Creative Nature Photography ,2011-05-15 An indispensable guide to nature and outdoor photography, from the acclaimed author of Creative Bird Photography. This beautifully illustrated, inspirational guide to nature photography is packed with practical advice presented in author Bill Coster's informative but accessible writing style. It takes a fresh approach to the subject, breaking it up into chapters on habitats, each of which contains images of specific aspects of the environment, starting with landscapes and moving on to plants and animals. Each photograph demonstrates particular points and approaches, taking into account light conditions, terrain and the general surroundings. Fascinating anecdotes about Coster's experiences in each habitat bring the images to life. Each photograph is accompanied by detailed technical data, as well as information on locations and other issues that need to be tackled in order to achieve the perfect shot. There is also an up-to-date chapter on bird photography basics, including equipment such as cameras and lenses.

Black Tide KC Jones,2022-05-31 A character-driven science fiction/horror blend, KC Jones' Black Tide is Stephen King's The Mist meets A Quiet Place. A BRAM STOKER AWARD FINALIST! It was just another day at the beach. Then the world ended. Mike and Beth were strangers before the night of the meteor shower. Chance made them neighbors, a bottle of champagne brought them together, and a shared need for human connection sparked something more. Following their drunken and desperate one-night stand, the two discover the astronomical event has left widespread destruction in its wake. But the cosmic lightshow was only part of something much bigger, and far more terrifying. When a lost car key leaves them stranded on an empty stretch of Oregon coast and inhuman screams echo from the dunes, when the rising tide reaches for their car and unspeakable horrors close in around them, these two self-destructive souls must fight to survive a nightmare of apocalyptic scale. This is gasp-for-your-breath, peek-through-your-fingers horror, and I loved every page of it. —Jonathan Janz, author of The Siren and the Specter At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Storm Chaser** Mike Olbinski,2017-02-19 “Olbinski chases storms . . . capturing lightning, tornadoes and dramatic cloud formations in images that convey the awesome power and beauty of nature.” —International Business Times The storms that cross the Great Plains of North America each spring are some of nature’s most spectacular. They can also be some of the most dangerous. Most people who live in areas susceptible to these storms keep a close eye on the weather reports and take cover or evacuate when one is on the way. Storm chasers keep an even closer eye on the weather data, but for a different reason: they don’t run away when they see a storm approaching, they follow it! Professional photographer and Emmy Award winner, Mike Olbinski has chased storms throughout his native Arizona, as well as even further afield, including Texas, Oklahoma, Kansas, and Colorado. Whether he’s photographing lightning, tornadoes or even cloud formations, his remarkable images are able to convey nature in its most dramatic and impressive forms. With over 100 stunning colour photographs, this book brings together some of Mike’s most breathtaking images from the past five years as he describes his love of the open road and the thrill of capturing the perfect storm on film. “These pictures are truly fascinating; they show just how small we are and how little control we have over the environment and that these storms can pack a wallop. For fans of weather and spectacular photos, this is the book for you.” —San Francisco Book Review (5-star review) “A striking series of breath-taking pictures of nature lashing out from apocalyptic skies.” —Daily Mail Online

*The Progress of This Storm* Andreas Malm,2020-02-04 An attack on the idea that nature and society are impossible to distinguish from each other In a world careening towards climate chaos, nature is dead. It can no longer be separated from society. Everything is a blur of hybrids, where humans possess no exceptional agency to set them apart from dead matter. But is it really so? In this blistering polemic and theoretical manifesto, Andreas Malm develops a counterargument: in a warming world, nature comes roaring back, and it is more important than ever to distinguish between the natural and the social. Only with a unique agency attributed to humans can resistance become conceivable.

*Other Moons* ,2020-08-04 In this anthology, Vietnamese writers describe their experience of what they call the American War and its lasting legacy through the lens of their own vital artistic visions. A North Vietnamese soldier forms a bond with an abandoned puppy. Cousins find their lives upended by the revelation that their fathers fought on opposite sides of the war. Two lonely veterans in Hanoi meet years after the war has ended through a newspaper dating service. A psychic assists the search for the body of a long-vanished soldier. The father of a girl suffering from dioxin poisoning struggles with corrupt local officials. The twenty short stories collected in *Other Moons* range from the intensely personal to narratives that deal with larger questions of remembrance, trauma, and healing. By a diverse set of authors, including many veterans, they span styles from social realism to tales of the fantastic. Yet whether describing the effects of Agent Orange exposure or telling ghost stories, all speak to the unresolved legacy of a conflict that still haunts Vietnam. Among the most widely anthologized and popular pieces of short fiction about the war in Vietnam, these works appear here for the first time in English. *Other Moons* offers Anglophone audiences an unparalleled opportunity to experience how the Vietnamese think and write about the conflict that consumed their country from 1954 to 1975—a perspective still largely missing from American narratives.
