Pragmatism, Education, and Children, 2008-01-01 This book presents fourteen new essays by international scholars about the intersections between pragmatism, education, and philosophy with children. Pragmatism from its beginnings has sought a revolution in learning, and is itself a special kind of philosophy of education. What can the applications of pragmatism to pedagogy around the world teach us today?

Communicating with Normal and Retarded Children W. I. Fraser, R. Grieve, 2014-05-15 Communicating with Normal and Retarded Children explores the way in which normal children acquire language and the mistakes they make. It aims to trace the common growth between professions in understanding of normal language development and the retarded person's language and to encourage research, particularly of an interdisciplinary kind. This book is organized into five main sections. The contributors provide different professional perspectives of how and why the mentally retarded get their communication wrong and what remedies can be applied. They also present their own research findings, often in little-explored areas or from a novel angle, and offer their opinion on the types and topics of research that should be carried out. This book will be of interest to academic and clinical psychologists, educators, linguists, advisors and tutors in nursing and social studies, child health doctors, psychiatrists, and a range of therapists.

Understanding Cognitive Development Maggie McGonigle-Chalmers, 2015-03-19 Understanding Cognitive Development provides a fresh, evidence-based research perspective on the story of children's cognitive development in the first ten years of human life. Starting with a brief survey of the key theoretical positions that have come to define developmental psychology, the textbook then focuses on the different cognitive abilities as they emerge throughout early development. Uniquely, it examines these in terms of their interdependence; that is how skills such as perception, memory, language and reasoning relate to one another. This holistic treatment allows students to see the many important intersections in this critical phase of human life development. This textbook employs a novel design that will be of immense help to both students and instructors and is intended to be read at two levels: at the first level, it provides a fully referenced explanatory account of experimental research on cognitive development with complete attention to the needs of students who have never been exposed to experimental methodology nor studies in cognitive development before. At the second level, and mapped directly onto numbered sub-sections within the text, the author uses illustrative panels designed along the lines of PowerPoint presentations to summarise studies and key findings, employing lots of pictorial material together with bullet-points to give vividness and texture to the material covered. These panels are replicated on the accompanying companion website in PowerPoint for lecturers and students to make further use of in teaching and revision. Revision points are provided at the end of every chapter. Rich in academic coverage, including a widespread database of the most important empirical research in the field, this textbook will be essential reading for students of cognitive development and developmental psychology across psychology and education.

Conversations that Make a Difference for Children and Young People Lisa Cherry, 2021-05-19 In this unique book, international trainer and consultant Lisa Cherry invites professionals from education, social work and healthcare to engage in conversations on a range of pertinent topics and issues affecting children and young people today. Divided into three main parts, which introduce attachment, adversity and trauma, each discussion places an emphasis on emotion and the understanding that we have as humans for compassion, empathy and connection. By encouraging collaboration between sectors and exploring a range of intersecting themes, the conversations take the reader on a winding journey to broaden their depth of thinking, reflect on their practice and to consider the central message: that we can bring about social change, one interaction at a time. This book is a call to action and an opportunity to look around and decide what kind of service we want to provide, what kind of community we want to live in and what sort of legacy we want to leave. At a time of ever-present social and political challenges, this book will stimulate conversations on current practice and professional

development for the future and is a must-read for everyone working with children and young people.

How to Make Children Laugh Michael Rosen, 2018-05-17 'A WORK OF GENIUS' - Chris Evans Jokes, a jack-in-the-box, jelly and jumping beans make children laugh. As do practical jokes, peekaboo, pantomime and poetry that makes no sense. Why and how does this work? And why does it matter? Writer and Professor of Children's Literature Michael Rosen, whose books - from *We're Going on a Bear Hunt* to *Chocolate Cake* - have made millions of children rock with laughter, gives us the tools for this greatest of gifts.

A Wedding Of Sorts Liana Brooks, 2022-01-15 In retrospect, telling the prince that death surpasses marriage to him? Maybe a trifle theatrical... Now she stands at the edge of an ocean-side cliff in boggy, new-spring mud and a crown of ivy, hoping she can make the prince see reason. He says her magic can win him the war. She insists she has none. One of them is lying. A twisty riff on classic fairy tales about taking your future into your own hands. Don't miss the wedding of the season!

When Mother Lets Us Garden Frances Duncan, 2009-02 Part of the *When Mother Lets Us...* series, Frances Duncan's 1909 work provides clear and simple instructions designed to help young people develop their own gardens.

Eight Setbacks That Can Make a Child a Success Michelle Icard, 2023-08-22 Turn common adolescent missteps, from relationship blunders to rebellions that backfire, into character-building moments—by the author of *Fourteen Talks by Age Fourteen*. “This clear-eyed, practical, fun-to-read guide is an essential read for every parent.”—Lisa Damour, PhD, New York Times bestselling author of *Untangled*, *Under Pressure*, and *The Emotional Lives of Teenagers* Every child messes up, sometimes in ways that seem sure to wreck their futures: a bad report card, poor sportsmanship, underaged drinking. These are tough moments for parent and child alike, often complicated by the fear that the misstep is also an indictment of our parenting. But what each of these “fails” has in common for our kids is the precious silver lining of a chance for character building and developing more grit—if we help them process their mistake well. An invaluable playbook for anxious parents everywhere, *Eight Setbacks That Can Make a Child a Success* offers specific and unexpected advice about what to say, what not to say, and what to do to help children in eight categories of tense situations. Distilled from Michelle Icard's decades of experience working with tweens, teenagers, and families, it also introduces her signature three-step approach to any kind of failure: • Contain: Affirm your child, gather the facts, and control the narrative. • Resolve: Explain what went wrong, define clear consequences, teach them to apologize well, and develop a plan to rebuild trust. • Evolve: Reaffirm and re-expand their rights, and establish rewards for good behaviors. With empathy, insight, and optimism, Michelle Icard's advice ensures that a child's mistake or rebellion doesn't become the headline of their childhood, but instead becomes a launch pad to a better future.

Homemade Kids Nicola Baird, 2010-07-01 Modern living offers convenience, and as parents we need all the help we can get. Food is produced in abundance, and clothes are cheap enough for us to use and then discard. But is it necessary to be so wasteful? And is this really how we want to raise our children? *Homemade Kids* is full of top tips, inspirational ideas and practical advice that will help you to: make your home a more healthy, energy-efficient environment create toys and fun activities for your baby decide whether reusable nappies are the right choice for you consider the best feeding and transport solutions for your family Raising a healthy, happy child doesn't need to be a complicated process that puts a strain on the planet and your wallet. *Homemade Kids* takes you back to basics and reminds you of the simple pleasures of parenting.

It Takes All Sorts Peter Roebuck, 2005-08-01 In *It Takes All Sorts*, Peter Roebuck meanders through his 25-year career in reporting cricket, to

reveal the people and the personalities who have touched his life and contributed to his life-long passion for the game. Roebuck provides warts-and-all insights into the comings and goings, greats and not-so-greats, debuts and retirements, the controversies of recent professional cricket and great innings in between. Roebuck has seen it all and isn't afraid to comment: he's interviewed Sir (or is that Saint?) Garfield Sobers' mum, was on the scene (and on the front page) when Gilchrist walked, poked gentle fun at Inzamam's fielding, and touched many with his account of young Sri Lankan boys playing cricket on a beach in Galle. Peter Roebuck pulls no punches - whether friend or foe, all his subjects are linked by the great and noble game of cricket and he is not afraid to tell it how he sees it.

Media and the Make-Believe Worlds of Children Maya Gotz,Dafna Lemish,Hyesung Moon,Amy Aidman,2014-04-04 Media and the Make-Believe Worlds of Children offers new insights into children's descriptions of their invented or make-believe worlds, and the role that the children's experience with media plays in creating these worlds. Based on the results of a cross-cultural study conducted in the United States, Germany, Israel, and South Korea, it offers an innovative look at media's role on children's creative lives. This distinctive volume: *outlines the central debates and research findings in the area of children, fantasy worlds, and the media; *provides a descriptive account of children's make-believe worlds and their wishes for actions they would like to take in these worlds; *highlights the centrality of media in children's make believe worlds; *emphasizes the multiple creative ways in which children use media as resources in their environment to express their own inner worlds; and *suggests the various ways in which the tension between traditional gender portrayals that continue to dominate media texts and children's wishes to act are presented in their fantasies. The work also demonstrates the value of research in unveiling the complicated ways in which media are woven into the fabric of children's everyday lives, examining the creative and sophisticated uses they make of their contents, and highlighting the responsibility that producers of media texts for children have in offering young viewers a wide array of role models and narratives to use in their fantasies. The downloadable resources provide full-color images of the artwork produced during the study. This book will appeal to scholars and graduate students in children and media, early childhood education, and developmental psychology. It can be used in graduate level courses in these areas.

Make Love Whenever Possible When Married with Children Leslie Kaplan,2009-09 Make Love Whenever Possible When Married With Children is playful and poignant with spirited vignettes like Seduce your spouse with humor, Be a flasher, and Experience the post-vasectomy sexual renaissance. Leslie Mancillas and Peg Melnik teamed up to write the book based on the following prescription program for staying sane within the madness of family life: 1. Be an opportunist. Make love whenever possible. 2. Date your spouse. Don't put off dating for two decades until your kids are conveniently in college. 3. Tend to your spouse. Even adults need to be nurtured. 4. Plan for chaos. 5. Become a top-flight negotiator. Marriage is one long, unwieldy negotiation. Keep closing the deal. 6. Keep close to your spirit. Find ways to nurture yourself. The co-authors firmly believe couples are living their most challenging years when they have children under their roof. Parents inhabit a different world than do those without children, one ruled by the needs of small people. The sheer responsibility that comes with parenthood can, over time, complicate even the healthiest marriage. While the divorce rate in America is at an astonishing 62 percent, staying happily married with children is not an insurmountable challenge as long as you realize it requires a kind of vigilance. It requires perspective, insight and, most importantly, the energy to keep a strong connection with your spouse. The authors use wisdom and wit to detail valuable tips drawn from their own experiences both positive and negative. The book is broken into six chapters, with a series of vignettes approximately one to three pages in length. Some of the more visual scenes from the book include playing hooky with your spouse, renewing marriage vows at Notre Dame and absent-mindedly driving to work with a plateful of cookies flying off the roof of the car, littering the road. Mancillas and Melnik's 100-page survival guide will no doubt be a compelling read, the best-selling bible for the married-with-kids crowd.
