MIGUEL BLESÁ, EL LOBO DE CAJA MADRID JAVIER
CASTRO-VILLACANAS Y LUIS SUÁREZ,2014-09-30

The Strange American Way Caja Munch,1970 A young bride, Caja Munch accompanied her husband, Johan Storm Munch, from Norway to Wisconsin where he had received his first call to become pastor of several newly organized Norwegian Lutheran congregations. Her letters to her parents, written during a four-year period, 1855-59, and Pastor Munch's *An American Adventure*, an excerpt from his *Vita Mea*, written fifty years after the visit to America, provide, with an uncanny timelessness and a distinct and charming literary style, perspectives on the immigrant in rural America which will be of considerable interest to general readers as well as historians and sociologists.

Abandoning Their Beloved Land Alberto Garcia,2023 *Abandoning Their Beloved Land* offers an essential new history of the Bracero Program, a bilateral initiative that allowed Mexican men to work in the United States as seasonal contract farmworkers from 1942 to 1964. Using national and local archives in Mexico, historian Alberto García uncovers previously unexamined political factors that shaped the direction of the program, including how officials administered the bracero selection process and what motivated campesinos from central states to migrate. Notably, García's book reveals how and why the Mexican government's delegation of Bracero Program-related responsibilities, the powerful influence of conservative Catholic opposition groups in central Mexico, and the failures of the revolution's agrarian reform all profoundly influenced the program's administration and individuals' decisions to migrate as braceros.

Creating Charismatic Bonds in Argentina Donna J. Guy,2016-06-01

In collecting hundreds of letters to Juan and Eva by everyday people as well as from correspondence solicited by Juan Perón, this book promotes a view that charismatic bonds in Argentina have been formed as much by Argentines as by their leaders, demonstrating how letter writing at that time instilled a sense of nationalism and unity, particularly during the first Five Year Plan campaign conducted in 1946. It goes beyond the question of how charisma influenced elections and class affiliation to address broader implications. The letters offer a new methodology to study the formation of charisma in literate countries where not just propaganda and public media but also private correspondence defined and helped shape political policies. Focusing on the first era of Peronism, from 1946 to 1955, this work shows how President Perón and the First Lady created charismatic ways to link themselves to Argentine supporters through letter writing.

Forsaken Harvest Luis G. Cueva,2013-12 This historical

monograph examines the decline of the hacienda estates within Jalisco, Mexico during the early decades of the 20th century. The

book also explores the impact of the land reform program of President Lazaro Cardenas in transforming the agrarian economic structure of the region. This study contributes to an ongoing lively debate about the hacienda system and the meaning of the Cardenas reforms. This is an important work because it explores the evolution of a regional socio-economic system that promoted urban industrial growth at the expense of the rural poor. The model of regional development described is applicable to other areas of Mexico and underdeveloped Third World nations with extensive peasant populations. The research for this investigation has wider implications regarding issues of global hunger and malnutrition.

Matters of Justice Helga Baitenmann, 2020-05 After the fall of the Porfirio Díaz regime, pueblo representatives sent hundreds of petitions to Pres. Francisco I. Madero, demanding that the executive branch of government assume the judiciary's control over their unresolved lawsuits against landowners, local bosses, and other villages. The Madero administration tried to use existing laws to settle land conflicts but always stopped short of invading judicial authority. In contrast, the two main agrarian reform programs undertaken in revolutionary Mexico—those implemented by Emiliano Zapata and Venustiano Carranza—subordinated the judiciary to the executive branch and thereby reshaped the postrevolutionary state with the support of villagers, who actively sided with one branch of government over another. In *Matters of Justice* Helga Baitenmann offers the first detailed account of the Zapatista and Carrancista agrarian reform programs as they were implemented in practice at the local level and then reconfigured in response to unanticipated inter- and intravillage conflicts. Ultimately, the Zapatista land reform, which sought to redistribute land throughout the country, remained an unfulfilled

utopia. In contrast, Carrancista laws, intended to resolve quickly an urgent problem in a time of war, had lasting effects on the legal rights of millions of land beneficiaries and accidentally became the pillar of a program that redistributed about half the national territory.

Making Democratic Citizens in Spain P. Radcliff, 2011-03-23 A fascinating study of the contribution of ordinary men and women to Spain's democratic transition of the 1970s. Radcliff argues that participants in neighbourhood and other associations experimented with new practices of civic participation that put pressure on the authoritarian state and made the building blocks of a future democratic citizenship

Virtuous Waters Casey Walsh, 2018-04-20 *Virtuous Waters* is the first study of mineral waters and bathing in Mexico. It traces the evolving ideas about these waters, from European contact to the present, in order to shed new light on human-environment relations in the modern world. Our relation to water is among the most urgent of global issues, as increasing scarcity and pollution threaten food shortages, deteriorating public health, and the collapse of aquatic ecosystems. Drawing on ideas from political ecology, the author brings together an analysis of the shifts in the concept of water and a material history of environments, infrastructures, and bathing. The book analyzes a range of issues concerning complex water cultures that have formed around Mexican groundwaters over time and suggests that this understanding might also help us comprehend and confront the water crisis that is coming to a head in the twenty-first century-- Provided by publisher.

Music in Latin America and the Caribbean: An Encyclopedic History REANNOUNCE/F05: Volume 2: Performing the Caribbean

Experience Kuss, Malena, The music of the peoples of South and Central America, Mexico, and the Caribbean is treated with unprecedented breadth in this multi-volume work. Taking a sociocultural and human-centered approach, *Music in Latin America and the Caribbean* gathers the best scholarship from writers all over the world to cover in depth the musical legacies of indigenous peoples, creoles, African descendants, Iberian colonizers, and other immigrant groups that met and mixed in the New World. From these texts, music emerges as the powerful tool that negotiates identities, enacts resistance, performs beliefs, and challenges received aesthetics. More than two decades in the making, this work privileges the perspectives of cultural insiders and emphasizes the role that music plays in human life. Volume 2, *Performing the Caribbean Experience*, focuses on the reconfiguration of this complex soundscape after the Conquest and on the strategies by which groups from distant worlds reconstructed traditions, assigning new meanings to fragments of memory and welding a fascinating variety of unique Creole cultures. Shaped by an enduring African presence and the experience of slavery and colonization by the Spanish, French, British, and Dutch, peoples of the Caribbean islands and circum-Caribbean territories resorted to the power of music to mirror their history, assert identity, gain freedom, and transcend their experience in lasting musical messages. Essays on pan-Caribbean themes, surveys of traditions, and riveting personal accounts capture the essence of pluralistic and spiritualized brands of creativity through the voices of an unprecedented number of Caribbean authors, including a representative contingent of distinguished Cuban scholars whose work is being published in English translation for the first time in this book. Two CDs with 52 recorded examples illustrate the contributions

to this volume.

Death Is All around Us Jonathan M. Weber, 2019-04-01 Late nineteenth-century Mexico was a country rife with health problems. In 1876, one out of every nineteen people died prematurely in Mexico City, a staggeringly high rate when compared to other major Western world capitals at the time, which saw more modest premature death rates of one out of fifty-two (London), one out of forty-four (Paris), and one out of thirty-five (Madrid). It is not an exaggeration to maintain that each day dozens of bodies could be found scattered throughout the streets of Mexico City, making the capital city one of the most unsanitary places in the Western Hemisphere. In light of such startling scenes, in *Death Is All around Us* Jonathan M. Weber examines how Mexican state officials, including President Porfirio Díaz, tried to resolve the public health dilemmas facing the city. By reducing the high mortality rate, state officials believed that Mexico City would be seen as a more modern and viable capital in North America. To this end the government used new forms of technology and scientific knowledge to deal with the thousands of unidentified and unburied corpses found in hospital morgues and cemeteries and on the streets. Tackling the central question of how the government used the latest technological and scientific advancements to persuade citizens and foreigners alike that the capital city—and thus Mexico as a whole—was capable of resolving the hygienic issues plaguing the city, Weber explores how the state's attempts to exert control over procedures of death and burial became a powerful weapon for controlling the behavior of its citizens.

Sandinista Matilde Zimmermann, 2001-01-12 “A must-read for anyone interested in Nicaragua—or in the overall issue of social change.”—Margaret Randall, author of *SANDINO'S DAUGHTERS* and *SANDINO'S DAUGHTERS REVISITED* Sandinista is the first English-language biography of Carlos Fonseca Amador, the legendary leader of the Sandinista National Liberation Front of Nicaragua (the FSLN) and the most important and influential figure of the post-1959 revolutionary generation in Latin America. Fonseca, killed in battle in 1976, was the undisputed intellectual and strategic leader of the FSLN. In a groundbreaking and fast-paced narrative that draws on a rich archive of previously unpublished Fonseca writings, Matilde Zimmermann sheds new light on central themes in his ideology as well as on internal disputes, ideological shifts, and personalities of the FSLN. The first researcher ever to be allowed access to Fonseca's unpublished writings (collected by the Institute for the Study of Sandinism in the early 1980s and now in the hands of the Nicaraguan Army), Zimmermann also obtained personal interviews with Fonseca's friends, family members, fellow combatants, and political enemies. Unlike previous scholars, Zimmermann sees the Cuban revolution as the crucial turning point in Fonseca's political evolution. Furthermore, while others have argued that he rejected Marxism in favor of a more pragmatic nationalism, Zimmermann shows how Fonseca's political writings remained committed to both socialist revolution and national liberation from U.S. imperialism and followed the ideas of both Che Guevara and the earlier Nicaraguan leader Augusto César Sandino. She further argues that his philosophy embracing the experiences of the nation's workers and peasants was central to the FSLN's initial platform and charismatic appeal.

The Mysterious Sofía Stephen J. C. Andes, 2019-12 Who was the

“Mysterious Sofia,” whose letter in November 1934 was sent from Washington DC to Mexico City and intercepted by the Mexican Secret Service? In *The Mysterious Sofia* Stephen J. C. Andes uses the remarkable story of Sofia del Valle to tell the history of Catholicism’s global shift from north to south and the importance of women to Catholic survival and change over the course of the twentieth century. As a devout Catholic single woman, neither nun nor mother, del Valle resisted religious persecution in an era of Mexican revolutionary upheaval, became a labor activist in a time of class conflict, founded an educational movement, toured the United States as a public lecturer, and raised money for Catholic ministries—all in an age dominated by economic depression, gender prejudice, and racial discrimination. The rise of the Global South marked a new power dynamic within the Church as Latin America moved from the margins of activism to the vanguard. Del Valle’s life and the stories of those she met along the way illustrate the shared pious practices, gender norms, and organizational networks that linked activists across national borders. Told through the eyes of a little-known laywoman from Mexico, Andes shows how women journeyed from the pews into the heart of the modern world.

The Blood Contingent Stephen B. Neufeld, 2017-04-15 This innovative social and cultural history explores the daily lives of the lowest echelons in president Porfirio Díaz’s army through the decades leading up to the 1910 Revolution. The author shows how life in the barracks—not just combat and drill but also leisure, vice, and intimacy—reveals the basic power relations that made Mexico into a modern society. The Porfirian regime sought to control and direct violence, to impose scientific hygiene and patriotic zeal, and to build an army to rival that of the European powers. The barracks

community enacted these objectives in times of war or peace, but never perfectly, and never as expected. The fault lines within the process of creating the ideal army echoed the challenges of constructing an ideal society. This insightful history of life, love, and war in turn-of-the-century Mexico sheds useful light on the troubled state of the Mexican military more than a century later.
