Life Story Work with People with Dementia Polly Kaiser,Ruth Eley,2016-09-21 Introducing life story work, a way for people with dementia to connect with their relatives, carers and the professionals working with them. This evidence-based book explains the many benefits of life story work, with practical guidance for introducing it in a variety of settings. The authors show how life story work can empower people with dementia to inform care practitioners and family members what care and support they may need now and in the future, by taking into account their past and their future wishes and aspirations. The book includes practical information on how to get started, ethical considerations such as consent and confidentiality, and considers issues of diversity and how to address them. The voices of practitioners, researchers and family carers sit alongside those of people living with dementia to present a wide-range of perspectives on life story work.

Reminiscence and Life Story Work Faith Gibson,2011-08-15 Reminiscence is a valuable tool for the professional carer as well as those who are looking after a family member or friend. It enhances and enriches the care relationship, and benefits both the person being cared for and the carer. This fully-updated fourth edition is full of practical information on planning and running successful reminiscence work. It will enable carers and health and social care practitioners to develop the attitude, knowledge, understanding, values and skills they need to use reminiscence with people of all ages, either individually or in groups, and in residential or community settings. Topics covered include reminiscence with individuals and couples, inter-generational reminiscence, reminiscence with individuals from minority ethnic groups and reminiscence with people with sensory and learning disabilities, dementia, depression and terminal illness. This book is the ideal starting point for any professional taking up reminiscence work, as well as for those who wish to deepen their knowledge and increase their ability to help those they care for in less formal ways.

A True Story... How I Survived My Life with a Psychopath Jacquelyn White,2014-09-11 This is an Autobiography written by an average person, living an extraordinary life. Jacquelyn tells this story in a very unique and compelling style of writing which leaves the reader unable to put the book down as they wonder, Then what happens? It is an amazing tale of survival as Jacquelyn moves heaven and earth in an unbelievable battle for her freedom. To actually become, free she almost loses her life and must sacrifice all she has. This is a story of a mother's unconditional love for her children. The children she is willing to die to protect, as she overcomes the chains that bind her. It is a tale of hope and leaves the reader with a deep appreciation for their own journey and a new found inspiration for living. The story is made all the more powerful by the legal evidence she has provided in the book to support her claims. This evidence has been fully admitted to in court and is now a matter of public record. The recorded evidence is chilling as it gives a rare insight into the mind of a monster, as it is written in his very own hand writing on his business letter head. Jacquelyn also offers a detailed insight into the systems that she and many others have had to navigate through. This book may help to change some of the laws surrounding these issues. Powerfully moving, deeply engaging and written with raw honesty, this book is well worth the read. This book will be marketed to the millions of people screaming for change, awareness and insight to bring safety and justice to our world. Keywords: Psychopath, Sociopath, Australia, Freedom, Abuse, Legal, Psychology, Forensic, Mental Illness

Culture Change in Long-term Care Audrey S. Weiner,Judah L. Ronch,2003 This book, selected for inclusion in Doody's Core Titles in the Health Sciences, 2005 edition (DCT), will inform you about the theoretical and practical applications of culture change within the institutional long-term care setting. It examines existing models of positive cultures, emphasizing philosophy, underpinning, and implementation. You'll gain a greater understanding of theoretical frameworks for organizational change, of the changes that can occur in all members of the long-term care community, and of culture change in the context of broad organizational experience and cultural competence.

Children and the Power of Stories Carmen Blyth,Teresa K. Aslanian,2022-03-04 This book explores how stretching stories through posthuman and autoethnographic perspectives can produce new stories that decolon(ial)ize traditional thinking and approaches to Early Childhood Education (ECE). It demonstrates how stories can provide a different way of knowing, and a way of knowing differently: a way of decolon(ial)izing current discourses of early childhood education within educational institutions. The book uses research and practice in ECE to act as a canvas, a context with which to explore how autoethnography can become other when viewed through a posthumanist lens. As a consequence the chapters and stories within allow for an interplay between the posthumanist and the autoethnographic, an interplay that allows for a very specific type of meaning to emerge; a meaning that traffics in numerous and disruptive possibilities rather than settled certainties. In so doing, authors rethink and perturb the notion of child-centered approaches to knowing, be(com)ing, and doing within the Early Childhood Education context.

Midwifery Preparation for Practice Sally Pairman,Sally K. Tracy,Hannah Dahlen,Lesley Dixon,2022-10-15 Now in its 5th edition Midwifery Preparation for Practice continues to present a global model of midwifery best practice that is supported by a range of examples from the Australian, New Zealand and international midwifery contexts. Endorsed by the Australian College of Midwives and the New Zealand College of Midwives the text continues to reinforce the established principles of midwifery philosophy and practice – that of midwives working in partnership with women, in woman-centred models or midwife-led care. This focus is what sets this text apart from other physiology-based midwifery texts, making it a highly valued resource for students and practicing midwives alike. The highly esteemed team of editors once again lead a group of internationally recognised leaders in midwifery to share their knowledge and expertise in midwifery practice, education, research and regulation across Australia, New Zealand and internationally. Working for Change Brian Harvey,2008

Improving Maternity Services Denis Walsh,Sheila Kitzinger,Norman Ellis,2017-11-22 This title includes Foreword by Sheila Kitzinger, Writer, Researcher, Activist and Honorary Professor, Wolfson School of Health Sciences, Thames Valley University. Birth centres are suitable for every woman whose birth is straightforward, which accounts for around 75 per cent of all women. This inspirational guide shows how small scale maternity provision has a profound clinical and organisational advantage over large scale hospital provision, including saving of time and money by reducing intervention rates. It presents the thoughts and feelings of midwives and patients and how both enjoy the humane and compassionate care of the birth centre ethos. The book is invaluable for midwives, obstetricians, doulas, maternity care assistants and maternity service planners and managers. It also provides enlightening information for general practitioners and other health and social care professionals, maternity service users groups and academics with an interest in midwifery and health services. What birth centres do best is simply providing humane childbirth care. There are no high tech gadgetry, doctors or dramatic stories of childbirth rescues that make it into the media. Yet 'miracles' happen inside their walls every day as women have their babies after normal labours and births. Until now, there have been very few books detailing what happens in birth centres so that women and childbirth professionals can be introduced to an alternative beyond the large hospital model. This book provides a window in on the birth centre model and there are some exciting things to find there about childbirth care in the

21st century. - Denis Walsh, in the Preface. Denis Walsh has one of the most incisive, analytical and brilliant minds in nursing and midwifery research today. He demonstrates the difference between a quality environment for birth where a woman can create her own 'nest', and a technocratic, bureaucratically controlled, highly medicalised and risk-oriented birth culture dominated by the clock, which is most women's experience today. - Sheila Kitzinger, in the Foreword.

Story Writing in a Nursing Home Martha A. John, Martha Tyler John, 1996-05-07 Based on the belief that older people have good stories to tell, Story Writing in a Nursing Home was developed as part of a volunteer teaching service to a nursing home. Graduate students who were learning to teach this special population conducted story writing activities with older adults and found that even the frail elderly who are confined to nursing centers provided a unique perspective about events that emphasize the lasting verities in life. The idea of a patchwork was derived from one of the lessons taught and was suggested by one of the older participants who said, We're sort of like a patchwork quilt. The information, memories, and humor the elderly see in situations is worth recording. In addition, Story Writing in a Nursing Home emphasizes the way to develop the mental stimulation that is so important for physical well being. This sensitive and insightful book provides a lesson plan outline and the type of content that was used as an example. It also provides a running commentary in the form of a diary that tells how to begin a teaching program for nursing center residents. Students and professionals interested in implementing a similar program can use these ideas for planning and for organizing the use of student help to better serve the population. Fascinating reading, this book includes stories by frail elderly people, lesson plans, tips on working with administrators in a nursing center, and reasons for providing instruction. Teachers, volunteers, librarians, gerontology/sociology students, and others concerned with the well-being of the elderly will refer often to this instructive volume.

Hodson and Geddes' Cystic Fibrosis Andrew Bush, Margarida D. Amaral, Jane C. Davies, Nicholas J. Simmonds, Jennifer L. Taylor-Cousar, Sarath C. Ranganathan, 2023-11-20 Cystic Fibrosis has seen dramatic advances in treatment since the last edition, including targeted cystic fibrosis transmembrane conductance regulator (CFTR) protein modulators for most CFTR gene abnormalities. This new fifth edition is an update and expansion of the rapid clinical and scientific advances in improving prognosis, and the impact of COVID-19, all of which has transformed conventional models of care. It covers basic science, such as how detailed understanding of the biology of the CFTR gene and protein has led to novel and beneficial therapies, as well as all aspects of clinical management in high-, middle- and low-income settings and the voices of individuals with CF from across the world. It will be a useful reference for clinicians, including all levels of trainees, across the whole multidisciplinary team, scientists and students. Key Features • Follows an appealing organization of chapters, by developing fundamental knowledge of the reader before moving on to more complex or developing topics. • Presents a comprehensive, authoritative and up-to-date text, integrating fundamental science and clinical aspects of cystic fibrosis providing an attractive read for clinicians, trainee doctors and scientists. • Draws on global expertise and reflects best evidence-based practice from experts conducting cutting-edge clinical and basic science research from around the world.

Tensions and Barriers in Improving Maternity Care Ruth Deery, Deborah Hughes, Mavis Kirkham, 2018-12-13 We have written this book because the story it tells warrants a wide audience. We see the purpose of this book as informing discussion and decision-making around reconfigurations of maternity care, so that planning, communication, management and recruitment can be improved and shared vision articulated and understood. A Throughout the world, women-centred care is gaining prominence in providing maternity care. Many birth centres open each year to meet this need - but at the same time, many close or are shelved. So why should the turnover in organisations that deliver such a vital service to women be so high, thwarting many midwives from practising as they would wish? This carefully researched and passionate book tells the story of a birth centre that did fail, and the painful but valuable lessons it presents for others. Many of the issues and behaviours illustrated - lack of leadership, support, vision and plain-dealing, and tensions between bureaucracy and women-centred care - will find resonance in maternity services and midwifery experiences in the UK and throughout the world. Tensions and Barriers in Improving Maternity Care is a vital and challenging resource for all midwives, managers and policy makers and shapers with an interest in maternity and women-centred care. A remarkably detailed analysis of the politics of a birth centre trapped in a medicalised system that threatened and rapidly destroyed it. It is a vivid example of how autonomous midwifery is undermined by an organisational structure in which management focuses exclusively on one model of care. - From the Foreword by Sheila Kitzinger 'I would recommend this powerful book to all supervisors of midwives as it provides profound insights into the impact of loss and grief upon the midwives who are often left feeling isolated and vulnerable when dealing with difficult circumstances.' - Nessa McHugh, lecturer in midwifery at Edinburgh Napier University, and leader of the Preparation and Practice of Supervisors of Midwives programme.

The Challenge of Children's Rights for Canada, 2nd edition Katherine Covell, R. Brian Howe, J.C. Blokhuis, 2018-08-30 More than a quarter of a century has passed since Canada promised to recognize and respect the rights of children under the United Nations Convention on the Rights of the Child. Ratification of the Convention cannot, however, guarantee that everyone will abandon proprietary notions about children, or that all children will be free to enjoy the substance of their rights in every social and institutional context in which they find themselves, including—and perhaps especially—within families. This disconnect remains one of the most important challenges to the recognition of children's rights in Canada. The authors argue that social toxins are as harmful to children's independent welfare and developmental interests as environmental toxins, and that both must be eradicated if Canada is to fulfill its commitments under the Convention. They also argue that if Canada wishes to ensure the substance of the rights outlined in the Convention are socially guaranteed, an attitudinal or cultural shift is required concerning the moral and legal status of children. This revised, expanded, and updated edition of the bestselling Challenge of Children's Rights for Canada will be of interest to academics, policymakers, parents, teachers, social workers, and human service professionals—indeed to anyone who cares about and for children.

Joints and Connective Tissues Kerry Phelps, Craig Hassel, 2012-10-30 Joints and Connective Tissues - General Practice: The Integrative Approach Series. In order to diagnose and manage the patient presenting with musculoskeletal symptoms, it is important to distinguish whether the pathology is arising primarily in the so-called hard tissues (such as bone) or the soft tissues (such as cartilage, disc, synovium, capsule, muscle, tendon, tendon sheath). It is also important to distinguish between the two most common causes of musculoskeletal symptoms, namely inflammatory and degenerative.

Midwifery - E-Book Jan Pincombe, Carol Thorogood, Sally K. Tracy, Sally Pairman, 2015-02-11 Perfect for: • Bachelor of Midwifery students • Postgraduate Midwifery students • Combined Nursing degree students • Combined Nursing degree students Midwifery: Preparation for Practice 3e is the definitive midwifery text for Australian and New Zealand midwifery students. The third edition continues to reinforce the established principles of midwifery philosophy and practice—that of working in partnership with women and midwifery autonomy in practice and from this perspective, presents the midwife as a primary healthcare practitioner. It

carefully examines the very different maternity care systems in Australia and New Zealand, exploring both autonomous and collaborative practice and importantly documents the recent reforms in Australian midwifery practice. Midwifery: Preparation for Practice 3e places women and their babies safely at the centre of midwifery practice and will guide, inform and inspire midwifery students, recent graduates and experienced midwives alike. • Key contributors from Australia and New Zealand • Critical Thinking Exercises and Research Activities • Midwifery Practice Scenarios • Reflective Thinking Exercises and Case Studies • Instructor and Student resources on Evolve, including Test Bank questions, answers to Review Questions and PowerPoint presentations. • New chapter on Models of Health • Increased content on cultural considerations, human rights, sustainability, mental health, obesity in pregnancy, communication in complex situations, intervention, complications in pregnancy and birth and assisted reproduction • Midwifery Practice Scenarios throughout.

Mitchell's Story Jeff Parkin, Lynda Colleen Thompson, 2003 Mitchell's Story.... Living with Cerebral Palsy is about a mother who has a touching and somewhat sad tale to tell about her only son who contracted the frustrating disease called cerebral palsy. The remarkable thing about this book is the courage displayed by Lynda and Grant Thompson as they began a daily struggle to give their son as normal of a life as they possibly could. Lynda feels that this book can be of great assistance to those who are just now finding out that their son or daughter has this awful disease. She speaks of obstacles she has encountered which can prepare the new parents of CP kids for the challenges that lie ahead. Part of the book deals with the help she received as she was dealing with her son on a day to day basis. Inside the book is information that new parents might find valuable in dealing with and helping their child. We hope that everyone who reads her story will find that it helped him or her in some way.
