Local Education Order Stephen Hester,D. W. Francis,2000-01-01 The studies in this book take an ethnomethodological approach to educational phenomena. Ethnomethodology's concern is with the locally accomplished and situated character of social order. With reference to educational phenomena, this means that ethnomethodology investigates how the 'natural facts' of educational life, such as daily activities in school classrooms, are produced as such in the first place, rather than taking for granted the recognisability of these facts and then theorising their explanation. In this sense, ethnomethodological studies contrast markedly with other approaches to the study of education. Each of the chapters in the book consists of a new and original study. Collectively, they exhibit the continuing vitality of this tradition and demonstrate ethnomethodology's special commitment to the analysis of educational phenomena as locally ordered and accomplished.

This handbook, by a former catcher, offers precise advice on everything one needs to succeed behind the plate at the high school, collegiate and professional levels. Drawing on real-life scenarios, it addresses nearly every situation a catcher could ever encounter. In addition to the mechanics of catching, blocking, picking, throwing, and catching pop-ups, topics include choosing the right gear; developing a relationship with the umpire; how to call a great game; when to call a pick-off; how to get runners out or keep them from advancing; making the tag at the plate; how to carry yourself like a team leader; injury prevention and other issues. With tips and drills designed to improve specific skills, this guide is indispensable for any catcher looking to up his game.
