously cater for the interests of policy makers as well as those of the public, in this case, the depositors. The history of the Caixa Geral de Depósitos therefore shows how the state of a peripheral economy is capable of successfully managing a large financial institution when the right set of incentives is in place. This work will be a valuable resource for researchers and students of financial and economic history at both the advanced undergraduate and postgraduate levels. It will also provide interesting insights for practitioners in the financial sector.

Participatory Planning for Climate Compatible Development in Maputo, Mozambique

Vanesa Castán Broto, Jonathan Ensor, Emily Boyd, Charlotte Allen, Carlos Seventine, Domingos Macucule, 2015-11-01 Participatory Planning for Climate Compatible Development in Maputo, Mozambique is a practitioners' handbook that builds upon the experience of a pilot project that was awarded the United Nations 'Lighthouse Activity' Award. Building upon a long scholarly tradition of participatory planning, this dual-language (English/Portuguese) book addresses crucial questions about the relevance of citizen participation in planning for climate compatible development and argues that citizens have knowledge and access to resources that enable them to develop a sustainable vision for their community. In order to do so, the author proposes a Participatory Action Planning methodology to organise communities, and also advances mechanisms for institutional development through partnerships.
