Maker Camp Delanie Holton-Fessler, 2021-02-23

Classic and innovative hands-on projects for kids ages 3 and up designed to teach both heritage skills and how to think creatively. Handcraft is part of human nature: we build, we create, we innovate. The 20+ projects in this book from an experienced art educator weave a story of human innovation and creativity, from the very beginnings of building shelters in the woods to tinkering with recycled materials. Heritage skills teach children how to be independent and capable makers; fiber and wood projects offer rewarding crafts that also teach planning, preparation, and safe risk taking; and tinkering activities connect the low-tech process of making and doing with innovation. From soap carving and knot tying to building toy cars and junk robots, this book brings the fun of making things with your hands to young kids and links skills of the past with the present. The book also explores how to set up a maker space and teaches foundational workshop practices that can easily be applied to the home studio. Each project offers extensions for different ages and abilities and provides guiding questions to enrich the experience for both the maker (teacher/parent) and the apprentice (child) to encourage and celebrate creative, practical play.

71 ARTS & CRAFTS FOR SCHOOL CHILDREN V&S

EDITORIAL BOARD, 2015-01-09 Art and Craft is a diverse and creative subject that allows kids to explore ideas or concepts and then express it by

making something. Today arts and crafts are a great pastime and educational tool for kids. It can not only keep the tiny tots busy and entertained on a rainy day, but also extend a child's fine motor skills, develop concepts like colour or numbers and see scientific processes like gluing and paint drying in action. It also helps to develop the creative instincts of a child, who is ever so enthusiastic to learn and create something new. However, children always need their parents' or teachers' guidance, attention along with love and affection in their lives. Hence, drawing, painting or making simple, yet attractive craft items with them could be real fun and a great way to create a lifetime of memories for you and your children/students, as the case may be. The book is a treasure trove of novel ideas and beautiful creations of Arts and Crafts with easily available objects, such as: crayons, water and oil colours of different shades, glue, scissors, paper, wax, clay, stones, metal pieces, magnets, leaves, flowers, etc. There are collage items, various coloured paper craft items, marble painting, sculpting, greeting cards, paper lanterns, bookmarks, balloon mask, etc. that have been explained in the book in detail, exclusively for school children in the age group of 5 to 12 years. Thus, the book will serve as a useful guide for art and craft teachers as well as parents, who are always keen to decipher and carve out the best for the young ones.
