Choosing a Web Host Peter Laws,2018-11-25 Choosing a Web Host is a brief guide to what you should look for when it comes to the important decision of which website hosting service to entrust your website to. How to choose your web hosting provider is not a decision to be taken lightly, and Gordon Goodfellow considers the rationale behind what makes a good host and what makes an exceptional web host. Matters such as downtime, technical support, cPanel, multiple domain hosting, subdomains, SEO and secure servers are considered carefully in this tightly packed little volume. The case is made for a hosting service which is amply equipped to provide comprehensive support which is able to grow as your business grows. The final section of the book consists of a highly useful, illustrated guide to setting up with the 'winner' of the hosting companies from opening the account to changing the nameservers. This is a very practical source of wisdom based on 20 years of Internet, webmaster and hosting experience. You cannot go wrong by following the advice within.
Setting Up a Weather Station and Understanding the Weather Roger Brugge,2016-07-31 This fascinating and well-illustrated book, which is packed with valuable information and advice, provides a complete guide to observing, recording and understanding the weather and to setting up an amateur weather station. As the author explains, the advent of relatively modern electronic weather sensors means that weather observing is now within the reach of almost everybody. Moreover, thanks to computer software and the internet, it is easier than ever before to record and share with others your weather data and observations. The book considers why it is useful and interesting to set up a weather station and observe the weather, and outlines many different types of weather. It explains how to get started and describes the instruments that are available to the amateur meteorologist. It further demonstrates how good observations can be made using some simple instruments, or, in some instances, no instruments at all. It discusses clouds, snow, wind, optical phenomena, thunder dust, ash and hail and examines atmospheric pressure, precipitation, thermometer screens, air temperature and humidy, soil and surface temperatures and evaporation. It covers sunshine and solar radiation, and also local weather and climate and includes a

valuable chapter on instrument and computer software suppliers. Essential reading for all those with an interest in observing and understanding the weather, and superbly illustrated with 132 colour photographs and 20 charts & graphs.

A Storm of Strawberries Jo Cotterill,2017-06-29 Darby loves summer on her family's strawberry farm - but is the weather about to turn? A UK nomination for IBBY's List of Outstanding Books for Young People with Disabilities 2019 Darby is twelve and has Down's syndrome. Her favourite things are music, chocolate, and her big sister Kaydee. It's nearly time for the annual chocolate hunt, the highlight of Darby's year, but Kaydee has brought a friend home for the weekend. Suddenly both the chocolate hunt and her favourite person are in danger of slipping away... and to make things worse, the family's strawberry farm is hit by a tornado. When the storm clears, what will be left? And can Darby mend what's been broken when nobody will listen to her? A warm, thoughtful and empathetic novel from acclaimed author Jo Cotterill.
