The Making of Modern Colombia David Bushnell,1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

Action Comics (1938-2011) #7 Jerry Siegel,2016-12-22 Superman puts on a show to save the Jordan Circus. This is a Superman-only issue.

Rorschach (2020-) #7 Tom King,2021-04-13 Wil Myerson might have been the creator of Pontius Pirate, the most popular comic in history, before he put on the Rorschach mask and tried to kill a would-be president, but he's not the only artist who worked on the character. Other artists fell under Wil's influence, and now all these years later, his more renowned acolyte has fallen sway to Laura, the #1 Myerson superfan. Is it possible she influenced another comic book legend into playing vigilante? The key here is that tape the detective is trying to decipher, the one with the séance that has been haunting him since the very first issue! All this and a cameo by Dr. Manhattan to boot!

The Buckland Romani Tarot Raymond Buckland,2001-01-01 Finally there is a Tarot that embodies the spirit of the Gypsies. The Buckland Romani Tarot is a beautiful new deck that follows the traditional form of the tarot, but incorporates Gypsy forms and symbol. Drawing on his experiences with his Romani (English Gypsy) family, Raymond Buckland has teamed with artist Lissanne Lake to produce a beautiful deck that embodies the rich traditions and deep, earthy wisdom of these passionate people. Anyone who is familiar with the cards will enjoy this refreshing new approach, and anyone new to the tarot will enjoy the ease of use and down-to-earth nature of this attractive deck. The accompanying book presents a full set of fresh, insightful interpretations written specifically to match this deck, along with traditional meanings. It also includes a Romani-English word list, historical background on the Gypsies, guidance on caring for and using the cards, and a selection of spreads. Many books on the tarot are so obscure and complex that they end up discouraging everyone but the advanced practitioner. In contrast, this book is written in simple language, that makes reading and studying the tarot a joy. In addition, it relays fascinating historical facts about the Gypsies. Although the exact origins of the tarot are shrouded in the mists of antiquity, we know one thing for certain—it is the Gypsies who are most directly responsible for keeping this ancient fount of wisdom from fading into obscurity. Now Raymond Buckland finally gives them the credit they are due. Discover how, in their wanderings, they have preserved the arcane wisdom of many lands and civilizations. Let the Romani Tarot help you see the world through Gypsy eyes.

A Life Less Ordinary John Hodge,1997 He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

Something Big Has Been Here Jack Prelutsky,1990-09-08 Something big is right here! It is this book of wonderful, funny new poems by Jack Prelutsky. If you've read *The New Kid on the Block*, you have some idea of the treat ahead. And if you haven't, all you have to do is start reading! Here are four vain and ancient tortoises, a rat of culture, Super Samson Simpson, a meat loaf that defies an ax, five flying hotdogs--and many, many more people, animals, and things that are destined to become part of the lives of everyone who loves to laugh. Say them, chant them, learn them by heart, or just read them--Jack Prelutsky's poems are incomparable. The long-awaited companion to *The New Kid on the Block*. A wealth of funny new verse from a favorite poet. Prelutsky's comic muse is at its best here....Another winner.--Kirkus Reviews. Prelutsky has done it again.--School Library Journal

Medicare Laboratory Payment Policy Institute of Medicine,Division of Health Care Services,Committee on Medicare Payment Methodology for Clinical Laboratory Services,2000-12-04 Clinical laboratory tests play an integral role in helping physicians diagnose and treat patients. New developments in laboratory technology offer the prospect of improvements in diagnosis and care, but will place an increased burden on the payment system. Medicare, the federal program providing coverage of health-care services for the elderly and disabled, is the largest payer of clinical laboratory services. Originally designed in the early 1980s, Medicare's payment policy methodology for outpatient laboratory services has not evolved to take into account technology, market, and regulatory changes, and is now outdated. This report examines the current Medicare payment methodology for outpatient clinical laboratory services in the context of environmental and technological trends, evaluates payment policy alternatives, and makes recommendations to improve the system.

Andocides Andocides,1995 Rational persuasion and appeal to an audience's emotions are elements of most literature, but they are found in their purest form in oratory. The speeches written by the Greek Orators for delivery in law-courts, deliberative councils and assemblies enjoyed an honoured literary status, and rightly so, for the best of them have great vitality.

Affective Health and Masculinities in South Africa Hans Reihling, 2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
