The Camera Phone Book Aimee Baldrige, 2007-06-12 Marketing experts predict that by 2009, nearly 90% of all cell phones will contain a camera, as manufacturers race to create cheaper, easier-to-use models with more sophisticated cameras, more pixels, flash units and even multiple lenses. Already revolutionizing audiovisual communication, it's a trend that will only grow more explosively—and who better than National Geographic to create a how-to book aimed directly at the millions who carry a camera phone everywhere and want to make the most of it? Created by two top professionals, this generously illustrated nuts-and-bolts guide is the first of its kind to treat these units as genuine cameras instead of novelties, and the only one to include a full-color photo-essay demonstrating the full capabilities of the latest camera phones. In five easy-to-read chapters, the book explains how to choose good equipment; take better pictures; and store, print and send the best images. Readers will find practical tips on preventing or repairing water damage, protecting easily-scratched lenses inside pockets and purses, and retrieving accidentally-erased images. They'll also learn to access the events, advice, and opportunities of the burgeoning camera phone community, from film festivals to news organizations, moblogs, and more. Featuring the technical savvy of CNet.com's Aimee Baldrige and the creative skill of National Geographic photographer Robert Clark, a camera phone pioneer, this compact yet comprehensive reference combines up-to-the-minute expertise with superb examples, at an inexpensive price that makes it a perfect gift book—or an ideal impulse buy.

Photography for Everyone Kerry Ross, 2015-06-24 The Japanese passion for photography is almost a cliché, but how did it begin? Although Japanese art photography has been widely studied this book is the first to demonstrate how photography became an everyday activity. Japan's enthusiasm for photography emerged alongside a retail and consumer revolution that marketed products and activities that fit into a modern, tasteful, middle-class lifestyle. Kerry Ross examines the magazines and merchandise promoted to ordinary Japanese people in the early twentieth century that allowed Japanese consumers to participate in that lifestyle, and gave them a powerful tool to define its contours. Each chapter discusses a different facet of this phenomenon, from the revolution in retail camera shops, to the blizzard of socially constructive how-to manuals, and to the

vocabulary of popular aesthetics that developed from enthusiasts sharing photos. Ross looks at the quotidian activities that went into the entire picture-making process, activities not typically understood as photographic in nature, such as shopping for a camera, reading photography magazines, and even preserving one's pictures in albums. These very activities, promoted and sponsored by the industry, embedded the camera in everyday life as both a consumer object and a technology for understanding modernity, making it the irresistible enterprise that Eastman encountered in his first visit to Japan in 1920 when he remarked that the Japanese people were almost as addicted to the Kodak habit as ourselves.

#ICP Concerned David Campany,2021-10 On March 13, 2020 when the global coronavirus pandemic brought life as we know it to an abrupt halt, the International Center of Photography, just weeks after opening in a brand-new building on Manhattan's Lower East Side that was buzzing with visitors, was forced to close its doors. Wanting to do more than virtual exhibition tours, ICP announced the #ICPConcerned open call on March 20th, an invitation for people to make, upload, and tag images on Instagram of whatever was going on in their lives wherever they were. What

resulted was more than sixty thousand submissions from countries as far flung as France, Singapore, Argentina, Nigeria, Canada, and Iran. From the halls of medical facilities to eerily empty streets and domestic settings converted into home offices and classrooms, the more than 800 photographs collected here are organized chronologically and accompanied by headlines gathered from various global news entities. Taken together, these words and pictures represent the pain, heartbreak, hope, and occasional humor we've all experienced this past year against the backdrop of COVID-19, unrelenting racial injustice, and a divisive political climate. Exhibition: ICP International Center for Photography, New York, USA (01.10.2020 - 03.01.2021).
